Making All the Difference Martha Minow, 2016-10-01 Should a court order medical treatment for a severely disabled newborn in the face of the parents refusal to authorize it How does the law apply to a neighborhood that objects to a group home for developmentally disabled people Does equality mean treating everyone the same even if such treatment affects some people adversely Does a state requirement of employee maternity leave serve or violate the commitment to gender equality Martha Minow takes a hard look at the way our legal system functions in dealing with people on the basis of race gender age ethnicity religion and disability Minow confronts a variety of dilemmas of difference resulting from contradictory legal strategies strategies that attempt to correct inequalities by sometimes recognizing and sometimes ignoring differences Exploring the historical sources of ideas about difference she

offers challenging alternative ways of conceiving of traits that legal and social institutions have come to regard as different. She argues in effect for a constructed jurisprudence based on the ability to recognize and work with perceptible forms of difference. Minow is passionately interested in the people different people whose lives are regularly mis shaped and mis directed by the legal system's ways of handling them. Drawing on literary and feminist theories and the insights of anthropology and social history she identifies the unstated assumptions that tend to regenerate discrimination through the very reforms that are supposed to eliminate it. Education for handicapped children, conflicts between job and family responsibilities, bilingual education, Native American land claims, these are among the concrete problems she discusses from a fresh angle of vision. Minow firmly rejects the prevailing conception of the self that she believes underlies legal doctrine, a self seen as either separate and autonomous or else disabled and incompetent in some way. In contrast she regards the self as being realized through connection, capable of shaping an identity only in relationship to other people. She shifts the focus for problem solving from the different person to the relationships that construct that difference and she proposes an analysis that can turn difference from a basis of stigma and a rationale for unequal treatment into a point of human connection. The meanings of many differences can change when people locate and revise their relationships to difference, she asserts. The student in a wheelchair becomes less different when the building designed without him in mind is altered to permit his access. Her book evaluates contemporary legal theories and reformulates legal rights for women, children, persons with disabilities and others historically identified as different. Here is a powerful voice for change speaking to issues that permeate our daily lives and form a central part of the work of law. By illuminating the many ways in which people differ from one another, this book shows how lawyers, political theorists, teachers, parents, students, every one of us can make all the difference.

Spiritual Education in a Divided World Cathy Ota, Mark Chater, 2007-03-15 In the era of globalization debate has turned to the vital need for a thorough understanding of its impact on the spirituality and health of the youth of today. *Spiritual Education in a Divided World* recognises the urgent need for effective research in this area. This exceptional volume takes an interdisciplinary approach to tackle the key question: Children's Ministry That Fits David M. Csinos, 2011-01-14 Children know God. They encounter God in diverse ways as they walk along the spiritual journey. Amidst this diversity four distinct avenues for connecting with God emerge in the lives of children: word, emotion, symbol and action. These are the four spiritual styles, broad approaches to spirituality and faith through which children experience God and make sense of their lives in the world around them. *Children's Ministry that Fits* blends insightful research, relevant theory and practical ministry into a guidebook for discovering and understanding children's spiritual styles. Drawing from theology, personal experience and the spiritual lives of children, David M. Csinos offers practical wisdom that will help pastors, parents and teachers to move beyond one size fits all approaches to children's ministry and begin nurturing the spiritual lives of children in welcoming and inclusive environments. *Children's Spirituality, Second Edition* Kevin E. Lawson, Scottie May, 2019-06-13 The Society of

Children's Spirituality Christian Perspectives launched in 2003 with its first conference held at Concordia University Chicago in River Forest Illinois. An earlier edition of this book composed of chapters based on presentations from that conference was published in 2004. In 2018 a decision was made to revise this book from the inaugural conference updating some chapters and providing a new perspective on the ongoing work of the organization now called the Children's Spirituality Summit. For example, given the advances in what we are learning from brain research, a chapter on this topic has been extensively updated. What this revised volume provides is a collection of chapters offering theological perspectives, social science research and insights on ministry practice about the spiritual lives of children, how they relate to God, how this relationship grows and what helps in promoting the spiritual formation and vitality of children in the home, church and school. This book offers twenty-three chapters by professors, graduate students, social science researchers and ministry leaders from different denominational traditions addressing a wide range of issues in theory, research and ministry practice with children. This second edition offers much to learn from, stimulate your thinking and improve your practice. Free Associations, 1990

Psychology for the Classroom Johanna Turner, 2017-09-14. Originally published in 1977, *Psychology for the Classroom* is offered as an aid to people who are learning themselves and helping other people to learn, that is to parents, students and particularly to teachers. The activity of teaching to be successful requires the teacher to understand the behaviour of the learner as fully as possible. Some of the insights into human behaviour gained by psychologists may prove helpful to the teacher in complementing his or her experience and intuitive understanding and it is with this in mind that the topics covered in this book have been selected. Section one deals with cognitive aspects, an understanding of which is essential since cognitive processes are the means by which individuals are able to make sense of their environment. Section two considers the social situation in which knowledge and understanding develop, i.e. the way in which social interaction affects learning. Section three focuses on the individual, stressing that academic achievement depends not only on hard work but is intimately related to an individual's personal development and personality. The book will be valuable to psychology students, student teachers and teachers on in-service courses for its coverage of relevant psychological research and the description of pertinent experiments and studies of the time. Its originality lies in the way in which it communicates the importance of teachers using psychology as a basis for forming hypotheses which they can test for themselves, not necessarily as researchers but in a mood of personal exploration. Dancing between Hope and Despair Sue Wright, 2017-09-16. Why is hope so fundamental to our existence? Hope is increasingly being acknowledged as an important factor both for people's resilience and for positive therapeutic outcomes. In considering this and many other questions, this evocative textbook introduces the reader to the repeated shifting or dance between hope and despair that is so often encountered by practitioners working with profoundly traumatised individuals. This book brings a sharp focus to the ways in which therapeutic relationships can draw individuals out of the constant oscillation between light and dark. It provides an insightful

and thoughtful discussion not just about despair itself but about how to be with despair Informed by the author's own years of experience in the field of psychotherapy this engaging and stimulating book provides practical guidance on how students trainees and practitioners can inspire fresh hope in deeply troubled clients *The Best Books for Academic Libraries: Medicine*, 2002 Books recommended for undergraduate and college libraries listed by Library of Congress Classification Numbers *Reading Klein* Margaret Rustin, Michael Rustin, 2016-12-08 Reading Klein provides an introduction to the work of one of the twentieth century's greatest psychoanalysts known in particular for her contribution in developing child analysis and for her vivid depiction of the inner world This book makes Melanie Klein's works highly accessible providing both substantial extracts from her writings and commentaries by the authors exploring their significance Each chapter corresponds to a major field of Klein's work outlining its development over almost 40 years The first part is concerned with her theoretical and clinical contributions It shows Klein to be a sensitive clinician deeply concerned for her patients and with a remarkable capacity to understand their unconscious anxieties and to revise our understanding of the mind The second part sets out the contribution of her ideas to morality to aesthetics and to the understanding of society introducing writing by her associates as well as herself The book provides a lucid account of Klein's published writing presented by two distinguished writers who know her work well and have made creative use of it in their own clinical and extra clinical writing Its aim is to show how substantial her contribution to psychoanalytic thinking and clinical practice was and how indispensable it remains to understanding the field of psychoanalysis Reading Klein will be a highly valuable resource for students trainees in psychoanalysis psychoanalytic practitioners and all who are interested in Melanie Klein and her legacy
