Peasants and Revolution in Rural China Chang Liu, 2007-05-14 This book explores rural political change in China from 1850 to 1949 to help us understand China s transformation from a weak decaying agrarian empire to a unified strong nation state during this period Based on local gazetteers contemporary field studies government archives personal memoirs and other primary sources it systematically compares two key macro regions of rural China the North China plain and the Yangzi delta to demonstrate the ways in which the forces of political change shaped by different local conditions operated to transform the country It shows that on the North China plain the village community composed mainly of owner cultivators was the focal point for political mobilization whilst in the Yangzi delta absentee landlordism was exploited by the state for local control and tax extraction However these both set the stage in different ways for the communist mobilization in the first half of the twentieth century

Peasants and Revolution in Rural China is an important addition to the literature on the history of the Chinese Revolution and will be of interest to anyone seeking to understand the course of Chinese social and political development

Chinese Discourses on the Peasant, 1900-1949 Xiaorong Han, 2005-03-24 Xiaorong Han explores how Chinese intellectuals envisioned the peasantry and its role in changing society during the first half of the twentieth century Politically motivated intellectuals both Communist and non Communist believed that rural peasants and their villages would be at the heart of change during this long period of national crisis Nevertheless intellectuals saw themselves as the true shapers of change who would transform and use the peasantry Han uses intellectuals writings to provide a comprehensive look at their views of the peasantry He shows how intellectuals with varying politics created images of the peasant a supposed contemporary image and an ideal image of the peasant transformed for political ends how intellectuals theorized on the nature of Chinese rural life and how intellectuals conceived their own relationships with peasants

China's Communist Revolutions Werner Draguhn, David S.G. Goodman, 2012-10-12 During its fifty years of existence the People s Republic of China has seen dramatic

changes from the proclamation of the independent state through the period of the Communist Revolution the Cultural Revolution the Reform Period These changes are analysed from the political economic and social points of view challenging accepted orthodoxy Throughout the emphasis is on change in the context of contemporary China and as part of the Chinese Communist Party's search for paths to development

Civil War in China Suzanne Pepper, 1999 Many books have tried to analyze the reasons for the Chinese communist success in China's 1945-1949 civil war but Suzanne Pepper's seminal work was the first and remains the only comprehensive analysis of how the ruling Nationalists lost that war not just militarily but by alienating the civilian population through corruption and incompetence Now available in a new edition this authoritative investigation of Kuomintang failure and communist success explores the new research and archival resources available for assessing this pivotal period in contemporary Chinese history Even more relevant today given the contemporary debates in Hong Kong and Taiwan over the terms of reunification with a communist led national government in Beijing this book is essential reading for anyone seeking a nuanced understanding of twentieth century Chinese politics

Individual Choice and State-Led Nationalist Mobilization in China Wen Zha, 2015-05-11 This book presents a comparative historical analysis of state led nationalist movements in Chinese history which counters current claims that popular nationalism in present day China is strong enough to sustain costly expansionist wars Popular nationalism in China has been on the rise since the early 1990s to the concern of many observers Some have even asked whether China will become another Germany A comparative historical analysis of pre war and wartime nationalist mobilization helps us better understand how individuals formulate their opinions under extreme conditions It concludes that the public's weak perception of foreign threats taken together with pro minority domestic institutions may significantly undermine the state's efforts at nationalist mobilization and thus limit its capability to pursue external expansion or other strategic goals

The Developmental State Meredith Woo-Cumings, 2019-06-30 Developmental state in the government motivated by desire for economic advancement intervenes in industrial affairs The notion of the developmental state has come under attack in recent years Critics charge that Japan's success in putting this notion into practice has not been replicated elsewhere that the concept threatens the purity of freemarket economics and that its shortcomings have led to financial turmoil in Asia In this informative and thought provoking book a team of distinguished scholars revisits this notion to assess its continuing utility and establish a common vocabulary for debates on these issues Drawing on new political and economic theories and emphasizing recent events the authors examine the East Asian experience to show how the developmental state involves a combination of political bureaucratic and moneyed influences that shape economic life in the region Taking as its point of departure Chalmers Johnson's account of the Japanese developmental state the book explores the interplay of forces that have determined the structure of opportunity in the region The authors critically address the argument for centralized political involvement in industrial development with a new contribution by Johnson describe the historical impact of colonialism and the Cold War consider new ideas in economics and compare the experiences of East Asian countries with those of France Brazil Mexico and India

National Communism Peter Zwick, 2019-03-04 According to the generally accepted view that nationalism is alien to communism and that internationalism disallows divisions based on nations the existence of national communism is often interpreted as a sign of the breakup of the world communist movement This book reexamines the evidence on the role of nations and national variations beginning with Marx and moving through Leninism and Stalinism to Titoism Maoism Castroism and current national liberation movements e.g. in Nicaragua Professor Zwick concludes that nationalism has always been an inherent element of communism He demonstrates with numerous concrete cases that rather than signaling the decline of communism national adaptation is the source of its strength The limits of national variation as defined by the Brezhnev Doctrine are precisely defined and examined in the cases of Hungary Czechoslovakia and Poland The book bridges the gap between Marxist theory and communist practice with respect to the central role that nationalism will continue to play in the contemporary world No other study presents this material in a cross national comparative perspective

Exploring Nationalisms of China C. X. George Wei, Xiaoyuan Liu, 2002-12-30 China is a site for the evolution not only of Chinese nationalism but the nationalism of various non Han ethnic groups During the 20th century these ethnic groups constructed and expressed their own identities and nationalism through interaction with one another and with outside influences This interdisciplinary anthology contains nine original works that pluralize our understanding of nationalism in China by illustrating the various intellectual strains of China's nationalist discourse the dichotomy between the political authorities and grass roots experiences and the nationalizing efforts by various ethnic and

political groups along China's inland and maritime frontiers First contributors explore the controversy surrounding the contested issue of China's national and international identity from pre modern times to the present Next the authors examine China's nationalist encounters with foreign influences such as U S Marines in Shandong Soviet experts in Manchuria and recent friction between the United States and the PRC Finally essays expand beyond the ethnographic regions of the Han Chinese and the political domain of the PRC to discuss the odyssey of Taiwan's nationalism in both a political and a cultural sense Many selections are based on newly declassified archival materials

Malaysia's Defeat of Armed Communism

Ong Weichong, 2014-10-03 The Malayan Communist Party's MCP decisive defeat in 1960 led many academics and Counterinsurgency COIN experts to overlook the resurrection of its armed struggle in 1968 Most scholars continue to regard the so called Second Emergency in Malaysia 1968-1989 as a non event and most of the recently published work on the MCP tends to focus on the earlier Malayan Emergency 1948-1960 This book looks at the Second Emergency through recently released archival material from the National Archives in London the National Australian Archives and the Australian War Memorial as well as interviews with military and diplomatic officers from the UK and Thailand It presents the first serious strategic and operational study of the Second Emergency and analyses three areas of historical significance the CPM's strategy for armed struggle in the Second Emergency the actual effectiveness of the CPM's subversive propaganda on its target population and most importantly the counterinsurgency COIN response and strategy of the Malaysian state and to a lesser extent the counter subversion strategy of Singapore in the post colonial era
