Reconstruction Presidents

M. Skidmore

Reconstruction Presidents:

The Reconstruction Presidents Brooks D. Simpson, 1998 Brooks Simpson examines the policies of each administration in depth and evaluates them in terms of their political social and institutional contexts Simpson explains what was politically possible at a time when federal authority and presidential power were more limited than they are now He compares these four leaders handling of similar challenges such as the retention of political support and the need to build a southern base for their policies in different ways and under different circumstances and he discusses both their use of executive power and the impact of their personal beliefs on their actions

A Companion to the Reconstruction Presidents, 1865 - 1881

Edward O. Frantz, 2014-03-24 A Companion to Reconstruction Presidents presents a series of original essays that explore a variety of important issues themes and debates associated with the presidencies of Andrew Johnson Ulysses S Grant and Rutherford B Hayes Represents the first comprehensive look at the presidencies of Johnson Grant and Hayes in one volume Features contributions from top historians and presidential scholars Approaches the study of these presidents from a historiographical perspective Key topics include each president's political career foreign policy domestic policy military history and social context of their terms in office

The Presidents and the Constitution Ken Gormley, 2016-05-10 Shines new light on America's brilliant constitutional and presidential history from George Washington to Barack Obama In this sweepingly ambitious volume the nation's foremost experts on the American presidency and the U S Constitution join together to tell the intertwined stories of how each American president has confronted and shaped the Constitution Each occupant of the office the first president to the forty fourth has contributed to the story of the Constitution through the decisions he made and the actions he took as the nation's chief executive By examining presidential history through the lens of constitutional conflicts and challenges The Presidents and the Constitution offers a fresh perspective on how the Constitution has evolved in the hands of individual presidents It delves into key moments in American history from Washington's early battles with Congress to the advent of the national security presidency under George W Bush and Barack Obama to reveal the dramatic historical forces that drove these presidents to action Historians and legal experts including Richard Ellis Gary Hart Stanley Kutler and Kenneth Starr bring the Constitution to life and show how the awesome powers of the American presidency have been shaped by the men who were granted them The book brings to the fore the overarching constitutional themes that span this country's history and ties together presidencies in a way never before accomplished

The Presidents and the Constitution, Volume One Ken Gormley, 2020-03-24 Shines a light on the constitutional issues that confronted and shaped each presidency from George Washington to the Progressive Era Drawing from the monumental The Presidents and the Constitution A Living History published in 2016 the nation's foremost experts in the American presidency and the US Constitution join together to tell the intertwined stories of how the first twenty seven distinctive American presidents have confronted and shaped the Constitution and thus defined the most powerful office in

human history From George Washington to William Howard Taft The Presidents and the Constitution Volume 1 illuminates the evolving American presidency in a unique way through the lens of the Constitution itself Arranged chronologically by president the book examines the constitutional issues confronting each president in the context of the personalities driving historical events The contributors illustrate the extensive powers of the American presidency in domestic and foreign affairs showing how they have been used by the men who were granted them and brings to light the overarching constitutional themes that span this country s history and tie each presidency to the other branches of government **Maligned**

Presidents: The Late 19th Century M. Skidmore,2014-06-20 Certain 19th Century presidencies contrast common perceptions of the office s authority and strength These presidents were a strong group and were anything but insignificant They fought substantial battles with Congress and often won This book seeks to provide more substantive analysis of maligned presidencies and the legacies left behind **The Seven-Day Scholar: The Presidents** Dennis Gaffney,Peter

Gaffney,2012-02-07 A bite of history a day all year long Flawless storytelling expert research and intriguing one page essays make The Seven Day Scholar The Presidents perfect for history buffs The Presidents addresses formative moments in the lives of the presidents crucial political decisions little known facts and insights into the intriguing individuals Americans have selected to lead our country Each chapter includes seven related narrative entries one for each day of the week The book explores many fascinating facts and issues about the presidents including Did Washington really enjoy dancing Why did President Jefferson avoid speaking in public Why did Lincoln crack down on civil liberties Why did Eisenhower fight against big defense budgets How responsible was Reagan for the end of the Cold War As well as covering each president the book includes chapters on the Best and Worst Writers and Speakers Most Controversial Elections Scandals Most Controversial Foreign Policy Decisions The Peacemakers First Ladies The Best and Worst Presidents and more Entries also include follow up resources where curious readers can learn more Readers can sweep through the book from beginning to end or use it as a reference book periodically exploring topics and presidents in which they are interested **Accidental Presidents** P.

Abbott,2008-06-23 Accidental presidents those who assume office as a result of death assassination or resignation struggle to establish their legitimacy This book examines and evaluates the strategies of nine accidental presidents from John Tyler to Gerald Ford to demonstrate authority and their capacity to govern **The Presidency of Andrew Johnson** Albert Castel,1979

A critical study of his administration assessing his Reconstruction program and economic foreign relations and Indian policies **Untrodden Ground** Harold H. Bruff,2024-05-31 When Thomas Jefferson struck a deal for the Louisiana Purchase in 1803 he knew he was adding a new national power to those specified in the Constitution but he also believed his actions were in the nation s best interest His successors would follow his example setting their own constitutional precedents Tracing the evolution and expansion of the president s formal power Untrodden Ground reveals the president to be the nation s most important law interpreter and examines how our commanders in chief have shaped the law through their

responses to important issues of their time. Reviewing the processes taken by all forty four presidents to form new legal precedents and the constitutional conventions that have developed as a result, Harold H. Bruff shows that the president is both more and less powerful than many suppose. He explores how presidents have been guided by both their predecessors and their own interpretations of constitutional text as well as how they implement policies in ways that statutes do not clearly authorize or forbid. But while executive power has expanded far beyond its original conception, Bruff argues that the modern presidency is appropriately limited by the national political process: their actions are legitimized by the assent of Congress and the American people or rejected through debilitating public outcry, judicial invalidation, reactive legislation or impeachment. Synthesizing over two hundred years of presidential activity and conflict, this timely book casts new light on executive behavior and the American constitutional system.

Perspectives on Presidential Leadership Michael Patrick Cullinane, Clare Frances Elliott, 2014-02-18. In 2011, Barack Obama invited ten distinguished biographers to the White House to ask them one question: which past American president should I emulate? This was not the first time Obama asked scholars this, but the answer he received would differ as presidential legacies waxed and waned. In 2008, Obama chose Lincoln; in 2009, Reagan; and in 2010, Theodore Roosevelt. *Perspectives on Presidential Leadership* is an examination of presidential legacy and, in particular, an analysis of the first ever UK ranking of American presidents which took place in 2011. In thirteen chapters, thirteen individual presidential administrations are assessed. Some presidents have been considered a success, others a failure; both types are featured in these thirteen case studies in a measured attempt to understand how the perception of presidential leadership evolves, shifts and contorts across three centuries of American politics. The case studies also derive from the expertise of the collected British, Irish and Canadian authors, all of whom are leading scholars in their fields and many of which took part in the 2011 survey. At a time when understanding presidential legacy is in high demand, this book offers a unique international perspective. Through extended commentary and interdisciplinary study of the UK perspective, it provides groundbreaking research.

The Challenge of the American Presidency Philip Abbott, 2011-09-16. According to Niccolò Machiavelli, leaders must always be prepared for unexpected change, sometimes rapidly and in violent and dramatic forms, in order to retain control of their fate. Philip Abbott applies this insight to U.S. presidents. He identifies six major periods of change in the political, economic and international sphere and examines how presidents from Washington to Obama responded to new challenges. How presidents are elected, how they are expected to govern, how the economy functions and what place the nation holds in the international system create general rules that presidents must acknowledge until an alteration in one or more of these patterns changes. The author maintains that in the American presidency, the difference between success and failure rests with how effectively a president reacts to the changes within these systems during his term in office. Organized chronologically, this text focuses on high risk decisions presidents have made from George Washington's issuance of the Neutrality Proclamation to Obama's promotion of health care legislation. This edition includes new material on

the presidencies of George W Bush and Barack Obama as well as updated bibliographical entries The Challenge of the American Presidency will be of interest to those who teach courses in political science history and American Studies as well as to the those who are interested in assessing and comparing U S presidents

The Presidency of Ulysses S. Grant Charles W. Calhoun, 2023-05-12 As controversial in politics as he was in the military Ulysses S Grant 1822 1885 was an embattled president enormously popular with the American people yet the target of unrelenting censure by political enemies For the first time in almost a century this book by the distinguished historian Charles W Calhoun examines Grant s administration in depth offering a fresh look at the 18th president s policies and actions during his two terms in office 1869 1877 Most biographers focus on Grant s military career giving less attention to the significant and complex questions that marked his presidential terms These concerns the issues of politics and governance are at the core of this book As a political historian with a vast knowledge of nineteenth century America and an extensive array of original sources at his command Calhoun approaches Grant s presidency not as an incongruous or inconsequential sequel to his military career but instead as the polestar of American public life during a crucial decade in the nation s political development He explores Grant s leadership style and traces his contributions to the office of president including creating a White House staff employing modern technology to promote the mobility of the presidency and developing strong ties with congressional leaders to enhance executive influence over legislation The Presidency of Ulysses S Grant provides a detailed discussion of the administration s endeavors in a variety of areas Reconstruction and civil rights economic policy the Peace Policy for Native Americans foreign policy and civil service reform It also offers a straightforward examination of the scandals associated with the period highlighting the embattled nature of Grant s presidency and the deep antagonism that marked his relations with key critics such as Charles Sumner Henry Adams and Benjamin Bristow In sum this book is a long overdue re evaluation of a pivotal presidency in America s political history

“A” Compilation of the Messages and Papers of the Presidents, 1789-1897 James Daniel Richardson, 1897

The Heir Apparent Presidency Donald A. Zinman, 2023-03-17 It was during the Depression with the Republican regime in disarray that Franklin D Roosevelt came into office with a mandate to change the role of government His was one of the presidencies like Jefferson s Jackson s and Lincoln s before his and Reagan s after that transformed the political system But what of the successors of such transformative figures those members and supporters of the new regime who are expected to carry forward the policies and politics of those they replace It is these heir apparent presidents impossibly tasked with backward looking progress that Donald Zinman considers in this incisive look at the curious trajectories of political power An heir apparent president in Zinman s analysis can be successful but will struggle to get credit for his achievements He must contend with the consequences of his predecessor s policies while facing a stronger opposition and sitting atop an increasingly weakened and divided party And he will invariably alternate between three approaches to leadership continuity expansion and correction Looking in depth at James Madison Martin Van Buren

Ulysses S Grant an heir apparent as the first genuine Republican to succeed Lincoln Harry S Truman and George H W Bush Zinman reveals how these successors of regime changing presidents at times suffered for diverging from their predecessors perceived policies At times these presidents also suffered from the consequences of the policies themselves or simply from changing political circumstances What they rarely did as becomes painfully clear is succeed at substantially changing the policies and politics that they inherited It is a perilous and often thankless business as The Heir Apparent Presidency makes abundantly clear to follow and lead at once Tracing the ways in which heir apparent presidents have met this challenge this book offers rare and valuable insight into the movement of political time and the shaping of political order *The Birth of the Grand Old Party* Robert F. Engs, Randall M. Miller, 2002-07 This collection of six original essays by some of America's most distinguished historians of the Civil War era examines the origins and evolution of the Republican party over the course of its first generation *The Development of the American Presidency* Richard J. Ellis, 2018-02-20 A full understanding of the institution of the American presidency requires us to examine how it developed from the founding to the present This developmental lens analyzing how historical turns have shaped the modern institution allows for a richer more nuanced understanding The Development of the American Presidency pays great attention to that historical weight but is organized by the topics and concepts relevant to political science with the constitutional origins and political development of the presidency its central focus Through comprehensive and in depth coverage Richard Ellis looks at how the presidency has evolved in relation to the public to Congress to the executive branch and to the law showing at every step how different aspects of the presidency have followed distinct trajectories of change Each chapter promotes active learning beginning with a narrative account of some illustrative puzzle that brings to life a central concept A wealth of photos figures and tables allow for the visual presentations of concepts New to the Third Edition Analysis of the 2016 election including the role of the Electoral College and implications of Trump's nomination for the party decides thesis Exploration of Trump's Twitter presidency and the effectiveness of using social media to bypass the Washington press corps In depth coverage of the development of twentieth century president press relations including a new section on broadcasting the presidency that explores the development of the presidential press conference and presidents use of radio and television Study of national security policy in the Obama administration with a special focus on the targeted killing of American citizens and Obama's legacy for presidential war powers Examination of the original understanding and contemporary relevance of impeachment as well as updated discussion of the president's pardon power Discussion of recent developments in the legislative and legal realms including Trump's first hundred days the Garland Gorsuch episode and abolition of the filibuster for Supreme Court appointments Preliminary assessment of Trump's place in historical time **Presidential Performance** Max J. Skidmore, 2014-06-24 Presidential rankings emerged in 1948 when Life Magazine published an article by the prominent historian Arthur M Schlesinger Sr who had selected 55 experts on the presidency and asked them to rank the presidents He

asked his respondents to rank presidents into categories of Great Near Great Average Below Average and Failure The result was a substantial article that attracted wide public attention His work and similar studies have not escaped criticism however Many general works on the presidency have discussed presidential greatness and identified presidents who stood out for good or ill There are likely unavoidable inadequacies in all ranking schemes regardless of the complicated measures that many authors employ in their attempts to be scientific This book provides useful criticism of these presidential rankings It is arranged chronologically and discusses each presidential performance and each ranking study in detail Perhaps it would be sufficient to say that most who held the office were right for their time

The Obama Presidency Andrew Dowdle, Dirk C. van Raemdonck, Robert Maranto, 2012-03-29 At his inauguration President Barack Obama was seemingly poised to become America's strongest and most influential president since Ronald Reagan However President Obama's first two years in office has led to some notable surprises What accounts for the political stability and change demonstrated by the Obama administration Which factors shaping a presidency are structural which are personal and which are driven by events How will decisions made in the first two years of the administration affect its future course What lessons can we glean from past presidencies This timely volume of notable thinkers on the presidency presents scholarly as well as applied insights on Obama's administration at the half way point Assessing the political context of his first two years the inter branch relations and policy developments all provide the necessary grounding for students to make sense of the continuity and change that Barack Obama represents

Plotting to Kill the President Mel Ayton, 2017-02 Since the birth of our nation and the election of the first president groups of organized plotters or individuals have been determined to assassinate the chief executive From the Founding Fathers to the Great Depression three presidents have been assassinated Abraham Lincoln James Garfield and William McKinley However unknown to the general public almost all presidents have been threatened put in danger or survived near lethal approaches during their terms Plotting to Kill the President reveals the numerous previously untold incidents when assassins plotters and individuals have threatened the lives of American presidents from George Washington to Herbert Hoover Mel Ayton has uncovered these episodes including an attempt to assassinate President Hayes during his inauguration ceremony an attempt to shoot Benjamin Harrison on the streets of Washington an assassination attempt on President Roosevelt at the White House and many other incidents that have never been reported or have been covered up Ayton also recounts the stories of Secret Service agents and bodyguards from each administration who put their lives in danger to protect the commander in chief Plotting to Kill the President demonstrates the unsettling truth that even while the nation sleeps those who would kill the president are often hard at work devising new schemes

Coming for to Carry Me Home J. Michael Martinez, 2011-12-22 Coming for to Carry Me Home examines the history of the politics surrounding U S race relations during the half century between the rise of the abolitionist movement in the 1830s and the dawn of the Jim Crow era in the 1880s J Michael Martinez argues that Abraham Lincoln and the Radical Republicans

in Congress were the pivotal actors albeit not the architects that influenced this evolution To understand how Lincoln and his contemporaries viewed race Martinez first explains the origins of abolitionism and the tumultuous decade of the 1830s when that generation of political leaders came of age He then follows the trail through Reconstruction Redemption and the beginnings of legal segregation in the 1880s This book addresses the central question of how and why the concept of race changed during this period

Reviewing **Reconstruction Presidents**: Unlocking the Spellbinding Force of Linguistics
