Reclaiming the Inner City Ed Marciniak, 1986      **Brown in the Windy City** Lilia Fernández, 2022-12-22 Nuanced and meticulous analysis The first historical study to examine Chicago's Mexican and Puerto Rican populations in the same frame Journal of Social History Brown in the Windy City is the first history to examine the migration and settlement of Mexicans and Puerto Ricans in postwar Chicago Lilia Fernández reveals how the two populations arrived in Chicago in the midst of tremendous social and economic change and in spite of declining industrial employment and massive urban renewal projects managed to carve out a geographic and racial place in one of America's great cities Through their experiences in the city's central neighborhoods over the course of three decades Fernández demonstrates how Mexicans and Puerto Ricans collectively articulated a distinct racial position in Chicago one that was flexible and fluid neither black nor white A rich portrait of neighborhood life Carmen Teresa Whalen author of From Puerto Rico to Philadelphia An essential read Time Out Chicago      **Chasing the American Dream** William M. Rohe, Harry L. Watson, 2018-07-05 Providing decent safe and affordable housing to low and moderate income families has been an important public policy goal for more than a century In recent years there has been a clear shift of emphasis among policymakers from a focus on providing affordable rental units to providing affordable homeownership opportunities Due in part to programs introduced by the Clinton and Bush administrations the nation's homeownership rate is currently at an all time high Does a house become a home only when it comes with a deed attached Is participation in the real estate market a precondition to engaged citizenship or wealth creation The real estate industry's marketing efforts and government policy initiatives might lead one to believe so The shift in emphasis from rental subsidies to affordable homeownership opportunities has been justified in many ways Claims for the benefits of homeownership have been largely accepted without close scrutiny But is homeownership always beneficial for low income Americans or are its benefits undermined by the difficulties caused by unfavorable mortgage terms and by the poor condition or location of the homes bought Chasing the American Dream provides a critical assessment of affordable homeownership policies and goals Its contributors represent a variety of disciplinary perspectives and offer a thorough understanding of the economic social political architectural and cultural effects of homeownership programs as well as their history The editors draw together the assessments included in this book to prescribe a plan of action that lays out what must be done to make homeownership policy both effective and equitable      Discrimination in Federally Assisted Housing Programs United States. Subcommittee on Housing and Community Development, 1986      **Without Justice For All** Adolph Reed, 2018-02-12 Without Justice for All The New Liberalism and Our Retreat from Racial Equality questions examines and explains the way a new orthodoxy of American leaders has contributed to the social stratification and inequality which plagues America today By looking at the history of our social policies since the New Deal as well as the status of specific policy arenas essayists show how political shifts over

the past fifty years have moved us away from a more egalitarian politics Throughout the book responds critically to the now conventional argument that liberalism must be reconfigured in ways that retreat from immediate identification with the interests of labor minorities and the poor From a look at federal housing policy and the failure of New Deal social programs to an examination of long established public assistance programs and Affirmative Action Without Justice for All is a timely and important contribution to the dialogue on race in modern America American Project Sudhir Alladi

Smith, Patricia A Wright, 2015-03-26

This groundbreaking book shows how major shifts in federal policy are spurring local public housing authorities to demolish their high rise low income developments and replace them with affordable low rise mixed income communities It focuses on Chicago and that city s affordable housing crisis but it provides analytical frameworks that can be applied to developments in every American city Where Are Poor People to Live provides valuable new empirical information on public housing framed by a critical perspective that shows how shifts in national policy have devolved the U S welfare state to local government while promoting market based action as the preferred mode of public policy execution The editors and chapter authors share a concern that proponents of public housing restructuring give little attention to the social political and economic risks involved in the current campaign to remake public housing At the same time the book examines the public housing redevelopment process in Chicago with an eye to identifying opportunities for redeveloping projects and building new communities across America that will be truly hospitable to those most in need of assisted housing While the focus is on affordable housing the issues addressed here cut across the broad policy areas of housing and community development and will impact the entire field of urban politics and planning      **The Politics of Accommodation and Resistance in the Black Church** Rupe Simms, 2000 This study argues that the church has the capacity of fostering ideological resistance to the dominant order and therefore making a profound contribution to the sociopolitical liberation of black Americans By developing this position using quantitative research methods in three African American churches the work confirms the reality of this potential showing that a counter hegemonic approach to church in the black community is possible This is significant because many politically active scholars even African American radicals disparage the institution as a politically destructive hegemonic organisation that misuses social and economic resources      *Urban Anthropology and Studies of Cultural Systems and World Economic Development* , 2006      **Human Care Services Directory of Metropolitan Chicago** , 1989
