**On Coerced Labor**, 2016-06-10 On Coerced Labor focuses on those forms of labor relations that have been overshadowed by the extreme categories wage labor and chattel slavery in the historiography It covers types of work lying between what the law defines as free labor and slavery The frame of reference is the observation that although chattel slavery has largely been abolished in the course of the past two centuries other forms of coerced labor have persisted in most parts of the world While most nations have increasingly condemned the continued existence of slavery and the slave trade they have tolerated labor relationships that involve violent control economic exploitation through the appropriation of labor power restriction of workers freedom of movement and fraudulent debt obligations Contributors are Lisa Carstensen Christian G De Vito Justin F Jackson Christine Molfenter David Palmer Nicola Pizzolato Luis F B Plascencia Magaly Rodr guez Garc a Kelvin Santiago Valles Nicole J Siller Marcel van der Linden Sven Van Melkebeke

**Measures of Equality** Alejandra Bronfman, 2004 In the years following Cuba s independence nationalists aimed to transcend racial categories in order to create a unified polity yet racial and cultural heterogeneity posed continual

challenges to these liberal notions of citizenship Alejandra Bronfman **The Many Meanings of Poverty** Cynthia E. Milton, 2007 The Many Meanings of Poverty is about poverty in a colonial context it argues that the cultural meanings of poverty defined social compacts that served to bolster and undermine the sources of colonialism **Gender and the Mexican Revolution** Stephanie J. Smith, 2009 The state of Yucatan is commonly considered to have been a hotbed of radical feminism during the Mexican Revolution Challenging this romanticized view Stephanie Smith examines the revolutionary reforms designed to break women's ties to tradition and religion **Violence and Crime in Latin America** Gema Santamaría, David Carey, 2017-02-21 According to media reports Latin America is one of the most violent regions in the world a distinction it held throughout the twentieth century The authors of Violence and Crime in Latin America contend that perceptions and representations of violence and crime directly impact such behaviors creating profound consequences for the political and social fabric of Latin American nations Written by distinguished scholars of Latin American history sociology anthropology and political science the essays in this volume range from Mexico and Argentina to Colombia and Brazil in the twentieth and twenty first centuries addressing such issues as extralegal violence in Mexico the myth of indigenous criminality in Guatemala and governments selective blindness to violent crime in Brazil and Jamaica The authors in this collection examine not only the social construction and political visibility of violence and crime in Latin America but the justifications for them as well Analytically and historically these essays show how Latin American citizens have sanctioned criminal and violent practices and incorporated them into social relations everyday practices and institutional settings At the same time the authors explore the power struggles that inform distinctions between illegitimate versus legitimate violence Violence and Crime in Latin America makes a substantive contribution to understanding a key problem facing Latin America today In its historical depth and ethnographic reach this original and thought provoking volume enhances our understanding of crime and violence throughout the Western Hemisphere Working Hard, Drinking Hard Adrienne Pine, 2008-05-07 A theoretically cutting edge ethnography of neoliberalism as suffered by most poor people across the globe Pine creatively links macro structural forces in Honduras to the everyday life of factory workers shanty town dwellers gang kids alcoholics and crack smokers within the context of globalized consumerism and the history of U S domination of Central America Philippe Bourgois author of In Search of Respect Gutsy fieldwork A compassionate analysis of the links between work violence corporate capitalism American empire and self worth It will make your blood boil Laura Nader University of California Berkeley Using largely the voices of others Pine's rigorous but sensitive anthropological approach interweaves gangs work religion drink politics and even globalization to show clearly how violence pervades the everyday life of many Hondurans It is a realistic tour de force Dwight B Heath Brown University **Infrastructures of Race** Daniel Nemser, 2017-05-23 With case studies that link practices of concentration to the emergence of new racial categories this groundbreaking book convincingly argues that race was a product of rather than a starting point for the spatial politics of

colonial rule in Latin Ame      **Reproduction and Its Discontents in Mexico** Nora E. Jaffary,2016-10-13 In this history of childbirth and contraception in Mexico Nora E Jaffary chronicles colonial and nineteenth century beliefs and practices surrounding conception pregnancy and its prevention and birth Tracking Mexico s transition from colony to nation Jaffary demonstrates the central role of reproduction in ideas about female sexuality and virtue the development of modern Mexico and the growth of modern medicine in the Latin American context The story encompasses networks of people in all parts of society from state and medical authorities to mothers and midwives husbands and lovers employers and neighbors Jaffary focuses on key topics including virginity conception contraception and abortion infanticide monstrous births and obstetrical medicine Her approach yields surprising insights into the emergence of modernity in Mexico Over the course of the nineteenth century for example expectations of idealized womanhood and female sexual virtue gained rather than lost importance In addition rather than being obliterated by European medical practice features of pre Columbian obstetrical knowledge especially of abortifacients circulated among the Mexican public throughout the period under study Jaffary details how across time localized contexts shaped the changing history of reproduction contraception and maternity      Liberalism as Utopia Timo H. Schaefer,2017-08-07 Liberalism as Utopia challenges widespread perceptions about the weakness of Mexico s nineteenth century state Schaefer argues that after the War of Independence non elite Mexicans peasants day laborers artisans local merchants pioneered an egalitarian form of legal rule by serving in the town governments and civic militias that became the local faces of the state s coercive authority These institutions were effective because they embodied patriarchal norms of labor and care for the family that were premised on the legal equality of male adult citizens The book also examines the emergence of new illiberal norms that challenged and at the end of the century during the dictatorship of Porfirio D az overwhelmed the egalitarianism of the early republican period By comparing the legal cultures of agricultural estates mestizo towns and indigenous towns Liberalism as Utopia also proposes a new way of understanding the social foundations of liberal and authoritarian pathways to state formation in the nineteenth century world      *Church and State Education in Revolutionary Mexico City* Patience A. Schell,2023-01-31 Revolution in Mexico sought to subordinate church to state and push the church out of public life Nevertheless state and church shared a concern for the nation s social problems Until the breakdown of church state cooperation in 1926 they ignored the political chasm separating them to address those problems through education in order to instill in citizens a new sense of patriotism a strong work ethic and adherence to traditional gender roles This book examines primary vocational private and parochial education in Mexico City from 1917 to 1926 and shows how it was affected by the relations between the revolutionary state and the Roman Catholic Church One of the first books to look at revolutionary programs in the capital immediately after the Revolution it shows how government social reform and Catholic social action overlapped and identifies clear points of convergence while also offering vivid descriptions of everyday life in revolutionary Mexico City Comparing curricula and practice in Catholic and public schools

Patience Schell describes scandals and successes in classrooms throughout Mexico City. Her recreation of day to day schooling shows how teachers, inspectors, volunteers, and priests even while facing material shortages struggled to educate Mexico City's residents out of a conviction that they were transforming society. She also reviews broader federal and Catholic social action programs such as films, unionization projects, and libraries that sought to instill a new morality in the working class. Finally, she situates education among larger issues that eventually divided church and state and examines the impact of the restrictions placed on Catholic education in 1926. Schell sheds new light on the common cause between revolutionary state education and Catholic tradition and provides new insight into the wider issue of the relationship between the revolutionary state and civil society. As the presidency of Vicente Fox revives questions of church involvement in Mexican public life, her study provides a solid foundation for understanding the tenor and tenure of that age-old relationship.

*Female Prostitution in Costa Rica* Anne Hayes, 2013-09-13 This book analyzes the development of female prostitution in the Pacific port of Puntarenas, Costa Rica, during the advanced stage of the coffee exporting economy, 1880-1930, at the height of the consolidation of the liberal state. Hayes argues that prostitution in the port differed from that of the coffee-producing highlands due to differential economic, social, and political development. In the periphery of Puntarenas, the development of prostitution reflected a less stigmatized view of sexual commerce than that of the highlands, where prostitution, although legal, threatened the tenets of liberal nationalism based on racial homogeneity and family values. Women of the highlands were encouraged to reproduce the nation's more European stock of workers and to ensure the legal transference of property through legal church marriages, both part of a design to stabilize the coffee exporting project. By contrast, prostitutes and other working women of Puntarenas, many immigrants from the less European populations of neighboring regions and most in concubinage, were freer to do what the law prescribed: register as prostitutes in legitimate trade. Such regional disparities reveal weaknesses in traditional explanations of Costa Rican exceptionalism, which have rested on the premise of cultural homogeneity and have reflected the realities of only one region of the country. The book advances an alternative explanation for the development of the nation's more democratic institutions, situating Costa Rican exceptionalism in the nation's free labor system of which the labor prostitute in Puntarenas provides an example.

**Reinventing Punishment** Michele Pifferi, 2016 Providing a historical analysis of the impact of criminology on the rationale of punishment and the sentencing systems in Europe and the US between the 1870s and the 1930s, *Reinventing Punishment: A Comparative History of Criminology and Penology in the 19th and 20th Century* investigates and contrasts the rise of the principles of individualisation of punishment, social defence, preventive justice, and indeterminate sentencing. The manner in which American and European jurisprudence enforced these ideas resulted in the emergence of two different penological identities: the American penal reform movement led to the adoption of the indeterminate sentence system, whereas the European criminological approach resulted in the formulation of the dual track system with punishment and measures of security. This

theoretical divide discussed at many international congresses and in studies of comparative criminal law not only reflects two different ideas on the legitimacy and purpose of punishment but also corresponds to two different constitutional views of criminal law. The book considers the relation between constitutional frameworks, rule of law and *Rechtsstaat* and penological claims explaining how some of the tenets of penal liberalism such as principle of legality and separation of powers were affected by penal modernism even with the rise of authoritarian regimes. It examines the dilemmas provoked by criminology focusing on the role of the judge in the execution of sentences, the distribution of sentencing powers among judicial and administrative bodies, the balance between social security and individual guarantees and the inconsistencies of preventive detention. Filling a notable gap in Anglo American literature by providing a sophisticated panoramic analysis of the development of criminology in late nineteenth and first half of the twentieth century Europe, *Reinventing Punishment* will be of interest to scholars of criminology, criminal law and criminal justice studies as well as legal historians and theorists.

**Modernity in the Flesh** Kristin Ruggiero, 2004. This book examines the lives of people caught in the dynamics of changing mores, rapid urbanization and real public health issues in nineteenth century Buenos Aires. *Modernity in the Flesh* shows the costs Argentines paid for the establishment of liberal democracy between 1880 and 1910. Modernity raised consciousness of the public good and a commitment to new sciences and a new set of priorities that asserted the precedence of health and security of the social whole. This book shows the ways that the tensions of liberal democracy between individual rights and the social good were tempered by flesh and articulated through this word. As the state was pursuing positivist science and government, the flesh held out a type of corrective to the focus on scientific and material progress. *Borderland on the Isthmus* Michael E. Donoghue, 2014-04-23. The construction, maintenance and defense of the Panama Canal brought Panamanians, U.S. soldiers and civilians, West Indians, Asians and Latin Americans into close even intimate contact. In this lively and provocative social history, Michael E. Donoghue positions the Panama Canal Zone as an imperial borderland where U.S. power, culture and ideology were projected and contested. Highlighting race as both an overt and underlying force that shaped life in and beyond the Zone, Donoghue details how local traditions and colonial policies interacted and frequently clashed. Panamanians responded to U.S. occupation with proclamations, protests and everyday forms of resistance and acquiescence. Although U.S. Zionians and military personnel stigmatized Panamanians as racial inferiors, they also sought them out for service, labor, contraband, sexual pleasure and marriage. The Canal Zone, he concludes, reproduced classic colonial hierarchies of race, national identity and gender, establishing a model for other U.S. bases and imperial outposts around the globe. [The Liberal Script at the Beginning of the 21st Century](#) Tanja A. Börzel, Johannes Gerschewski, Michael Zürn, 2024-10-10. This is an open access title available under the terms of a CC BY-NC-ND 4.0 International licence. It is free to read at Oxford Academic and offered as a free PDF download from OUP and selected open access locations. 21st century liberalism is being contested on multiple fronts and by a wide range of actors. To understand these challengers it is important

to have a better grasp of their common target This book introduces the liberal script as an analytical concept that allows us to analyze and problematize liberal thinking as well as its different components and linkages and the tensions that they produce What happens when the pursuit of market efficiency is incompatible with social justice It is these tensions between the different components of the liberal script that are at the heart of the challenges against it Different societies have resolved these tensions in different ways leading to a variety of liberal subscripts and their contestations The volume integrates theoretical and methodological perspectives from different disciplines including political science sociology law history philosophy post colonial studies and educational science In demonstrating the theoretical and empirical added value of using the concept of liberal script the volume presents a multifaceted and nuanced picture of what is at stake in the challenges to liberalism in the early 21st century This volume has emerged from research carried out as part of the Cluster of Excellence Contestations of the Liberal Script SCRIPTS which analyzes the contemporary controversies about liberal ideas institutions and practices on the national and international level from a historical global and comparative perspective It connects academic expertise in the social sciences and area studies and collaborates with research institutions in all world regions Operating since 2019 and funded by the German Research Foundation DFG SCRIPTS unites eight major Berlin based research institutions Freie Universität Berlin the Humboldt Universität zu Berlin the Berlin Social Science Center WZB the Hertie School the German Institute for Economic Research DIW the Berlin branch of the German Institute of Global and Area Studies GIGA the Centre for East European and International Studies ZOiS and the Leibniz Zentrum Moderner Orient ZMO

*Exploring Subregional Conflict* Chandra Lekha Sriram, Zoe Nielsen, 2004 Selected bibliography pp 193 199 Street Democracy Sandra C. Mendiola Garcia, 2017-04-01 No visitor to Mexico can fail to recognize the omnipresence of street vendors selling products ranging from fruits and vegetables to prepared food and clothes The vendors compose a large part of the informal economy which altogether represents at least 30 percent of Mexico's economically active population Neither taxed nor monitored by the government the informal sector is the fastest growing economic sector in the world In *Street Democracy* Sandra C Mendiola Garcia explores the political lives and economic significance of this otherwise overlooked population focusing on the radical street vendors during the 1970s and 1980s in Puebla Mexico's fourth largest city She shows how the Popular Union of Street Vendors challenged the ruling party's ability to control unions and local authorities power to regulate the use of public space Since vendors could not strike or stop production like workers in the formal economy they devised innovative and alternative strategies to protect their right to make a living in public spaces By examining the political activism and historical relationship of street vendors to the ruling Institutional Revolutionary Party PRI Mendiola Garcia offers insights into grassroots organizing the Mexican Dirty War and the politics of urban renewal issues that remain at the core of street vendors experience even today **In the Wake of Neoliberalism** Karen Ann Faulk, 2012-11-21 Understanding the various meanings given to human and citizenship rights in Argentina is an important

task particularly so given the nation's prominence in global discussions. An exporter of tactics, ideas, and experts, Argentina has become a site of innovation in the field of human rights. This book investigates two prominent Buenos Aires protest organizations, Memoria Activa and the BAUEN workers cooperative, to consider how each has framed its demands within a language of rights. Fundamentally, this book is concerned with the complex interrelationship between the discourse of human rights and the neoliberal project. In exploring the way in which rights talk is used and adapted locally by various activist groups, the book looks at the mutually formative and contentious interactions between ideas of human rights, rights of citizenship, and the concrete and envisioned social relationships that form the basis for social activism in the wake of neoliberalism.
