

A person is shown from the chest up, sitting in a meditative pose with their hands resting on their knees. They are wearing a dark, long-sleeved garment. In the background, a large, light-colored statue of a person in a similar meditative pose is visible, set against a backdrop of water and a bright, hazy sky. The overall tone is contemplative and serene.

Problems of Death, 1974 **Problems of Death** David L. Bender, 1974 Presents opposing viewpoints on euthanasia abortion suicide and funeral homes through essays by a variety of authors Includes discussion activities *Problems of Death* James D. Torr, 2000 Considers the following questions Is suicide immoral Should society condone physician assisted suicide Is abortion ethical Is capital punishment just **Abortion-- Murder Or Mercy?** François B. Gérard, 2001 This book is meant to provide an overview of and gather the literature on abortion one of the most divisive issues of our times Honest women and men the world over must deal with this issue in their hearts and minds whether or not they ever face the issue personally It is hard to conceive of a single thinking person who doesn't have an opinion on abortion usually strongly held The arguments are cogent on both sides of the issue We hope that this collection will bring to the attention of readers the publications which shed light on the fundamental issues involved *Death and Dying* John F. Szabo, 2009-11-02 While it can be traced to the 1700s the term thanatology has gained traction in recent decades to refer to the study of death Because of the breadth of the published material and the challenges of discovery in large bibliographic databases and catalogs finding and identifying monographic material on death dying grief and bereavement can be extremely challenging Although there have been several bibliographical resources published on thanatology those titles were incomplete limited in scope or leaned heavily toward one area of the field In *Death and Dying An Annotated Bibliography of the Thanatological Literature* John F. Szabo provides more than 2 200 citations of monographs on the science and study of death and dying Among the areas this volume addresses are the psychological philosophical and attitudinal aspects coping and dealing with the burdens of caregiving and working in the helping professions instructional and educational topics for practitioners primarily health care providers cultural differences in bereavement rituals and grief mourning and loss In addition notable titles on or relating to death and dying in popular culture death themes in literature methods of death or specific ethical policy or public issues are also included when they contribute important information to subject areas on which the book focuses This book will be helpful to students researchers academics caregivers health care professionals psychologists social workers and anyone with an interest in death dying bereavement or the care of the terminally ill **Death and Dying** Diane Andrews Henningfeld, 2010-07-16 This book offers a collection of twenty three essays that examines viewpoints on death and dying from around the world Causes of death are examined including increases in mortality due to AIDS in Africa drug abuse in Scotland and suicide in Ireland Chapters discuss access to palliative end of life care and assisted suicide Readers will evaluate the influences of the world's major religions and their beliefs traditions and rituals surrounding death They will also learn about funeral practices throughout the world Essay sources include Open Society Institute A P Online New Vision Hiroko Nakata Francesca Crippa Floriani JoAnne M Youngblut and Dorothy Brooten **Current Catalog** National Library of Medicine (U.S.), 1993 First multi year cumulation covers six years 1965 70 Human Rights Margaret

Haerens,2011-05-04 As technology makes the world more accessible it is increasingly important to develop a wide perspective on crucial issues of global significance This essential volume takes a look at human rights throughout the world Readers will evaluate whether certain countries or cultures are falling short on human rights including the European Unions Bangladesh Tibet Israel America and China They will read about whether certain policies are effective or failing in places like Britain Myanmar Turkmenistan Uzbekistan and Korea Treatment of women and children is also explored in places such as Haiti and Saudi Arabia **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office,1976

National Library of Medicine Current Catalog National Library of Medicine (U.S.),1993 **Death: Beyond Whole-Brain Criteria** Richard M. Zaner,2012-12-06 From the tone of the report by the President s Commission for the Study of Ethical Problems in Medicine and Biomedical and Behavioral Research one might conclude that the whole brain oriented definition of death is now firmly established as an enduring element of public policy In that report Defining Death Medical Legal and Ethical Issues in the Determination of Death the President s Commission forwarded a uniform determination of death act which laid heavy accent on the significance of the brain stem in determining whether an individual is alive or dead An individual who has sustained either 1 irreversible cessation of circulatory and respiratory functions or 2 irreversible cessation of all functions of the entire brain including the brain stem is dead A determination of death must be made in accordance with accepted medical standards 1 p 2 The plausibility of these criteria is undermined as soon as one confronts the question of the level of treatment that ought to be provided to human bodies that have permanently lost consciousness but whose brain stems are still functioning *Death Penalty* Syd Golston,2009-06-12 The highest recorded number of executions in the U S occurred in 1999 when 98 executions were performed This compelling resource presents a discussion on the death penalty covering topics such as arguments for the death penalty objections against the death penalty and how the United States differs from other countries in handling the issue Context is introduced through an examination of court cases and historical background *Topical Bibliography* ,1985 *Brain Death and Disorders of Consciousness* Calixto Machado,D. Alan Shewmon,2004-03-31 Although some decades have passed there are still worldwide controversies about a concept of human death on neurological grounds There are also disagreements on the diagnostic criteria for brain death whether clinical alone or clinical plus ancillary tests Moreover some scholars who were strong defenders of a brain based standard of death are now favoring a circulatory respiratory standard The study of coma is extremely important because lesions of the brain are responsible for quality of life in patients or cause of death The main goal of *Brain Death and Disorders of Consciousness* is to provide a suitable scientific platform to discuss all topics related to human death and coma *Bioethics* Helga Kuhse,Udo Schüklenk,Peter Singer,2015-10-19 Now fully revised and updated *Bioethics* An Anthology 3rd edition contains a wealth of new material reflecting the latest developments This definitive text brings together writings on an unparalleled range of key ethical issues compellingly presented by internationally renowned
