Modernity, Sexuality, and Ideology in Iran Kamran Talattof, 2011-06-01 In Iran since the mid nineteenth century one issue has been a common concern how should Iran become modern More than a century of struggle for or against modernity has constituted much of the social political and cultural history of the country In the decades since the 1979 Revolution the question has become even more critical In *Modernity Sexuality and Ideology in Iran* Talattof finds that the process of modernity never truly unfolded due in large part to Iran's reluctance to embrace the seminal subjects of gender and sexuality Talattof's approach reflects a unique look at modernity as advancement not only in industry and economy but also toward an open intellectual discourse on sexuality Exploring the life and times of Shahrzad a dancer actress filmmaker and poet Talattof illuminates the country's struggle with modernity and the ideological traditional and religious resistance against it Born in 1946 she performed in several theater productions became an acclaimed film star in the 1970s and pursued a career as a journalist and poet Following the revolution she was imprisoned and eventually became homeless on the streets of Tehran Her success and eventual decline as a female artist and entertainer illustrate the conflict between modernity and tradition and Iran's failure to embrace an overt expression of sexuality Talattof also profiles several other female artists of the 1970s analyzing their lives and work as windows through which to examine what Iranian

culture allowed and what it repudiated A pioneering and timely work *Modernity Sexuality and Ideology in Iran* explores the integral role of popular culture and female artists in the shaping of modern Iran constructing a new framework for understanding such crucial concepts as ideology and modernity

**Sectarian Politics in the Persian Gulf** Lawrence G. Potter, 2014-06-01 Long a taboo topic as well as one that has alarmed outside powers sectarian conflict in the Middle East is on the rise The contributors to this book examine sectarian politics in the Persian Gulf including the GCC states Yemen Iran and Iraq and consider the origins and consequences of sectarianism broadly construed as it affects ethnic tribal and religious groups They also present a theoretical and comparative framework for understanding sectarianism as well as country specific chapters based on recent research in the area Key issues that are scrutinised include the nature of sectarianism how identity moves from a passive to an active state and the mechanisms that trigger conflict The strategies of governments such as rentier economies and the invention of partisan national histories that encourage or manage sectarian differences are also highlighted as is the role of outside powers in fostering sectarian strife The volume also seeks to clarify whether movements such as the Islamic revival or the Arab Spring obscure the continued salience of religious and ethnic cleavages

**Forced Into Faith** Innaiah Narisetti, 2010-10-28 In 1989 the United Nations General Assembly adopted the Convention on the Rights of the Child proclaiming elementary rights for children worldwide Among other provisions the Convention safeguards children's religious freedom and their freedom of thought But because child rearing is recognized as the primary responsibility of parents the question of what children are raised to believe is left up to their mothers and fathers In this controversial critique of the UN Convention humanist Innaiah Narisetti forcefully argues that children's rights should include complete freedom from religious belief Narisetti proposes that the choice of religious belief or nonbelief should be deferred till adulthood Just as most societies recognize that marriage and civic responsibilities such as voting are adult prerogatives that children should not be allowed to exercise so should the choice of a belief system wait till an individual is competent to exercise mature judgment Narisetti cites numerous examples of the ways in which early religious indoctrination leads to later negative attitudes such as intolerance suspicion and outright hostility directed toward those who believe differently He also notes that religion provides a cloak for such obvious evils as sexual abuse genital mutilation and corporal punishment of children While most societies are quick to condemn such abuses Narisetti suggests that they should be willing to take the next logical step and look to the role of religion in such problems Including the complete text of the Convention on the Rights of the Child this candid unflinching critique of childhood religious education will provoke much thoughtful discussion
