Raphael Patai

Myth And Modern Man:

Ancient Myth and Modern Man Gerald A. Larue, 1975 The themes in this book relate to the background of many present day moral concerns including abortion women's liberation and war It reveals the flow of ideas from ancient Egypt and Mesopotamia and discusses the alternative approaches to life found in societies from the Nile to the Euphrates Biblical myths and modern myths are examined with a final section devoted to future myths Problems of change and human identity are considered The myths are organized according to type and grouped under country of origin This book raises questions and helps to evaluate the way in which the ancient past affects present life styles Publisher *Myth and Modern Man* Raphael Patai, 1972 The Myth of Modernity Charles Baudouin, 2015-04-17 First published in 1950 this is a late work by Charles Baudouin world famous French psychologist and takes its title from the opening chapter which examines the transformation of the myth of Progress characteristic of the eighteenth and nineteenth centuries into the myth of Modernity characteristic of the time of writing The author has little sympathy for a development which he regards as essentially vulgar the myth of Progress he says had its aspiration and gave man reasons for reaching out for better things but the myth of Modernity seems to give humanity reasons only for fleeing from itself reasons for unhappiness inasmuch as the man who runs away from himself is an unhappy man This chapter is characteristic of those that follow on Baudelaire Verlaine and other literary topics on Art and the Epoch The Prestige of Action Technique versus Mysticism Opinion and Tolerance etc A broad humanity and a gentle irony are the characteristic features of this stimulating book now available again to be enjoyed in its historical context

Myth and modern man, 1972 **The Body in the Text** Evi Voyiatzaki, 2002-01-01 The Body in the Text highlights the importance of the body in language and narrative and its impact on meaning and signification Evi Voyiatzaki's insightful work reveals the highly metaphoric and symbolic texture of James Joyce's Ulysses which the author contends resembles the organization of a living organism The book examines how the living meaning of the word in Joyce's texts has inspired the work of three avant garde Greek writers Nikos Gavrili Pentzikis Stelios Xefloulas and Giorgos Cheimonas A valuable comparison between Joyce's work and modern Greek literature The Body in the Text's comparative exploration of the body's functions within literary discourse offers new insight into language's metaphoricity and the physiology of writing The Lloyd Geering Reader Lloyd Geering, 2007 Covering a period of more than 45 years this is the first collection of the writings of international figure Lloyd Geering a premier public intellectual who was once found guilty of heresy by the Presbyterian Church With never before seen material this compendium demonstrates the remarkable consistency in the thought of this increasingly influential thinker Provocative and heartfelt this compilation provides a fascinating coverage of the engagement of religion and the modern world The Poimandres as Myth Robert A. Segal, 2014-10-15 No detailed description available for The Poimandres as Myth *Myth and Metaphysics* W.A. Luijpen, 2012-12-06 This book is an attempt to interpret man's religious existence an interpretation for which some of the groundwork was laid by the author's book PHENOMENOLOGY

AND ATHEISM Duquesne University Press 2nd impression 1965 That work explored the denial of God by the leading atheists and came to terms with the most typical forms assumed by their denials Nevertheless I am not an adherent of atheism The reason why it is possible to agree with many atheists without becoming one of them is that man can misunderstand his own religiousness or lapse into an inauthentic form of being a believer What many atheists unmask is one or the other form of pseudo religiousness which should be unmasked On the other hand I have also constantly refused to identify religiousness with such inauthentic forms and to define it in terms of those forms just as I refuse to identify the appendix with appendicitis the heart with an infarct the psyche as a disturbance and marriage as a fight The book offered here has been written since the rise of the radical God is dead theology This theology without God has often been presented as the only form of theological thought still suitable for modern man As the reader will notice I reject the brash facility with which some modern men measure the relevance of anything by its modernity

In Quest of the Hero Otto Rank, Fitzroy Richard Somerset Raglan, Alan Dundes, 1990-11-21 In Quest of the Hero makes available for a new generation of readers two key works on hero myths Otto Rank's Myth of the Birth of the Hero and the central section of Lord Raglan's The Hero Amplifying these is Alan Dundes's fascinating contemporary inquiry The Hero Pattern and the Life of Jesus Examined here are the patterns found in the lore surrounding historical or legendary figures like Gilgamesh Moses David Oedipus Odysseus Perseus Heracles Aeneas Romulus Siegfried Lohengrin Arthur and Buddha Rank's monograph remains the classic application of Freudian theory to hero myths In The Hero the noted English ethnologist Raglan singles out the myth ritualist pattern in James Frazer's many sided Golden Bough and applies that pattern to hero myths Dundes the eminent folklorist at the University of California at Berkeley applies the theories of Rank Raglan and others to the case of Jesus In his introduction to this selection from Rank Raglan and Dundes Robert Segal author of the major study of Joseph Campbell charts the history of theorizing about hero myths and compares the approaches of Rank Raglan Dundes and Campbell

Anarcho-primitivism, The Bridge Michael W. McGowan, 2015-05-04 Philosophers of religion and theologians have long wrestled with the concept of revelation Does God reveal truth to human subjects primarily through sacred texts or audible voices Through inner experiences or pronouncements of religious leaders What is the relationship between the truths given in revelation and those discoverable by reason Revelation is a challenge not only to scholars but also for churchgoers How can the same God command one person to do one thing and another to do something quite different In The Bridge Michael McGowan explores how a number of great twentieth and twenty first century thinkers understand the concept of revelation Using insights from their work and some recent advances in literary theory and communication studies he constructs a model of revelation in which symbol and narrative figure heavily Ancient ideas are given new life in this contemporary explication of the nature of revelation God as the Revealer and revelation's implications

colours *The Routledge Companion to the Study of Religion* John R. Hinnells, 2005 The Routledge Companion to the Study of Religion contains everything a student needs for a full understanding of theory and methods in religious studies It begins by explaining the most important methodological approaches to religion including psychology philosophy anthropology and comparative study before moving on to explore a wide variety of critical issues Written entirely by renowned international specialists and using clear and accessible language throughout it is the perfect guide to the problems and questions found in courses and exams *Christology and Myth in the New Testament* Geraint Vaughan Jones, 2025-03-01 Christology and Myth in the New Testament 1956 enquires into the extent and origin of the mythological language and ideas underlying the Christology of the New Testament It examines the demythologizing principles and refers to the existential method of reinterpreting those New Testament concepts which are bound up with Hellenistic thought forms and the cosmology of the ancient world while also exploring other philosophical and theological interpretations It considers that the mythical Christology of the New Testament writers should be understood poetically and metaphorically rather than as consisting of objective statements about Jesus and his place in creation The final section of the book is a defence of the retention of mythical concepts and language as psychologically and theologically necessary expressions of a religious faith which cannot be adequately expressed in merely propositional form **'Homo Religiosus' in Mircea Eliade** Saliba, 2023-09-20

Nihilist Order Professor David Ohana, 2016-04-19 The explosive combination of nihilist leanings together with a craving for totalitarianism was an ideal of philosophers cultural critics political theorists engineers architects and aesthetes long before it materialised in flesh and blood not only in technology but also in fascism Nazism bolshevism and radical European political movements The Nihilist Order originally published in three hardcover volumes and now published in a consolidated paperback edition with an encompassing new Introduction inspired excellent review endorsements both amongst the academic and public spheres and has been heralded as a great achievement in European intellectual and cultural history

The Dawn of Political Nihilism Professor David Ohana, 2008-12-04 In the turbulent period between 1870 and 1930 the contours on modernity were taking shape especially the connections between technology politics and aesthetics The trilogy The Nihilist Order traces the genealogy of the nihilist totalitarian syndrome Until now nihilism and totalitarianism were considered opposites one an orderless state of affairs the other a strict regimented order On closer scrutiny however a surprising affinity can be found between these two concepts that dominated the history of the first half of the twentieth century Starting with Nietzsche's philosophy this book traces the development of an intellectual school characterised by the paradoxical dual purpose of a wish to destroy coupled with a strong desire to create imposing structures This explosive combination of nihilist leanings together with a craving for totalitarianism was an ideal of philosophers cultural critics political theorists engineers architects and aesthetes long before it materialised in flesh and blood not only in technology but also in fascism Nazism bolshevism and radical European political movements Friedrich Nietzsche Georges Sorel the Italian

Futurists led by Filippo Tommaso Marinetti and Ernst Jünger were all well known intellectual and cultural figures. Here they are seen and understood in a different light as creators of a modern political mythology that became a source of inspiration for belligerent ideological camps. Among the ideas propagated by this school and later adopted by totalitarian regimes were historical nihilism, a revolt against the rationalistic and universalistic pretensions of the Enlightenment, an affirmation of the dynamism of modern life and the replacement of the traditional Judeo-Christian values of good and evil by other dualities such as authenticity and decadence. Concurrently there took place affirmation of the technological era, the creation of a new man and a violent order and the birth of a new political style in place of traditional world views. When channelled into the political sphere, these aesthetic nihilist ideas paved the way for the rise of totalitarianism. *Robert Duncan* Robert

Duncan, 2019-10-22. This volume in the *Collected Writings of Robert Duncan* series gathers a far-reaching selection of Robert Duncan's prose writings, including most of his longer and more well-known essays along with other prose that has never been widely available. Ranging in original publication dates between 1940 and 1985, the forty-one titles reveal a great deal about Duncan's life in poetry, including his impressions of poets whose work he admires, both contemporaries and precursors. Evocative and eclectic, this work delineates the intellectual contexts and sources of Duncan's poetics and opens a window onto the literary communities in which he participated.
