Reconstruction In Religion:

The Reconstruction of Religion Charles Abram Ellwood, 1922 A selected list of books in English suggested for collateral reading p 319 324 *Building God's Kingdom* Julie J. Ingersoll, 2015-07-01 For the last several decades at the far fringes of American evangelical Christianity has stood an intellectual movement known as Christian Reconstruction The proponents of this movement embrace a radical position that all of life should be brought under the authority of biblical law as it is contained in both the Old and New Testaments They challenge the legitimacy of democracy argue that slavery is biblically justifiable and support the death penalty for all manner of crimes described in the Bible including homosexuality adultery and Sabbath breaking But as Julie Ingersoll shows in this fascinating new book this Biblical Worldview shapes their views not only on political issues but on everything from private property and economic policy to history and literature Holding that the Bible provides a coherent internally consistent and all encompassing worldview they seek to remake the entirety of society church state family economy along biblical lines Tracing the movement from its mid twentieth century origins in the writings of theologian and philosopher R J Rushdoony to its present day sites of influence including the Christian Home School movement advocacy for the teaching of creationism and the development and rise of the Tea Party Ingersoll illustrates how Reconstructionists have broadly and subtly shaped conservative American Protestantism over the course of the late twentieth and early twenty first centuries Drawing on interviews with Reconstructionists themselves as well as extensive research in Reconstructionist publications *Building God's Kingdom* offers the most complete and balanced portrait to date of this enigmatic segment of the Christian Right

Christian Reconstruction Michael J. McVicar, 2015-04-27 This is the first critical history of Christian Reconstruction and its founder and champion theologian and activist Rousas John Rushdoony 1916 2001 Drawing on exclusive access to Rushdoony's personal papers and extensive correspondence Michael J McVicar demonstrates the considerable role Reconstructionism played in the development of the radical Christian Right and an American theocratic agenda As a religious movement Reconstructionism aims at nothing less than reconstructing individuals through a form of Christian governance that if implemented in the lives of U S citizens would fundamentally alter the shape of American society McVicar examines Rushdoony's career and traces Reconstructionism as it grew from a grassroots populist movement in the 1960s to its height of popularity in the 1970s and 1980s He reveals the movement's galvanizing role in the development of political conspiracy theories and survivalism libertarianism and antistatism and educational reform and homeschooling The book demonstrates how these issues have retained and in many cases gained potency for conservative Christians to the present day despite the decline of the movement itself beginning in the 1990s McVicar contends that Christian Reconstruction has contributed significantly to how certain forms of religiosity have become central and now familiar aspects of an often controversial conservative revolution in America

The Reconstruction of Religion Charles Abram

Ellwood,1925 **The Roots of Reconstruction** Rousas John Rushdoony,1991 *The Reconstruction of Religion* Jan-Olav Henriksen,2015-03-13 The Reconstruction of Religion explores the thoughts of three influential philosophers G E Lessing Soren Kierkegaard and Friedrich Nietzsche looking in particular at their influential approaches to the relationship between religion and modernity In a period of a little more than one hundred years Lessing Kierkegaard and Nietzsche each developed a different theory of religion Rejecting the possibility of maintaining religious faith on the old foundation of church tradition these thinkers formulated new ways of understanding religion in response to the challenges of modernity Though the conclusions of each system are different there remain important elements in common between them such as the importance of religious subjectivity Jan Olav Henriksen compares and contrasts the thought of Lessing Kierkegaard and Nietzsche showing that each of these philosophers still has something important to contribute to understanding religion in our own postmodern era For anyone interested in the position of religious belief in today s world these reconstructions of religion are of great value In addition to their place in the history of ideas these three philosophical approaches anticipate some of the recent issues relating to religion in postmodernity Henriksen s perceptive work moves beyond the level of historical analysis to insightful rereadings of Lessing Kierkegaard and Nietzsche that help us better understand the place of religion in our pluralistic society **Toward a Reconstruction of Religion** Eugene Fontinell,1979 **Toward a Reconstruction of Religion** Eugene Fontinell,1970 *Theology in Reconstruction* Thomas F. Torrance,1996-12-19 A collection of fifteen essays addressing the basic intellectual challenges to the contemporary Christian church Professor Torrance deals with such topics as the centrality of Christology in scientific dogmatics the Reformed and Roman Catholic doctrines of grace theological education the relation of theological statements to scientific methodology the contemporary significance of some past theological giants and the nature and significance of the Holy Spirit and of the church The Debate Over Christian Reconstruction Gary DeMar,1988 *Religion and Social Development in Post-apartheid South Africa* Ignatius Swart,Hermann Rocher,Sulina Green,Johannes Erasmus,2010-10-01 It reflects original research and contributes to new developments in the field of theology and religion with regard to its developmental role within a transformation context The book may easily stand out in future as seminal in the way that it promoted the social development debate of the church and its organisational structures from an interdisciplinary focus Prof Antoinette Lombard Department of Social Work and Criminology University of Pretoria *The Reconstruction of Religion* Charles Abram Ellwood,1923 *The Reconstruction of Religious Belief* William Hurrell Mallock,1905 The Christian Reconstruction of Modern Life Charles Henry Dickinson,1913 Christian Reconstruction Gary North,Gary DeMar,1991 **The Reconstruction of the Church--on what Pattern?** Eli Stanley Jones,1970 **Encyclopedia of Religion in the South** Samuel S. Hill,Charles H. Lippy,Charles Reagan Wilson,2005 The publication of the Encyclopedia of Religion in the South in 1984 signaled the rise in the scholarly interest in the study of Religion in the South Religion has always been part of the cultural heritage of that region but

scholarly investigation had been sporadic Since the original publication of the ERS however the South has changed significantly in that Christianity is no longer the primary religion observed Other religions like Judaism Buddhism and Hinduism have begun to have very important voices in Southern life This one volume reference the only one of its kind takes this expansion into consideration by updating older relevant articles and by adding new ones After more than 20 years the only reference book in the field of the Religion in the South has been totally revised and updated Each article has been updated and bibliography has been expanded The ERS has also been expanded to include more than sixty new articles on Religion in the South New articles have been added on such topics as Elvis Presley Appalachian Music Buddhism Bill Clinton Jerry Falwell Fannie Lou Hamer Zora Neale Hurston Stonewall Jackson Popular Religion Pat Robertson the PTL Sports and Religion in the South theme parks and much more This is an indispensable resource for anyone interested in the South religion or cultural history **The Christian Century** ,1919 *The Journal of Social Forces* ,1922
