Mythology Pierre Maranda, 1973 *Digital Mythology and the Internet's Monster* Vivian Asimos, 2021-01-28 Exploring a prominent digital mythology this book proposes a new way of viewing both online narratives and the online communities which tell them The Slender Man a monster known for making children disappear and causing violent deaths to the adults who seek to know more about him is used as an extended case study to explore the role of digital communities as well as the question of the existence of a broader digital culture Structural anthropological mythic analysis and ethnographic details demonstrate how the Slender Man mythology is structured and how its everlasting nature in the online communities demonstrates an importance of the mythos National Library of Medicine Current Catalog National Library of Medicine (U.S.), 1971 **Avant-garde Jazz Musicians** David Glen Such, 1993 **Monographic Series** Library of Congress, 1976

Stave, 2001 This collection of essays treats Gloria Naylor's novels *Mama Day* and *Bailey's Cafe* recognized by scholars and critics as her most significant works Long understood to be a major African American woman writer Gloria Naylor is finally gaining recognition as a contemporary American writer who needs no qualifiers or adjectives before her name One of the few critical studies of her work this text represents the work of a group of scholars who are looking seriously and carefully at Naylor attempting to determine her place not within an intellectual tradition but rather within several traditions BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

Acta Ethnographica, 1979 **Canadiana**, 1975 Modern Sociological Theory George Ritzer, Jeffrey Stepnisky, 2017-01-23 The authors are proud sponsors of the 2020 SAGE Keith Roberts Teaching Innovations Award enabling graduate students and early career faculty to attend the annual ASA pre conference teaching and learning workshop Now with SAGE Publishing and co authored by one of the foremost authorities on sociological theory the Eighth Edition of *Modern Sociological Theory* by George Ritzer and Jeffrey Stepnisky provides a comprehensive overview of the major theorists and theoretical schools from the Structural Functionalism of early 20th century through the cutting edge theories of the late 20th and early 21st centuries The integration of key theories with biographical sketches of theorists and the requisite historical and intellectual context helps students to better understand the original works of contemporary thinkers Beyond Dogmatism and Innocence Anthony J. Godzieba, Bradford E. Hinze, 2017 Behind every important development in Catholic doctrine and practice since the beginning of the modern period have been debates about the interpretation of Christianity's classic texts and traditions and their ideological and practical implications Over the past century there have been breakthroughs in retrieving the origins of beliefs and practices recovering the rich myriad and multifaceted literary forms and recognizing the ways these venerable traditions have been received applied and negotiated in the lives of reading audiences with their contrasting worldviews The essays in this volume by leading figures in Catholic theology suggest what might be called a third naivete that blends deeply contextual interpretations with a critical theological analysis of the roles of

power and grace in church and society The abilities and skills to grapple with basic issues in hermeneutics and critical theory remain necessary and fundamental for Catholic theology At stake is nothing less than how the good news of God's salvation can be grasped and lived today This volume provides a trustworthy map and compass for negotiating these debates and options Contributors include Sandra M Schneiders Francis Schussler Fiorenza Robert J Schreiter John E Thiel Dominic Doyle Fernando F Segovia Andrew Prevot Ormond Rush Judith Gruber Susan Abraham Anthony J Godzieba and Bradford E Hinze

Classical Readings on Culture and Civilization Stephen Mennell, 2017-10-03 In recent times especially under the influence of postmodernism culture has often been construed as a critique of modernity This wide ranging and comprehensive collection of readings shows that such issues have always been at the centre of thought about the relationship between culture and civilization The readings are divided into three sections linking the civilization debate to political theory to the cultural debate and to the sociology and anthropology The substantial extracts included give students a rare chance to engage at length with classic texts to appreciate the nature of the battle between the Enlightenment and its critics which has shaped current thought Classical Readings on Culture and Civilisation presents essays from Immanuel Kant Adam Ferguson Thomas Jefferson Alexis de Tocqueville Friedrich von Schiller Friedrich Nietzsche Georg Simmel Thomas Mann Sigmund Freud Emile Durkheim Marcel Mauss Lucien Febvre Alfred Weber Robert E Park and Norbert Elias

The African-Americanization of the Black Diaspora in Globalization or the Contemporary Capitalist World-System Paul C. Mocombe, Carol Tomlin, Christine Callender, 2016-11-16 This work sets forth the argument that in the age of neoliberal globalization black people around the

world are ever so slowly becoming African Americanized They are integrated and embourgeoised in the racial class dialectic of black America by the material and ideological influences of the Protestant ethic and the spirit of capitalism as promulgated throughout the diaspora by two social class language games of the black American community the black underclass Hip Hop culture speaking for and representing black youth practical consciousness and black American charismatic liberal conservative bourgeois Protestant preachers like TD Jakes Creflo Dollar etc speaking for and representing the black bourgeois educated professional and working classes Although on the surface the practical consciousness and language of the two social class language games appear to diametrically oppose one another the authors argue given the two groups material wealth within the Protestant ethic and the spirit of capitalism of corporate neoliberal America they do not Both groups have the same underlying practical consciousness subjects agents of the Protestant Ethic and the spirit of capitalism The divergences where they exist are due to their interpellation embourgeoisement and differentiation via different ideological apparatuses of the society church and education i e schools for the latter and prisons the streets and athletic and entertainment industries for the former Contemporarily in the age of globalization and neoliberalism both groups have become the bearers of ideological and linguistic domination in black neoliberal America and are antagonistically converging the practical consciousness of the black or African diaspora towards their respective social class language games We are suggesting that the socialization of other black people in the diaspora ought to be examined against and within the dialectical backdrop of this class power dynamic and the cultural and religious heritages of the black American people responsible for this phenomenon or process of convergence we are referring to as the African Americanization of the black diaspora

The Black/White Academic Achievement Gap and Mocombe's Reading Room Series Curriculum Paul C. Mocombe, 2020-09-04 This work explores the concept of structural reproduction and differentiation through the origins of and basis for Paul C Mocombe's Mocombeian Strategy 2005 and Reading Room Curriculum published as Mocombe's Reading Room Series 2007 It highlights how black American practical consciousness and the academic achievement gap are a product of capitalist forces relations of production and their ideological apparatuses As such it is argued here that to resolve the gap black Americans should be treated as immigrant students against their structurally differentiated identities

Globalisation and the Western Legal Tradition David B. Goldman, 2008-02-07 What can globalisation teach us about law in the Western tradition This important new work seeks to explore that question by analysing key ideas and events in the Western legal tradition including the Papal Revolution the Protestant Reformations and the Enlightenment Addressing the role of law morality and politics it looks at the creation of orders which offer the possibility for global harmony in particular the United Nations and the European Union It also considers the unification of international commercial laws in the attempt to understand Western law in a time of accelerating cultural interconnections The title will appeal to scholars of legal history and globalisation as well as students of
