Reconstructing The American Welfare State Pragmatic Responses To The Welfare Crisis:

Reconstructing the American Welfare State David Stoesz, Howard Karger, 1992 the book makes clear that there is a consensus on the need for and desire for change PUBLIC ADMINISTRATION REVIEW *What's Left of the Left* James E. Cronin, George W. Ross, James Shoch, 2011-08-24 Considers how centre left political parties have fared since the 1970s and the daunting but by no means insurmountable challenges faced by them *Whitaker's Books in Print*, 1998 *Subject Guide to Books in Print*, 2001 **Beyond Neoliberalism** James Petras, Henry Veltmeyer, 2016-04-15 The world is at the crossroads of social change in the vortex of forces that are bringing about a different world a post neoliberal state This groundbreaking book lays out an analysis of the dynamics and contradictions of capitalism in the twenty first century These dynamics of forces are traced out in developments across the world in the Arab Spring of North Africa and the Middle East in Cuba and elsewhere in Latin America in the United States and in Asia The forces released by a system in crisis can be mobilized in different ways and directions The focus of the book is on the strategic responses to the systemic crisis As the authors tell it these dynamics concern three worldviews and strategic responses The Davos Consensus focuses on the virtues of the free market and deregulated capitalism as it represents the interests of the global ruling class The post Washington Consensus concerns the need to give capital a human face and establish a more inclusive form of development and global governance In addition to these two visions of the future and projects the authors identify an emerging radical consensus on the need to move beyond capitalism as well as neoliberalism *Corporate Capitalism and the Integral State* Stephen Maher, 2022-03-28 This book advances an original conception of the relationship between state and corporate power in the United States Using what he terms an Institutional Marxist framework Maher argues that far from passively responding to interest group pressures the state has been a key agent in politically mobilizing business and has played an active role in the organization of lobbying groups Such business associations do not merely express the pre existing interests of their corporate members but are also mechanisms through which the state organizes the political power of the capitalist class They form part of what the author refers to as an integral state a wider network of state power which traverses and interpenetrates the state bureaucracy the legislature the industrial policy apparatus and corporate governance Based on extensive archival research this book tracks the role of the General Electric Company as a pillar of the integral state in the United States from the finance capital period 1880 to 1930 through the managerial period 1930 1979 to the restructuring leading up to the age of neoliberalism 1979 present **Abstracts of Public Administration, Development, and Environment**, 1993

Answers to the Labour Question Gary Mucciaroni, 2024-01-31 Since the mid nineteenth century public officials reformers journalists and other elites have referred to the labour question The labour question was rooted in the system of wage labour that spread throughout much of Europe and its colonies and produced contending classes as industrialization unfolded *Answers to the Labour Question* explores how the liberal state responded to workers demands that employers recognize

trade unions as their legitimate representatives in their struggle for compensation and control over the workplace Gary Mucciaroni examines five Anglophone nations Australia Canada Great Britain New Zealand and the United States whose differences are often overlooked in the literature on political economy which lumps them together as liberal market led economies Despite their many shared characteristics and common historical origins these nations responses to the labour question diverged dramatically Mucciaroni identifies the factors that explain why these nations developed such different industrial relations regimes and how the paths each nation took to the adoption of its regime reflected a different logic of institutional change Drawing on newspaper accounts parliamentary debates and personal memoirs among other sources *Answers to the Labour Question* aims to understand the variety of state responses to industrial unrest and institutional change beyond the domain of industrial relations

Rose Arny, 1992 *Choice*, 2002 Global Social Work in a Political Context Ferguson, Iain, Ioakimidis, Vasilios, Michael Lavalette, 2018-01-10 How is social work shaped by global issues and international problems and how should it address them Taking a radical perspective this book reveals what we can learn from different approaches from across the globe

The University and the State Marek Kwiek, 2006 This book argues that the current renegotiation of the postwar social contract concerning the welfare state in Europe is being accompanied by the renegotiation of a smaller scale modern social pact between the university and the nation state Current transformations to the state under the pressures of globalization will not leave the university unaffected and consequently it is useful to discuss the university and its future in the context of the state In the new global order against the odds universities are striving to maintain their pivotal role in society Their role as engines of economic growth and contributors to economic competitiveness between increasingly knowledge driven economies is being widely acknowledged But it is a radical reformulation of their traditional social roles The main reasons for current transformations of the university include globalization pressures on nation states and their public services the end of the

Golden age of the Keynesian welfare state and the emergence of knowledge based societies and knowledge driven economies Therefore the university can no longer be discussed solely in traditional relatively self contained disciplinary contexts Here the university is seen from a variety of perspectives and through the lens of a wide range of disciplines mainly educational sciences political economy sociology political sciences and philosophy *Pragmatic Liberalism* A. Hunter,C.

Milofsky,2007-04-02 This book analyzes the problems of U S politics and public policy and proposes a solution rooted in a deep American consensus that often goes unrecognized The authors critique three dominant ideological perspectives conservative radical and liberal and propose a fourth eclectic outcomes perspective rooted in American pragmatism **The**

Politics of Economic Restructuring and Old-age Pension Reform in China Jinxin Huang,2004 **Foreign Aid and State Building in Interwar Romania** Doina Anca Cretu,2024-12-10 The decades following World War I were a period of political social and economic transformation for Central and Eastern Europe This book considers the role of foreign aid in Romania between 1918 and 1940 offering a new history of the interrelation between state building and nongovernmental humanitarianism and philanthropy in the interwar period Doina Anca Cretu argues that Romania was a laboratory for transnational intervention as various state builders actively pursued accessed and often instrumentalized American assistance in order to accelerate reconstructive and modernizing projects after World War I At its core this is a study of how local views ambitions and practical agendas framed trajectories of humanitarian and philanthropic endeavors in postimperial Central and Eastern Europe Conversely it is a reflection on the ways that architects and practitioners of foreign aid sought to transfer notions of democracy civilization and modernity within shifting local and national contexts in the aftermath of the war and after the collapse of European empires At the intersection of the history of interwar Europe and international philanthropy and humanitarianism this book s innovative and explicitly transnational approach provides a new framework for understanding the contours of European nationalism in the twentieth century *The Puerto Rico Reconstruction*

Administration Geoff G. Burrows,2024-04-30 This book explores the history and impact of an important New Deal program that improved living conditions across Puerto Rico in the wake of destructive hurricanes and the Great Depression while at the same time resulting in a strengthened colonial relationship between the island and the United States **Good**

Punishment? James Samuel Logan,2008-01-02 The author critiques the American obsession with imprisonment as punishment calling it retributive degradation of the incarcerated His analysis draws on both salient empirical data and material from a variety of disciplines social history anthropology law and penal theory philosophy of religion as he uncovers the devastating social consequences both direct and collateral of imprisonment on such a large unprecedented scale The book develops a Christian social ethics of good punishment embodied as a politics of healing memories and ontological intimacy **What Went Wrong? The Nicaraguan Revolution** Dan La Botz,2016-09-07 This volume is a valuable re

assessment of the Nicaraguan Revolution by a Marxist historian of Latin American political history It shows that the FSLN

the Sandinistas with politics principally shaped by Soviet and Cuban Communism never had a commitment to genuine democracy either within the revolutionary movement or within society at large that the FSLN's lack of commitment to democracy was a key factor in the way that revolution was betrayed from the 1970s to the 1990s and that the FSLN's lack of rank and file democracy left all decision making to the National Directorate and ultimately placed that power in the hands of Daniel Ortega Pursuing his narrative into the present La Botz shows that once their would be bureaucratic ruling class project was defeated Ortega and the FSLN leadership turned to an alliance with the capitalist class

Work After Globalization Guy Standing, 2010-01-01 This is a scholarly and erudite work There is a wealth of detail all illustrated with plenty of fascinating examples It is impossible to give the full flavour of this thoughtful and stimulating book in even a long review but it deserves to be widely accessible and read Citizen's Income this is the greatest book ever about work in all its forms Work after Globalization offers us the kind of foundation we need to launch a new social democratic program do yourself a favour don't take my word for it You need to read this book for yourself If you're ever going to read a book about work make it this one Peter Hall Jones New Unionism Network This is an important book It shifts emphasis from the role of capital to the creativity of labour in the creation of value in the real economy A central role is accorded to each and all of the skills and occupations which contribute to the construction of an economy and a civic culture governed by the public interest Guy Standing has made an original contribution to the validation of human creativity in the economic process The work owes an acknowledged debt to the vision of Karl Polanyi Kari Polanyi Levitt McGill University Canada Standing has written a comprehensive account of what the forces and developments that govern the contemporary world such as states employers trade unions the globalization of labor markets financial market crises etc do to workers and the conditions under which they work and live It is rare for a social science work that is full of empirical information to be as accessibly written as this one It is even rarer to find all three of the things that good social science can deliver fine grained description original explanation sophisticated normative reflection in the pages of a single volume One of the richest accounts of the fates of labor since Polanyi 1944 Claus Offe Hertie School of Governance Germany In Work after Globalization Guy Standing one of the most knowledgeable and theoretically sophisticated scholars in the area of labor relations today paints a rich panorama of contemporary labor practices around the world to demonstrate that we are in the midst of a societal shift of historical dimensions Standing's concept of occupational citizenship provides a way to recapture both human agency and community thereby reconciling the individual with society and flexibility with new forms of social security This book is a tour de force for its sweeping scope incisive analysis and predictive power Katherine Stone University of California Los Angeles US In this ground breaking book Guy Standing offers a new perspective on work and citizenship rejecting the labourist orientation of the 20th century Karl Polanyi's The Great Transformation marked the rise of industrial citizenship which hinged on fictitious labour de commodification Since the 1970s this has collapsed and a Global Transformation is under way in which inequalities

and insecurities are becoming unsustainable Guy Standing explains that while a struggle against paternalism is essential the desirable egalitarian response to the problems caused by globalization is a strategy to build occupational citizenship This is based on a right to universal economic security and institutions to enable everybody to develop their capabilities and work whilst respecting the ecological imperatives of the 21st century The book also explores a phasing out of labour law and a reorientation of collective bargaining towards collaborative bargaining highlighting the increased importance of the relationship between groups of workers and citizens as well as between workers and capital Work after Globalization offers a new perspective on work rejecting the labourist orientation of the 20th century Social scientists interested in globalization and labour market issues will warmly welcome this book It will also strongly appeal to stude
