Congress. Joint Committee on Atomic Energy,1946 French Criminal Justice Jacqueline Hodgson,2005-11-08

Basing much of its analysis upon the first systematic empirical study of the French pre trial process this monograph breaks new ground in the field of comparative criminal justice Moving away from idealised accounts of judicially supervised investigations it provides a better understanding of the ways in which an inquisitorially rooted criminal process operates in practice and the factors that influence and constrain its development and functioning The structure and operation of French criminal justice is set within a broad range of contexts of political occupational and legal cultures from the French Republican tradition of state centred models of authority across the growing influence of the ECHR to the local conditions which determine the ways in which individual discretion is exercised The French model of investigative supervision and accountability is contrasted with more adversarial procedures and in particular the different ways in which the reliability of evidence is guaranteed and the interests of the accused protected Systematic observation of the daily working practices of police gendarmes prosecutors and judges dissection across a number of sites and time periods provides a unique and detailed account of the ways in which the French criminal process operates in practice The understandings and insights generated from this data are then set within a wider legal and political analysis which considers issues such as the influence and interference of the State within matters of justice a comparative analysis of the judicial and defence functions and the extent to which ECHR fair trial guarantees are able to produce legal and ideological change within a process which depends

upon a central and judicially supervised investigating authority An informed knowledge of other European criminal procedures is increasingly essential for those working within UK as well as comparative criminal justice if there is to be a proper engagement with and evaluation of measures such as the EUs proposed Council Framework Decision on Certain Procedural Rights in Criminal Proceedings throughout the European Union as well as recent legislative reform in England and Wales that seeks to adjust the pre trial roles of police and prosecutor in significant ways This book will be essential reading for teachers researchers students and policy makers working in the areas of criminal justice in the UK and across Europe in comparative criminal justice criminology as well as in French and European studies Introduction to Criminal Justice Lawrence F. Travis III, 2010-04-07 This student friendly introductory core text describes the criminal justice process in the United States outlining the decisions practices people and issues involved It provides a solid introduction to the mechanisms of the criminal justice system with balanced coverage of the issues presented by each facet of the process including a thorough review of practices and controversies in law enforcement the criminal courts and corrections Each chapter is enhanced by important terms boxes photos and review questions Includes a glossary Internal Security and Community Policing Dr. Vinita Pandey, 2018-03-26 The present book focuses on various issues and threats pertaining to internal security the various factors and non state actors creating the threat the initiatives by the police to strengthen internal security by involving community and how the community participation can strengthen those initiatives by enhancing the community policing measures The study is focussed on Hyderabad There are multiple manifestations of internal security which are both implicit and explicit Communalism has been identified as one of the principal threats to internal security with specific reference to Hyderabad In this background it is highly desirable and required to strengthen community to face any eventualities and encourage working and functional partnership with security and law enforcement agencies especially the police forces Police or community alone cannot manage security concerns In these globalized times strong partnership between community and police is mandatory The book based on primary research tries to establish that community policing can be a significant factor in addressing the internal security threats District of Columbia Appropriations United States.
