A Classical Dictionary of Biography, Mythology, and Geography William Smith, 1872 The Routledge Handbook of Greek Mythology Robin Hard, 2004 This volume offers an account of the various gods and heroes of ancient Greek mythology This book features a narrative framework that includes signposting so that the book can be used as reference work It includes documentation of the ancient sources maps and genealogical tables It is illustrated with numerous photographs and line drawings The author incorporates the latest research into accounts of all the gods and heroes He includes full documentation of the ancient sources maps and genealogical tables It is illustrated throughout with numerous photographs and line drawings also including summaries of the original stories **A New Classical Dictionary of Greek and Roman Biography, mythology and Geography** William Smith, 1871 *Sumerian Mythology* Samuel Noah Kramer, 1944-01-01 The Sumerians were a non Semitic non Indo European people who flourished in southern Babylonia from the beginning of the fourth to the end of the third millennium B C During this long stretch of time the Sumerians whose racial and linguistic affiliations are still unclassifiable represented the dominant cultural group of the entire Near East This cultural dominance manifested itself in three directions 1 It was the Sumerians who developed and probably invented the cuneiform system of writing which was adopted by nearly all the peoples of the Near East and without which the cultural progress of western Asia would have been largely impossible 2 The Sumerians developed religious and spiritual concepts together with a remarkably well integrated pantheon which influenced profoundly all the peoples of the Near East including the Hebrews and the Greeks Moreover by way of Judaism Christianity and Mohammedanism not a few of these spiritual and religious concepts have permeated the modern civilized world 3 The Sumerians produced a vast and highly developed literature largely poetic in character consisting of epics and myths hymns and lamentations proverbs and words of wisdom These compositions are inscribed in cuneiform script on clay tablets which date largely from approximately 1750 B C a In the course of the past hundred years approximately five b thousand such literary pieces have been excavated in the mounds of ancient Sumer Of this number over two thousand more than two thirds of our source material were excavated by the University of Pennsylvania in the mound covering ancient Nippur in the course of four grueling campaigns lasting from 1889 to 1900 these Nippur tablets and fragments represent therefore the major source for the reconstruction of the Sumerian compositions As literary products these Sumerian compositions rank high among the creations of civilized man They compare not unfavorably with the ancient Greek and Hebrew masterpieces and like them mirror the spiritual and intellectual life of an otherwise little known civilization Their significance for a proper appraisal of the cultural and spiritual development of the Near East can hardly be overestimated The Assyrians and Babylonians took them over almost in toto The Hittites translated them into their own language and no doubt imitated them widely The form and contents of the Hebrew literary creations and to a certain

extent even those of the ancient Greeks were profoundly influenced by them As practically the oldest written literature of any significant amount ever uncovered it furnishes new rich and unexpected source material to the archaeologist and anthropologist to the ethnologist and student of folklore to the students of the history of religion and of the history of literature **Dictionary of Greek and Roman Biography and Mythology** William Smith,1870 **Roman Mythology**

Mythology Mudrooroo,2018-09-01 Aboriginals believe they have lived in Australia since the Dreamtime the beginning of all creation and archaeological evidence shows the land has been inhabited for tens of thousands of years Over this time Aboriginal culture has grown a rich variety of mythologies in hundreds of different languages Their unifying feature is a shared belief that the whole universe is alive that we belong to the land and must care for it This was the first book to collate and explain the many fascinating elements of Aboriginal culture the song circles and stories artefacts landmarks characters and customs **Myth, Truth, and Narrative in Herodotus** Emily Baragwanath,Mathieu de Bakker,2012-09-06 Herodotus

the Father of History is infamously known for having employed elements more akin to mythological tales than to unvarnished truth in translating his historical research into narrative form While these narratives provide valuable source material he could not have surmised the hostile reception his work would receive in later generations This mythical aspect of the Histories led many successors most notoriously Plutarch to blame Herodotus for spinning far fetched lies and to set him apart as an untrustworthy historian Echoes of the same criticism resounded in twentieth century scholarship which found it difficult to reconcile Herodotus ambition to write historical stories as they really happened with the choices he made in shaping their form This volume brings together 13 original articles written by specialists in the fields of ancient Greek literature and history Each article seeks to review re establish and rehabilitate the origins forms and functions of the Histories mythological elements These contributions throw new light on Herodotus talents as a narrator underline his versatility in shaping his work and reveal how he was inspired by and constantly engaged with his intellectual milieu The

Herodotus who emerges is a Herculean figure dealing with a vast quantity of material struggling with it as with the Hydra's many growing heads and ultimately rising with consummate skill to the organisational and presentational challenges it posed. The volume ultimately concludes that far from being unrelated to the historical aspects of Herodotus' text the mythic elements prove vital to his presentation of history.
