Mythic Vistas Eternal Rome:

Eternal Rome Graeme Davis, 2005 A guide to the glory of Rome Covering major periods from Rome's founding to the final barbarian incursions it gives you what you need to explore this era Packed with historical and mythic details it presents historical games providing the necessary tools to bring Roman culture into existing d20 games Paris Colin Jones, 2006-04-04 From the Roman Emperor Julian who waxed rhapsodic about Parisian wine and figs to Henry Miller who relished its seductive bohemia Paris has been a perennial source of fascination for 2 000 years In this definitive and illuminating history Colin Jones walks us through the city that was a plague infested charnel house during the Middle Ages the bloody epicenter of the French Revolution the muse of nineteenth century Impressionist painters and much more Jones's masterful narrative is enhanced by numerous photographs and feature boxes on the Bastille or Josephine Baker for instance that complete a colorful and comprehensive portrait of a place that has endured Vikings Black Death and the Nazis to emerge as the heart of a resurgent Europe This is a thrilling companion for history buffs and backpack or armchair travelers alike

After La Dolce Vita Alessia Ricciardi, 2012-07-25 This book chronicles the demise of the supposedly leftist Italian cultural establishment during the long 1980s During that time the nation's literary and intellectual vanguard managed to lose the prominence handed it after the end of World War II and the defeat of Fascism What emerged instead was a uniquely Italian brand of cultural capital that deliberately avoided any critical questioning of the prevailing order Ricciardi criticizes the development of this new hegemonic arrangement in film literature philosophy and art criticism She focuses on several turning points Fellini's futile late career critique of Berlusconi style commercial television Calvino's late turn to reactionary belletrism Vattimo's nihilist and conservative responses to French poststructuralism and Bonito Oliva's movement of art commodification Transavanguardia Faulkner's Imperialism Taylor Hagood, 2008-11-15 In Faulkner's Imperialism Taylor Hagood explores two staples of Faulkner's world myth and place Using an interdisciplinary approach to examine the economic sociological and political factors in Faulkner's writing he applies postcolonial theory cultural materialism and the work of the New Southernists to analyze the ways myth and place come together to encode narratives of imperialism and anti imperialism in the worlds in which Faulkner lived and the one that he created The resulting discussion highlights the deeply embedded imperial impulses underpinning not just Yoknapatawpha and Mississippi but the Midwest the Caribbean France and a host of often overlooked corners of the Faulknerian map Faulkner defines space in his fiction by creating places through culturally compelling narratives Although these narrative spaces often have imperial roots Hagood reveals how the oppressed can subvert these mythic places by turning the myths against their oppressors The Greco Roman myths long recognized as part of Faulkner's fictional world for example define racially hybrid spaces ostensibly designed to articulate white patriarchal narratives of imperial control but which actually carry within their very dreams of Arcady an anti imperial narrative In Faulkner's Mississippi Delta which he modeled after the Nile Delta plantation owners evoke the imperial power

of ancient Egypt to confirm their own cultural ascendancy even while African Americans use biblical narratives of the Israelites enslaved in Egypt to speak against the power that controls them Faulkner also used places he personally experienced such as New Orleans a city that he recognized as containing multiple layers of imperial design to dramatize the constant struggle between the oppressor and the oppressed Rather than reading the roles of myth and place according to conventional myth criticism or typical place models used by other Faulkner scholars Hagood examines the intertextuality within Faulkner's writing as well as the relationship of his writing to others work in an attempt to understand how the texts fit together and speak to one another One of the few books that examine Faulkner's work as a whole Faulkner's Imperialism moves beyond South versus North paradigms to encompass all the spaces within Faulkner's created cosmos considering their interrelationships in a precise holistic way *Bowker's Complete Video Directory*, 2000 *Realpoetik* Paul

Hamilton, 2013-11-14 *Realpoetik* compares the writings of key German French and Italian Romantics with an eye to their differences from British Romanticism The principle of selection is to choose writers whose use of fiction is realistic not realist but fundamentally contributory to the purposes of non-fictional discourse The political resonance audible when we put Real at the start of a compound noun is also true to the period looked at At that time positive political institutions were recovering from their upending in the French Revolution and their strategic re-shaping in the period of Restoration after Napoleon In this volume Paul Hamilton pinpoints a moment when the political imagination was actually creative of political reality It is a long gloss on Friedrich Meinecke's description of the early Romantic period in Germany as that past era of teeming intellectual impulses with its excess of non-political political ideals but Hamilton finds his insight into the contemporary inextricability of the ideal and the political true of France and Italy Before the existence of a unified Germany or Italy and in the new France after Napoleon there was an opportunity and a necessity to imagine the kind of nation which would be desirable *Realpoetik* examines the extent to which this illuminates the fiction and philosophy of Friedrich Schlegel Madame de Staël Giacomo Leopardi and others It also reflects on current dissatisfaction with existing political arrangements and our contemporary desire to re-imagine a new more representative politics **Serfdom, Society, and the Arts in Imperial**
