**We Must Have Certainty** J. Kenneth Van Dover, 2005 We Must Have Certainty surveys the development of the genre of the detective story from its origins in the mid nineteenth century to its current profile in the early twenty first century It locates a principal appeal of the genre in the nature of the world that the detective necessarily inhabits a world of more or less realistic violence and excitement and at the same time a world that

always in the end makes sense It suggests that there is a significance to a popular narrative formula that requires that an initial world of suspicion and uncertainty be inevitably transformed by the detective into a world of clarity and order Though scholarship in the field is acknowledged the author's citations are most often from detective stories themselves The essays are written in an accessible style those who have read a few novels in the genre as well as those who have read many will find the book stimulating and provocative

**From Page to Screen / Vom Buch zum Film** Manuel Almagro-Jiménez, Eva Parra-Membrives, 2020-10-05 For a long time now women have struggled for the vindication of their rights and for their visibility This struggle may seem a story of success maybe not complete or equal for all women but at least one which slowly but surely carries with it the promise of equality for all women However a closer look reveals that in various fields of culture the representation of women frequently undergoes a manipulation which makes the image of women lose the intention initially attempted This is often the case with adaptations of literary texts to the screen when the initial literary message is changed because of for example marketing demands or some ideological stance Rarely do we find the opposite case where the indifferent or emasculated original female characters are turned into guardians and or apologists of feminine power The present volume focuses precisely on the way in which the image of women is modified in films and TV series when compared with the original literary texts

**Dining Room Detectives** Silvia Baucková, 2015-09-04 In the structuralist understanding as proposed by John G Cawelti a classical detective novel is defined as a formula which contains prescribed elements and develops in a predefined ritualistic manner When described in this way the crime fiction formula very closely resembles a recipe when one cooks they also add prescribed ingredients in a predefined way in order to produce the final dish This surprising parallel serves as the starting point for this book's analysis of classical detective novels by Agatha Christie Here a structuralist approach to Golden Age crime fiction is complemented by methodology developed in the field of food studies in order to demonstrate the twofold role that food plays in Christie's novels namely its function as an element of the formula a literary device but also as a cultural sign Christie employed food on various different levels of her stories in order to portray characters construct plots and depict settings What is more incorporating domesticity and food in

her novels helped her fundamentally alter the rigid conventions of the crime fiction genre as it developed in the nineteenth century and enabled her to successfully introduce the character of the female detective and to feminise the detective novel as such

**The Tell-Tale Art** Christine A. Jackson, 2011-11-16 Greed and guilt near indecipherable codes murder plots born of madness these motifs drive the best modern mysteries but they are rooted in the early nineteenth century and the carefully constructed fiction of Edgar Allan Poe Poe's methods of storytelling and suspense remain relevant reappearing in detective novels and on screens large and small This work examines a wide selection of today's mystery and thriller novels films television programs and video games to explore Poe's ongoing influence on popular entertainment Authors such as Michael Connelly Stieg Larsson and Dennis Lehane television shows like *The Closer* and *Dexter* and movies from *Laura* and *Vertigo* to *Shutter Island* and *The Girl with the Dragon Tattoo* all receive attention The popularity of Poe's narratives in these contemporary guises is testimony to his visionary genius Instructors considering this book for use in a course may request an examination copy here

[Murder, Manners, Mystery](#) Peter C. Erb, 2007 Highlighting popular works by P D James Colin Dexter Ian Pears and Umberto Eco among others this is an intriguing examination of the treatment of religion in the genre of contemporary murder mystery novels The other central theme examined in this book is that of justice The narrative of any detective fiction novel depends on the murderer's ability to replace a crime with a convincingly constructed illusion of innocence and to escape punishment by means of good manners Erb also looks in detail at the theme of retribution in detective fiction Can justice ever be anything more than retribution death without hope What satisfaction can be made for the loss of a human life How can a murderer ever fully confess a crime and experience thanksgiving in final release from the consequences
