Edited with an Introd. by Robin Hallett for the Royal Geographical Society** Association for Promoting the Discovery of the Interior Parts of Africa, **A History of Africa** John Fage, with William Tordoff, 2013-10-23 A History of Africa is a thorough narrative history of the continent from its beginnings to the twenty first century Long established at the forefront of African Studies this book addresses the events of the 1990s and beyond The issues discussed include post apartheid South Africa the prospects for democratization in Africa at the beginning of the new millennium developments in Muslim North Africa including the threat of Islamic fundamentalism economic and social developments including the devastating impact of Third World debt and the provision of debt relief cultural environmental and gender issues in Modern Africa *The African Correspondence of Sir Joseph Banks, 1767-1820* Neil Chambers, 2024-06-21 This edition brings together in three fully edited volumes the correspondence and associated papers of Sir Joseph Banks regarding European and especially British exploration of Africa from 1767 1820 for the first time publishing this globally scattered material in one place thereby revolutionizing its availability and understanding of the activities of a key figure who helped organize and publish a series of missions to penetrate the African interior mainly from West Africa and by crossing the Sahara from Cairo and Tripoli Banks was a founder in 1788 of the African Association which mounted many of these missions including those of Mungo Park to explore the River Niger and J L Burckhardt exploring Syria Arabia and Egypt At the time little was known about the African interior its peoples kingdoms and resources and the aim of the African Association under Banks was to discover what lay there to make contact with and study its societies to map them and their lands and help establish trading links Banks also maintained a lively correspondence with British diplomatic representatives in North Africa such as James Mario Matra at Tangier and Henry Salt in Cairo who were a rich source of news Moreover as unofficial director of the royal gardens at Kew he sent pioneering plant collectors to gather plants in South Africa vastly boosting knowledge of this region s important flora At home he corresponded with politicians government officials entrepreneurs navigators naturalists and campaigners like William Wilberforce about a great range of issues surrounding Africa This work is multi disciplinary and will stand alongside existing series of Banks s correspondence published by Neil

Chambers Scientific Correspondence 2007 Indian and Pacific Correspondence 2007 14 It will appeal to scholars of African history in the Early Modern Period to those studying exploration and collecting as well as those interested in natural history the history of science geography cartography and the Enlightenment An Introduction detailed Calendar of Correspondents Timelines for each volume and a comprehensive Index supplement the footnotes to nearly 800 documents included in this fascinating and comprehensive new series

Americans in Egypt, 1770-1915 Cassandra Vivian, 2012-08-16 The voices of Americans have long been absent from studies of modern Egypt Most scholars assume that Americans were either not in Egypt in significant numbers during the nineteenth century or had little of importance to say This volume shows that neither was the case by introducing and relating the experiences and attitudes of 15 American personalities who worked lived or traveled in Egypt from the 1770s to the commencement of World War I Often in their own words explorers consuls tourists soldiers missionaries artists scientists and scholars offer a rare American perspective on everyday Egyptian life and provide a new perspective on many historically significant events The stories of these individuals and their sojourns not only recount the culture and history of Egypt but also convey the domination of the country by European powers and the support for Egypt by a young American nation

Voice of the Leopard Ivor L. Miller, 2010-01-06 In Voice of the Leopard African Secret Societies and Cuba Ivor L. Miller shows how African migrants and their political fraternities played a formative role in the history of Cuba During the eighteenth and nineteenth centuries no large kingdoms controlled Nigeria and Cameroon s multilingual Cross River basin Instead each settlement had its own lodge of the initiation society called kp or leopard which was the highest indigenous authority kp lodges ruled local communities while also managing regional and long distance trade Cross River Africans enslaved and forcibly brought to colonial Cuba reorganized their kp clubs covertly in Havana and Matanzas into a mutual aid society called Abaku which became foundational to Cuba s urban life and music Miller s extensive fieldwork in Cuba and West Africa documents ritual languages and practices that survived the Middle Passage and evolved into a unifying charter for transplanted slaves and their successors To gain deeper understanding of the material Miller underwent kp initiation rites in Nigeria after ten years collaboration with Abaku initiates in Cuba and the United States He argues that Cuban music art and even politics rely on complexities of these African inspired codes of conduct and leadership Voice of the Leopard is an unprecedented tracing of an African title society to its Caribbean incarnation which has deeply influenced Cuba s creative energy and popular consciousness

Materializing the Middle Passage Jane Webster, 2024-02-22 Jane Webster develops a pioneering approach to rebuilding British slaving vessels creating a new archaeology of the Middle Passage The book also examines multiple sources and accounts questioning why the African Middle Passage experience remains elusive even after decades of scholarship dedicated to uncovering it

The African-British Long Eighteenth Century Tcho Mbaimba Caulker, 2009-03-16 Tracing the development of British colonial

administration in West Africa over the course of the long eighteenth century Caulker illuminates the solidification of the administration as it goes through a learning process of power This book analyzes the documents and treaties that the indigenous peoples of eighteenth century Sierra Leone made with their future British colonizers and compares them with the writings of Adam Smith to uncover a colonial philosophy linking European economic success with the process of civilizing Africa through moral education A discussion of other archival materials demonstrates the ways that an emerging anthropological science and pseudo scientific methodology contributed to colonial ventures and exploration The book concludes with an analysis of the postcolonial novel *The Last Harmattan of Alusine Dunbar* demonstrating that the study of this long eighteenth century archive has as much to do with the present postcolonial era as it does with the period of African colonization

Blood Ground Elizabeth Elbourne, 2002 In *Blood Ground* Elizabeth Elbourne looks at the relationship between the Khoekhoe the British empire and the London Missionary Society in the early nineteenth century a time of intense conflict in which different groups competed to mobilize Christianity for their own political ends She explores the social history of the early missionary movement as well the political impact of British evangelicals arguing that religious change in southern Africa can only be understood in the material context of ethnic conflict and bitter struggles over land and labour In doing so she reintegrates the history of religion into the mainstream historical narrative of South Africa offering a view of Christianity not as a monolithic system but as a language subject to interpretation and highly politicized conflicts over meaning

Ring Shout, Wheel About Katrina Dyonne Thompson, 2014-01-30 In this ambitious project historian Katrina Thompson examines the conceptualization and staging of race through the performance sometimes coerced of black dance from the slave ship to the minstrel stage Drawing on a rich variety of sources Thompson explicates how black musical performance was used by white Europeans and Americans to justify enslavement perpetuate the existing racial hierarchy and mask the brutality of the domestic slave trade Whether on slave ships at the auction block or on plantations whites often used coerced performances to oppress and demean the enslaved As Thompson shows however blacks backstage use of musical performance often served quite a different purpose Through creolization and other means enslaved people preserved some native musical and dance traditions and invented or adopted new traditions that built community and even aided rebellion Thompson shows how these traditions evolved into nineteenth century minstrelsy and ultimately raises the question of whether today's mass media performances and depictions of African Americans are so very far removed from their troublesome roots

The Trans-Saharan Slave Trade John Wright, 2007-04-03 This compelling text sheds light on the important but understudied trans Saharan slave trade The author uncovers and surveys this the least noticed of the slave trades out of Africa which from the seventh to the twentieth centuries quietly delivered almost as many black Africans into foreign servitude as did the far busier but much briefer Atlantic and East African trades Illuminating for the first time a significant but ignored subject the book supports and widens current scholarly examination of Africans essential role in the

enslavement of fellow Africans and their delivery to internal Atlantic or trans Saharan markets

The Storied City Charlie English, 2018-05-01 Timbuktu is a real place and Charlie English will fuel your wanderlust with true descriptions of the fabled city's past, present and future. Fodor's Two tales of a city: The historical race to discover one of the world's most mythologized places and the story of how a contemporary band of archivists and librarians fighting to save its ancient manuscripts from destruction at the hands of al Qaeda added another layer to the legend. To Westerners the name Timbuktu long conjured a tantalizing paradise, an African El Dorado where even the slaves wore gold. Beginning in the late eighteenth century a series of explorers gripped by the fever for discovery tried repeatedly to reach the fabled city. But one expedition after another went disastrously awry, succumbing to attack, the climate and disease. Timbuktu was rich in another way too. A medieval center of learning it was home to tens of thousands according to some, hundreds of thousands of ancient manuscripts on subjects ranging from religion to poetry, law to history, pharmacology and astronomy. When al Qaeda-linked jihadists surged across Mali in 2012 threatening the existence of these precious documents a remarkable thing happened: a team of librarians and archivists joined forces to spirit the manuscripts into hiding. Relying on extensive research and firsthand reporting Charlie English expertly twines these two suspenseful strands into a fraught and fascinating account of one of the planet's extraordinary places and the myths from which it has become inseparable.

The Scramble for Africa M. E.

Chamberlain, 2014-01-14 In 1870 barely one tenth of Africa was under European control. By 1914 only about one tenth Abyssinia, Ethiopia and Liberia was not. This book offers a clear and concise account of the scramble or race for Africa, the period of around 20 years during which European powers carved up the continent with little or no consultation of its inhabitants. In her classic overview M. E. Chamberlain contrasts the Victorian image of Africa with what we now know of African civilisation and history. Examines in detail case histories from Egypt to Zimbabwe. Argues that the history and background of Africa are as important as European politics and diplomacy in understanding the scramble. Considers the historiography of the topic taking into account Marxist and anti-Marxist, financial, economic, political and strategic theories of European imperialism. This indispensable introduction, now in a fully updated third edition, provides the most accessible survey of the scramble for Africa currently available. The new edition includes primary source material unpublished elsewhere, new illustrations and additional pedagogical features. It is the perfect starting point for any study of this period in African history.

Majestic River Charles W. J. Withers, 2022-11-03 One of the greatest stories of world exploration ever told. By the late eighteenth century the river Niger was a 2,000-year-old two-part geographical problem. Solving it would advance European knowledge of Africa, provide a route to commercial opportunity and help eradicate the evil of slavery. Mungo Park achieved lasting fame in 1796 by solving the first part of the Niger problem: which way did the river run? Park died in 1806 in circumstances which are still uncertain: in failing to solve the second, where did the Niger end? Numerous expeditions explored the river in the decades following Park's death but not until 1830 was its final course revealed, following

in the field exploration By then however the Niger problem had been solved by armchair geographers who had never even visited Africa Majestic River celebrates Mungo Park s achievements and illuminates his rich afterlife how and why he was commemorated long after his death It is also the thrilling story of the many expeditions that sought to determine the Niger s course and the facts of Park s disappearance as well as a biography of the Niger itself as the river slowly took shape in the European imagination Shortlisted for the Saltire Society History Book of the Year Award The Slavery Reader Gad J. Heuman,James Walvin,2003 Brings together the most recent and essential writings on slavery Spanning almost five centuries the late fifteenth until the mid nineteenth the articles trace the range and impact of slavery on the modern western world
