Myth And Meaning In Early Taoism The Theme Of Chaos:

Myth and Meaning in Early Taoism N. J. Girardot, 1988 *Myth and Meaning in Early Daoism* examines some of the earliest texts associated with the Daoist tradition primarily the *Daode jing* Zhuangzi and Huainanzi from the outlook of the comparative history of religions and finds a kind of thematic and soteriological unity rooted in the mythological symbolism of *hundun* the primal chaos being and principle that is foundational for the philosophy and practice of the Dao as *creatio continua* in cosmic social and individual life Dedicated to the proposition that ancient Chinese texts and traditions are often best understood from a broad interdisciplinary and interpretive perspective this work when it was written challenged many prevailing conceptions of the *Daode jing* and Zhuangzi as primarily philosophical texts without any religious significance or affinity with the later sectarian traditions While controversial and at times playfully provocative the methodology and findings of this book are still important for the ongoing scholarship about Daoism in China and the world **Myth and**

N. J. Girardot, 1983 *Chaosmos* Philip Kuberski, 1994-07-01 This book shows how writers like James Joyce James Merrill and Doris Lessing scientists like Gregory Bateson Ilya Prigogine and David Bohm and theorists like Jacques Derrida Jacques Lacan and Michel Serres forecasted and initiated a shift away from modernist conceptions of the world as a machine the self as an isolated enclosed principle and representation as a reductive survey of the world and the self The focus of this book is the *chaosmos* a Joycean coinage apparent within the atom and also within analogous nuclear sites such as the self the word the organism and the world By *chaosmos* Kuberski intends a unitary and yet untotaled a chiasmic concept of the world as a field of inevitable and intermittent interference and convergence a multi leveled complexity from which emerge organisms languages and selves In exploring and mapping *chaosmos* Kuberski emphasizes significant convergences of literary and philosophic deconstructive and organistic Eastern and Western and scientific and humanistic points of view *Androgyny in Late Ming and Early Qing Literature* Zuyan Zhou, 2003-02-28 The frequent appearance of androgyny in Ming and Qing literature has long interested scholars of late imperial Chinese culture A flourishing economy widespread education rising

individualism a prevailing hedonism all of these had contributed to the gradual disintegration of traditional gender roles in late Ming and early Qing China 1550 1750 and given rise to the phenomenon of androgyny Now Zuyan Zhou sheds new light on this important period offering a highly original and astute look at the concept of androgyny in key works of Chinese fiction and drama from the sixteenth to the eighteenth centuries The work begins with an exploration of androgyny in Chinese philosophy and Ming Qing culture Zhou proceeds to examine chronologically the appearance of androgyny in major literary writing of the time yielding novel interpretations of canonical works from The Plum in the Golden Vase through the scholar beauty romances to The Dream of the Red Chamber He traces the ascendance of the androgyny craze in the late Ming its culmination in the Ming Qing transition and its gradual phasing out after the mid Qing The study probes deviations from engendered codes of behavior both in culture and literature then focuses on two parallel areas androgyny in literary characterization and androgyny in literati identity The author concludes that androgyny in late Ming and early Qing literature is essentially the dissident literati's stance against tyrannical politics a psychological strategy to relieve anxiety over growing political inferiority

East-West Symbioses Eugene Eoyang, 2019-03-15 This book explores the encounters between East and West studying how they get along These exchanges involve deliberate exoticizations and incommensurabilities as well as creative fusions such as Matteo Ricci a Jesuit monk in the late 16th early 17th centuries who learned Chinese in Beijing well enough to compose works in Chinese and Octavio Paz the Mexican Nobel Laureate who admired Chinese civilization The book also considers the effect of the West on Asian countries the cases of Japan and Turkey who tried to modernize by becoming more Western and the examples of China and Korea who adopted Western forms of theatre to advance a distinctly Asian aesthetic It will appeal to anyone seeking more than a superficial understanding of the encounters between East and West

A Conceptual Lexicon for Classical Confucian Philosophy Roger T. Ames, 2022-10-01 Over the years Roger T Ames and his collaborators have consistently argued for a processual understanding of Chinese natural cosmology made explicit in the Book of Changes It is this way of thinking captured in its own interpretive context with the expression continuities in change *biantong* that has shaped the grammar of the Chinese language and informs the key philosophical vocabulary of Confucian philosophy Over the past several centuries of cultural encounter the formula established by the early missionaries for the translation of classical Chinese texts into Western languages has resulted in a Christian conversion of Confucian texts that is still very much with us today And more recently the invention of a new Chinese language to synchronize East Asian cultures with Western modernity has become another obstacle in our reading of the Confucian canons This volume a companion volume to A Sourcebook in Classical Confucian Philosophy employs a comparative hermeneutical method in an attempt to explain the Confucian terms of art and to take the Confucian tradition on its own terms

An Introduction to Daoist Philosophies Steve Coutinho, 2013-11-05 Steve Coutinho explores in detail the fundamental concepts of Daoist thought as represented in three early texts: the Laozi, the Zhuangzi, and the Liezi. Readers interested in philosophy yet unfamiliar with Daoism will gain a comprehensive understanding of these works from this analysis, and readers fascinated by ancient China who also wish to grasp its philosophical foundations will appreciate the clarity and depth of Coutinho's explanations. Coutinho writes a volume for all readers, whether or not they have a background in philosophy or Chinese studies. A work of comparative philosophy, this volume also integrates the concepts and methods of contemporary philosophical discourse into a discussion of early Chinese thought. The resulting dialogue relates ancient Chinese thought to contemporary philosophical issues and uses modern Western ideas and approaches to throw new interpretive light on classical texts. Rather than function as historical curiosities, these works act as living philosophies in conversation with contemporary thought and experience. Coutinho respects the multiplicity of Daoist philosophies while also revealing a distinctive philosophical sensibility, and he provides clear explanations of these complex texts without resorting to oversimplification.
