Philosophy and Theology in the Middle Ages

G. R. Evans,2003-09-02

In the ancient world being a philosopher was a practical alternative to being a christian Philosophical systems offered intellectual practical and moral codes for living By the Middle Ages however philosophy was largely though inconsistently incorporated into Christian belief From the end of the Roman Empire to the Reformation and Renaissance of the sixteenth century Christian theologians had a virtual monopoly on higher education The complex interaction between theology and philosophy which was the result of the efforts of Christian leaders and thinkers to assimilate the most sophisticated ideas of science and secular learning into their own system of thought is the subject of this book Augustine as the most widely read author in the Middle Ages is the starting point Dr Evans then discusses the classical sources in general which the medieval scholar would have had access to when he wanted to study philosophy and its theological implications Part I ends with an analysis of the problems of logic language and rhetoric In Part II the sequence of topics God cosmos man follow the outline of the summa or systematic encyclopedia of theology which developed from the twelfth century as a text book framework Does God exist What is he like What are human beings Is there a purpose to their lives These are the great questions of philosophy and religion and the issues to which the medieval theologian addressed himself From divine simplicity to ethics and politics this book is a lively introduction to the debates and ideas of the Middle Ages *The Medieval Christian Philosophers* Richard Cross,2013-11-19 The High Middle Ages were remarkable for their coherent sense of Christendom of people who belonged to a homogeneous Christian society marked by uniform rituals of birth and death and worship That uniformity which came under increasing strain as national European characteristics became more pronounced achieved perhaps its most perfect intellectual expression in the thought of the western Christian thinkers who are sometimes called scholastic theologians These philosophers produced during roughly the period 1050 1350 CE a cohesive body of work from their practice of theology as an academic discipline in the university faculties of their day Richard Cross elegant and stylish textbook designed specifically for modern day undergraduate use on medieval theology and philosophy courses offers the first focused introduction to these thinkers based on the individuals themselves and their central preoccupations The book discusses

influential figures like Abelard Peter Lombard and Hugh of St Victor the use made by Aquinas of Aristotle the mystical theology of Bonaventure Robert Grosseteste's and Roger Bacon's interest in optics the complex metaphysics of Duns Scotus and the political thought of Marsilius of Padua and William of Ockham Key themes of medieval theology including famous axioms like Ockham's Razor are here made fully intelligible and transparent

Dictionary of Theologians Jonathan Hill, 2010-03-25 An exhaustive guide to every significant Christian theologian who lived from the first century to 1308 the year in which John Duns Scotus died The dictionary encompasses the Catholic Orthodox Nestorian and Monophysite traditions including information not previously available in English Thoroughly indexed the dictionary incorporates common variants of names and concepts which will help and direct the reader The main criterion for inclusion has been contribution to the development of Christian theology Sub criteria by which that is measured include above all originality and influence on later figures With over 290 entries the dictionary provides a handy summary of theologians' lives and writings together with recent scholarship as well as an up to date definitive bibliography listing primary texts translations and secondary literature in the major western European languages Useful for all levels of academia no other text matches the depth of the dictionary's bibliographies The unprecedented thoroughness of Hill's compilation provides an essential resource for studies at all levels on such a large and varied range of Church thinkers

Reason and Belief in the Age of Roscelin and Abelard Constant J. Mews, 2024-10-28 The previous collection by Constant J Mews focused on the work and thought of Peter Abelard 1079-1142 the present volume looks more broadly at Abelard's intellectual and religious context in the Latin West and at his teacher the controversial nominalist philosopher and theologian Roscelin of Compiègne It opens with surveys of educational theory and practice in the 12th century schools Mews next explores the widespread movement in the period which sought to explain religious belief in terms accessible to reason and the background to accusations of heresy made by monks troubled by new attempts to interpret Christian belief both within and outside a school environment Five related studies then deal with previously unedited texts by Roscelin of Compiègne and St Anselm that throw new light on the importance of the philosopher and theologian who exercised a major influence on Peter Abelard

Postmodern Christianity John W. Riggs, 2003-04-01 John Riggs argues for a common ground between postmodernism and Christianity focusing on how this applies to issues such as reproductive rights and the ordination of women gay men and lesbians and suggest that Christianity avoid the extreme positions of either completely accommodating itself to or completely rejecting postmodern culture
