Vers une linguistique inachevée Christos Clairis, 2005 Dans ce livre un héritage est délibérément assumé celui de la linguistique structurale et fonctionnelle celle qui en Europe s'inscrit dans la tradition saussurienne et pragoise À la lumière d'une expérience d'une trentaine d'années qui associe étroitement la recherche fondamentale en théorie linguistique et la pratique de la description des langues les plus diverses l'auteur propose les innovations théoriques et méthodologiques qui lui semblent nécessaires pour maintenir une linguistique fonctionnelle dans le respect du réel et permettre à tous ceux qui le souhaiteront d'accéder à la véritable organisation des langues et à leur dynamique interne Les problèmes abordés touchent à la phonologie à la syntaxe à la typologie ainsi qu'au processus de

disparition des langues Mettant en oeuvre une linguistique qui se veut résolument moderne l'auteur pose le principe d'inachèvement comme horizon symbolique d'une discipline qui ne saurait oublier que les faits de langue sont inexorablement liés à des faits de société et reste ainsi tributaire de ces limites *Les détours de la langue* Sabine Pétillon-Boucheron, 2002 En s'appuyant sur un corpus de textes contemporains l'auteur propose une monographie de deux signes doubles de ponctuation la parenthèse et le tiret double Après avoir présenté l'histoire de ces signes et des théories linguistiques sur la ponctuation elle propose des analyses syntaxiques La nature des segments langagiers qui se trouvent d'un côté c'est dire mis entre parenthèses ou entre tirets leur position dans la phrase sont abordés ainsi que les jeux sur la linéarité autorisés par ces signes La dimension sémantique intervient également pour montrer que la parenthèse crée un niveau nonciatif qui constitue la parenthèse et le tiret double en aire de reformulation vulgarisation scientifique et de dialogisme discours rapport C'est surtout la description du rôle nonciatif de ces deux signes que l'auteur s'attache parenthèses et tiret double s'offrent souvent comme un crin graphique dans lequel le sujet crivant fait la rencontre parfois si délicate du sens qu'il entend donner ses mots *La rencontre du temps et de l'espace* Samia Naïm, 2006 Cet ouvrage s'attache à l'expression et aux manifestations simultanées du temps et de l'espace en focalisant l'attention sur les faits de langue et de culture qui révèlent des transitions des rencontres et des intersections entre ces univers notionnels À partir de l'étude de langues afro-asiatique Niger Congo dravidienne amérindienne de cultures et d'organisations sociales rurale citadine nomade pour l'essentiel non européennes il participe au débat concernant l'orientation que peuvent prendre ces échanges Qu'en est-il du processus d'emprunt métaphorique qui dans les langues européennes paraît opérer de façon préférentielle de l'espace vers le temps Y a-t-il des cultures moins spatialisantes que d'autres Quelle place accorder aux facteurs énonciatifs et pragmatiques dans l'apprehension de la relation temps espace C'est en prenant appui sur des formes variées de productions orales récits d'itinéraires réels ou imaginaires entretiens fragments de littérature orale recueillies sur leurs terrains que les contributeurs à cet ouvrage linguistes et anthropologues prennent part au débat

Lexique et motivation Véronique de Colombel, Nicole Tersis, 2002 La question de la relation entre le signe linguistique et la réalité qu'il désigne a été maintes fois débattue par le passé et elle a fait l'objet depuis l'antiquité de nombreux débats philosophiques et de controverses linguistiques qui opposent l'arbitraire du signe à sa motivation Cette problématique connaît un renouveau d'intérêt à partir des interrogations actuelles sur l'origine des langues et en raison de la quête d'un modèle explicatif concernant la formation du langage À partir d'enquêtes de terrain venant de chercheurs de différentes disciplines l'ouvrage présente des exemples lexicaux selon une perspective ethnolinguistique et historique la confrontation de cultures et de langues permet de donner une vision élargie des phénomènes de motivation Il apparaît que les données fournies par la diversité des systèmes linguistiques et socioculturels peuvent apporter une contribution majeure aux recherches cognitives dans la mesure où elles font émerger des schémas perceptifs des catégorisations des opérations logiques et des processus mémoriels mis en jeu à travers les faits

de motivation *Phonographie* Rudolf Mahrer, 2017-02-20 This study proposes an ambitious typology of the written representation of oral speech It is based on a detailed semiological examination of the relationship between orality and literacy as well as on an analysis of data stemming from literary discourse Three types of representation of orality are distinguished where the written form appeals to the phonographic system the metalinguistic semantics or the prosodic performance of the reader *La ponctuation du théâtre imprimé au XVIIe siècle* Alain Riffaud, 2007 Should critical editions of old texts modernize punctuation It used to be thought that original punctuation was too erratic to be maintained but the rediscovery of oratorical practices reopened the debate Were typesetters to be blamed for every peculiarity or did punctuation marks contain indications of a specific declamation It is only by the detailed examination of a wide corpus of seventeenth century editions of plays that we can hope to answer this question French text
