Martin,Victor R. Preedy,Vinood B. Patel,Rajkumar Rajendram,2025-09-26 This comprehensive handbook covers the entire range of physical disorders and their interrelated psychological problems Behavioral changes altered psychology and in some cases severe psychiatric conditions are frequent manifestations of communicable and non communicable disease While diseases have predictable trajectories their psychological co morbidities do not This unpredictability and sometimes lack of understanding can have profound effects on the professional the patient and the larger family unit Mental health related domains of quality of life measure also impact the disease process but are often overlooked Critical information targeted to experts within specialized areas can fail to reach a wider group of more general practitioners This is complicated by the fact that psychological conditions may prompt organic disease or conversely disease may set off psychological disorders This reference work creates the linkage between the two areas in a manner that is accessible to both experts and non experts alike *Psychological Experiences and Responses in the Global South Amidst and Ahead of the Covid-19 Pandemic* Nelesh Dhanpat,Madelyn Geldenhuys,Shuan Ruggunan, The COVID 19 pandemic has led to increased strain and mental health problems due to changing working conditions Given the existential nature of the pandemic it remains crucial to establish employee effectiveness resilience and agility and to particularly understand the long term psychological impact the pandemic might have on workplaces It is essential to recognize how workplaces cope with work from home challenges and hybrid working beyond the crises Building a narrative in our understanding of the psychological cognitive and physical experiences and responses of workplaces is critical It provides the opportunity to help craft the way forward for organizations and employees *COVID-19 and Existential Positive Psychology (PP2.0): The New Science of Self-Transcendence* Paul T. P. Wong,Claude-Hélène Mayer,Gökmen Arslan, In the era of COVID 19 many people have suffered high levels of stress and mental health problems To cope with the widespread of suffering physical psychological social and economical the positive psychology of personal happiness is no longer the sole approach to examine personal wellbeing Other approaches such as Viktor Frankl s theory of self transcendence provide a promising framework for research and intervention on how to achieve resilience wellbeing and happiness through overcoming suffering and self transcendence The existential positive psychology of suffering complements the positive psychology of happiness which is championed by Martin Seligman as two equal halves of the circle of wellbeing and optimal mental health This Research Topic aims to examine the different approaches to Positive Psychology and their influence on individual wellbeing during the COVID 19 era One of the exciting development in the positive psychology of wellbeing is the mounting research on the adaptive benefits of negative emotions such as shame guilt and anger as well as the dialectical process of balancing negative and positive emotions As an example based on all the empirical research and Frankl s self transcendence model Wong has

developed the existential positive psychology of suffering PP2 0 as the foundation for flourishing Here are a few main tenets of PP2 0 1 Life is suffering and a constant struggle throughout every stage of development 2 The search for self transcendence is a primary motive guided by the meaning mindset and mindful mindset 3 Wellbeing cannot be sustainable without overcoming and transforming suffering In this Research Topic we welcome diverse approaches discussing the following points The dialectic process of overcoming the challenges of every stage of development as necessary for personal growth and self transcendence The role of self transcendence in resilience virtue meaning and happiness The upside of negative emotions The new science of resilience based on cultivating the resilient mindset and character How to make the best use of suffering to achieve out potentials mental health
