Reclaiming Capital Democratic Initiatives And Community Development Paperback:

Reclaiming Capital Christopher Gunn, Hazel Gunn, 2018-08-06 Towns without nationally advertised fast food restaurants often eagerly await the day when the golden arches sprout next door to the local car dealership But what really happens to a community with the arrival of the uni burger Christopher Gunn and Hazel Dayton Gunn demonstrate that perhaps three quarters of the money a community spends at its burger emporium will leave the area Poor communities remain poor they assert because local capital tends to be drained off to financial centers corporate accounts and stockholders portfolios In keeping with ecologists injunction to think globally and act locally this imaginative book documents ways in which communities have counteracted constraints of the capitalist economic system and succeeded in promoting democratic control of their resources Taking as one example the local impact of a new McDonald s restaurant Gunn and Gunn first illustrate how capital potentially available for community development may be identified They then explore a variety of alternative institutions credit unions nonprofit corporations and consumers and workers cooperatives among others that serve to attract and retain resources foster growth and extend public control over the development process The authors also consider how grassroots activism for social change may be integrated with more conventional political practice Reclaiming Capital will be a vital resource for activists elected officials and others concerned with urban and regional planning

Reclaiming Capital Christopher Eaton Gunn, Hazel Dayton Gunn, 1991 Social surplus Alternative institutions of accumulation gaining financial resources Alternative institutions of accumulation building assets in the community Constraining capital Creating public assets Collective action communities and social change

Silent Theft David Bollier, 2003 This text exposes the audacious attempts of companies to appropriate medical breakthroughs public airwaves outer space state research and even the DNA of plants and animals It is an attempt to develop a new ethos of commonwealth in the face of a market ethic that knows no bounds

The Business of Sustainability Chris Laszlo, Karen Christensen, Daniel S. Fogel, Gernot Wagner, Peter J. Whitehouse, 2010-01-01 The Business of Sustainability is a core resource for policy makers members of the development community entrepreneurs and corporate executives as well as business and economics students and their professors It contains rich analysis of how sustainability is being factored into industries across the globe with enlightening case studies of businesses serving as agents of change Contributing authors provide a groundbreaking body of research based knowledge They explain that the concept of sustainability is being re framed to be positive about business instead of being tied to the old notion of a trade off between business and society that is if business wins society and the environment must lose and they explore how economic development can contribute to building our common future

Restoring Democracy to America John F. M. McDermott, 2010 A narrative history of the gains in economic and political equality in the United States starting in the 1870s Argues that many of these gains have been reversed since the 1960s and proposes solutions for reversing this downward spiral Provided by publisher

Community Practice Skills Dorothy N. Gamble, Marie Weil, 2010 Dorothy N

Gamble and Marie Weil differentiate among a range of intervention methods to provide a comprehensive and effective guide to working with communities Presenting eight distinct models grounded in current practice and targeted toward specific goals Gamble and Weil take an unusually inclusive step combining their own extensive experience with numerous case and practice examples from talented practitioners in international and domestic settings The authors open with a discussion of the theories for community work and the values of social justice and human rights concerns that have guided the work of activists from Jane Addams and Martin Luther King Jr to Cesar Chavez Wangari Maathai and Vandana Shiva They survey the concepts knowledge and perspectives influencing community practice and evaluation strategies Descriptions of eight practice models follow incorporating real life case examples from many parts of the world and demonstrating multiple applications for each model as well as the primary roles competencies and skills used by the practitioner Complexities and variations encourage readers to determine through comparative analysis which model at which time best fits the goals of a community group or organization given the context culture social economic and environmental issues and opportunities for change An accompanying workbook stressing empowerment strategies and skills development is also available from Columbia University Press

Methods For Identifying Local Import Substitution Opportunities To Foster Sustainable Regional Economies David Elvin, 2008-05-15 Why does buying local make so much economic sense for regions What are the biases and strengths of using a traditional economic base approach to regional economic analysis versus industry cluster analysis This engaging book explores answers using the Pioneer Valley of Western Massachusetts as a testing ground Great for regional planners in food systems economic development transportation industrial development and more

Getting Past Capitalism Cynthia Kaufman, 2012-08-24 *Getting Past Capitalism* begins with a critique of the impacts of capitalism on human society and the environment It looks in new ways at what capitalism is and at how it is reproduced That investigation opens the door to fresh ways of looking at how to challenge it Cynthia Kaufman looks at some fundamental questions about how capitalism comes to look like a system that is unbeatable and how people come to have desires that work to reinforce capitalism Kaufman uses this analysis to develop ideas about how to challenge capitalism She argues that rather than looking for the fulcrum point in a system that will make it able to be overthrown we should try to understand what kinds of practices open more spaces for stopping the reproduction of capitalist processes and what kinds of structures need to be developed to make capitalism a less important part of our world *Getting Past Capitalism* includes a critique of capitalism and presentation of alternatives to capitalism many of which already exist It explores strategies for developing and strengthening those alternatives

Encyclopedia of Community DAVID LEVINSON, KAREN CHRISTENSEN, 2003-06-30 Click Additional Materials for downloadable materials and samples Incredibly this is the first encyclopedia to focus on community as concept and experience so stands alone in its field as the one title any library must buy to cover this topic Essential for all readerships CHOICEA timely comprehensive and very welcome overview of a rich and rapidly growing field

of inquiry Robert D Putnam Professor at Harvard University and author of *Bowling Alone* With every passing minute it becomes more and more apparent that our world is one community The Encyclopedia of Community serves as recognition of this trend and as a needed resource The four volume set not only explains the emerging buzz words of community such as social capital or civic engagement but also tells many stories of community institutions that work such as public libraries Sarah Ann Long Past President 1999 2000 American Library Association As we yearn to connect with our fellow citizens during these uncertain times we have a unique moment to encourage greater participation in our democracy and reinvigorate our communities The Encyclopedia of Community provides a timely diverse array of theories and practices that will help citizens understand the value of engaging together to make the critical choices that enrich the way we live learn work and govern in our local communities The Encyclopedia deserves a prime spot in the libraries homes and offices of all communities that want to invest in a brighter future for their residents and their children Nancy Kranich Past President of the American Library Association whose presidential theme was Libraries The Cornerstone of Democracy 2000 2001 American politicians often pair the word community with the word freedom to describe our basic values Yet though used constantly the word community is defined in widely different and contested ways Most people like the idea of community but some intellectuals worry that it might imply collectivism The great value of this new Encyclopedia is that it gives readers a chance to sample the many uses of the term and gain clarity about the issues at stake It is a major contribution to a more coherent understanding of this fundamental idea Robert Bellah Professor of Sociology Emeritus University of California Berkeley and co author of *Habits of the Heart* SAGE Publications is proud to announce the Encyclopedia of Community a major reference work that summarizes the many fascinating and important concepts of a global topic Community itself is a concept an experience and a central part of being human Whether the reader is a student researcher or professional in the field of psychology sociology or even economics this three volume work will provide the necessary definitions of community beyond traditional views Arranged in an A to Z fashion the Encyclopedia can also be viewed topically via a Reader s Guide This allows for interdisciplinary compare and contrast among topics such as types of communities social capital technology urban life politics and law community design and global studies Edited by the award winning team at Berkshire Reference and assisted by an editorial board of world renowned scholars the Encyclopedia of Community will prove to be one of the most widely used reference works in your collection Key Features 500 signed articles 3 volumes 2000 pages Reader s Guide Master bibliography 250 sidebars Appendices Resource Guides Master Bibliography Libraries Build Community Libraries and Popular Culture

Lewis Mumford and the Ecological Region Mark Luccarelli, 1997-03-01 Well known for his column in The New Yorker Lewis Mumford is widely regarded as the foremost urban critic of this century Through historical and theoretical perspectives author Mark Luccarelli traces the development of Mumford s thought on regional planning focusing on his pioneering concept of an ecologically based region and shows how he attempted to turn his ideas into reality through the

Regional Planning Association of America RPAA This informative book also demonstrates how Mumford s ideas remain extraordinarily relevant and valuable to today s urban problems **San Antonio** Char Miller,2018-10-04 This is the first general history of San Antonio Texas the seventh largest city in the nation Its past is complex and ranges across 300 years from the community s origins as a tiny Spanish frontier town to its contemporary status as a vital American mega city Site of some of the most violent struggles between warring empires and people historians believe San Antonio may be the most fought over city in U S history it is perhaps most celebrated for the iconic 1836 Battle of the Alamo The city is also home to four beautifully restored Spanish missions which in 2015 UNESCO designated a World Heritage Site and have become integral to San Antonio s robust tourist economy along with the fabled River Walk This study weaves together a series of environmental social political and cultural pressures that have shaped life in the Alamo City over the last three centuries Residents have long fought to protect and utilize water and other resources even as they have struggled to achieve equal rights and build a more open and democratic society Activists from all sectors of this multicultural city have believed deeply in its promise even though they have had to push hard to secure and expand its potential Their efforts were every bit as intense in the nineteenth and twentieth centuries as they have been in the twenty first Written for a general audience but with a scholarly attention to detail and nuance San Antonio A Tricentennial History immerses readers in the city s fascinating and fraught past **After Occupy** Tom Malleson,2014-06 These days it is easy to be cynical about democracy Even though there are more democratic societies now 119 and counting than ever before skeptics can point to low turnouts in national elections the degree to which money corrupts the process and the difficulties of mass participation in complex systems as just a few reasons the system is flawed The Occupy movement in 2011 proved that there is an emphatic dissatisfaction with the current state of affairs particularly with the economy but ultimately it failed to produce any coherent vision for social change So what should progressives be working toward What should the economic vision be for the 21st century After Occupy boldly argues that democracy should not just be a feature of political institutions but of economic institutions as well In fact despite the importance of the economy in democratic societies there is very little about it that is democratic Questioning whether the lack of democracy in the economy might be unjust Tom Malleson scrutinizes workplaces the market and financial and investment institutions to consider the pros and cons of democratizing each He considers examples of successful efforts toward economic democracy enacted across the globe from worker cooperatives in Spain to credit unions and participatory budgeting measures in Brazil and questions the feasibility of expanding each The book offers the first comprehensive and radical vision for democracy in the economy but it is far from utopian Ultimately After Occupy offers possibility demonstrating in a remarkably tangible way that when political democracy evolves to include economic democracy our societies will have a chance of meaningful equality for all Booklist's Guide to the Year's Best Books Bill Ott,1992 Markets and Power Eric A. Schutz,2016-07-01 In what ways do the actions and economic behavior of today s

multinational corporations resemble the functioning and processes of the old command economics of the Soviet Union By ignoring questions about power relations in markets mainstream neoclassically oriented economists conclude that there are no significant power structures operating in market systems to control allocation and distribution This book argues to the contrary that there are fundamental and systemic power structures monopoly access to information or finance employer power etc at work in market economies which affects their ability to achieve real competition in much the same way as state controlled command economies hinder business activities Thus for example the biggest firms at the hubs of financial networks wield a kind of shaping power upon large numbers of relatively autonomous firms not only upon those that belong to the networks but also on the many firms outside them that are also affected

State of the World 2010: Transforming Cultures: From Consumerism to Sustainability (State of the World) Erik Assadourian, The Worldwatch Institute, 2010-01-12 Known for tackling the most pressing issues that face our world the Worldwatch Institute has dedicated the 2011 edition of its flagship report to a compelling look at the global food crisis with particular emphasis on what innovators globally can do to help solve a worldwide problem State of the World 2011 not only introduces us to the latest agro ecological innovations and their global applicability but also gives broader insights into issues including poverty international politics and even gender equity Publisher description *American Book Publishing Record* ,1991 **The publishers weekly** ,1991 Housing Policy Debate ,2003 Policy Studies Journal ,1972 **Dilemmas of Urban Economic Development** Richard D. Bingham, Robert Mier, 1997-04-14 Is local economic development a zero sum game How do we know that but for the incentives the development would not have occurred How important is quality of life in location decisions and local economic development Is industry targeting a viable economic development strategy This book tackles these and many other significant questions from more than one perspective Dilemmas of Urban Economic Development assesses the state of the art of the field of urban economic development Each chapter addresses a particularly pertinent issue in economic development Following each chapter are commentaries one written by an academic addressing research methodology and the other by a practitioner addressing both the question and the evidence The chapters are concluded with the author of each chapter responding directly to the issues raised by the commentators The result is a productive dialogue between academics practitioners and citizens concerned with economic development
