into a cohesive whole Publisher description      **Religious Conversion** Ira Katznelson, Miri Rubin, 2016-04-08 Religious conversion a shift in membership from one community of faith to another can take diverse forms in radically different circumstances As the essays in this volume demonstrate conversion can be protracted or sudden voluntary or coerced small scale or large It may be the result of active missionary efforts instrumental decisions or intellectual or spiritual attraction to a different doctrine and practices In order to investigate these multiple meanings and how they may differ across time and space this collection ranges far and wide across medieval and early modern Europe and beyond From early Christian pilgrims to fifteenth century Ethiopia from the Islamisation of the eastern Mediterranean to Reformation Germany the volume highlights salient features and key concepts that define religious conversion particular the Jewish Muslim and Christian experiences By probing similarities and variations continuities and fissures the volume also extends the range of conversion to focus on matters less commonly examined such as competition for the meaning of sacred space changes to bodies patterns of gender and the ways conversion has been understood and narrated by actors and observers In so doing it promotes a layered approach that deepens inquiry by identifying and suggesting constellations of elements that both compose particular instances of conversion and help make systematic comparisons possible by indicating how to ask comparable questions of often vastly different situations      *The Chance of Salvation* Lincoln A. Mullen, 2017-08-28 The Chance of Salvation offers a history of conversions in the United States which shows how religious identity came to be a matter of choice Shortly after the American Revolution people in the United States increasingly encountered an expanded array of religious options Evangelical Protestants began an effort to convert Americans while developing new practices that emphasized conversion as an immediate choice Their missionary effort extended to Native American nations such as the Cherokee in the Southeast who received Christianity on their own terms Enslaved and newly freed African Americans likewise created a variety of Christian conversion that was centered on religious hope and eschatological expectation Mormons drawing on earlier Protestant practices and beliefs enthusiastically proselytized for a new tradition that emphasized individual choice and free will By uncovering the way that religious identity is structured as an obligatory decision this book explains why Americans change their religions so much and why the United States is both highly religious in terms of religious affiliation and very secular in the sense that no religion is an unquestioned default      *The Psychology of Religion and Spirituality for Clinicians* Jamie Aten, Kari O'Grady, Everett Worthington, Jr., 2013-06-19 Many therapists and counselors find themselves struggling to connect the research on the psychology of religion and spirituality to their clinical practice This book will address this issue providing a valuable resource for clinicians that will help translate basic research findings into useful clinical practice strategies The editors and chapter authors all talented and respected scholar clinicians offer a practical and functional understanding of the empirical literature on the psychology of religion and spirituality of while at the same time outlining clinical implications assessments and strategies for counseling and psychotherapy Chapters
