**Tourism Geography** Stephen Williams, 2009-06-02

Tourism is an intensely geographic phenomenon. It stimulates large scale global movement of people and forges distinctive relationships between people and the places they visit. It shapes processes of physical development and resource exploitation whilst the presence of visitors exerts a range of economic, social, cultural and environmental impacts that often have important implications for local geographies. This second edition of *Tourism Geography* develops a critical understanding of how different geographies of tourism are created and maintained. Drawing on both historical and contemporary perspectives, the discussion which is in three main parts connects tourism to key geographical concepts relating to globalization, mobility, new geographies of production and consumption and post industrial change. Part one examines how spatial patterns of tourism are formed and evolve through time. Part two offers an extended discussion of how tourism relates to places that are toured, examining physical and economic development, socio cultural and environmental relations and the role of tourism planning. Part three develops a range of new material for this second edition that considers important contemporary influences upon tourism geographies including place promotion, new forms of urban tourism, heritage identity and embodied forms of tourism. Featuring international case studies and supported by up to date statistics, the text offers a concise yet comprehensive review of tourism geography and how geographers can interpret this important contemporary process. Written primarily as a student text, each chapter includes guidance for further study and summary bibliographies that form the basis for independent work.

**Social Responsibility in Tourism** Martina

Pásková, Josef Zelenka, 2024-06-24 This monograph offers a comprehensive examination of responsible tourism, meticulously deconstructing the core tenets of socio cultural, environmental and economic accountability within the framework of sustainable tourism. The work underscores the intrinsic significance of local attributes, emphasizing their pivotal role in shaping responsible practices. Guiding through the intricate terrain of challenges and opportunities inherent in integrating responsible paradigms within the dynamic tourism sector, the authors introduce a prescriptive implementation framework. This framework steers tourism stakeholders towards equilibrium, enabling present actions to safeguard and augment conditions for sustainable future development. Rooted in scholarly depth, augmented by synoptic diagrams and references to supplementary resources, the book converges into an analysis of concrete instances, illustrative case studies, products and

applications demonstrating the embodiment of social responsibility in tourism's fabric. By spotlighting both successful and adverse examples, the monograph underscores the vital interplay of environmental, economic, and socio-cultural dimensions encapsulating the essence of responsible tourism's enduring impact. Event Tourism in Asian Countries Shruti Arora, Anukrati Sharma, 2022-03-23

Events including repeat annual events have the unique ability to drive sustainable tourism to certain areas and regions and to generate economic benefits for local communities. The events industry has grown dramatically over the last several decades and there has been increased participation from governments, local communities, and the private sector. This new volume offers a wide variety of research, experience, and examples of events in Asia, including business meetings and conferences, destination weddings, carnivals, food and art festivals, music festivals, and concerts, cultural and traditional events, religious and spiritual gatherings, sports events, and others. The authors, from various parts of Asia, give illustrative examples of events tourism from their home countries, including India, Sri Lanka, Turkey, Malaysia, Uzbekistan, and Kyrgyzstan. The diverse perspectives are from stakeholders, travelers, researchers, academicians, professionals in the event and tourism industry, and the community. The chapters in the volume cover the changing trends in the event tourism industry, the influence and role of social media and other technology, the contribution of women in events and festivals, and the impact of event tourism in economic development on local communities. Addressing the issues, challenges, and future of event tourism and management, this new volume will be a valuable addition to the library of event professionals, hospitality and tourism researchers, community development managers, and others in Asia and elsewhere. **Tourism Geography** Stephen Wynn Williams, 2002-09-11

Unlike other texts, it seeks to present sports tourism as a unique area that produces its own unique issues, concerns, and controversies. The text tackles these issues from three viewpoints: participants examining the profiles, motivations, and behaviour patterns of sports tourists to create a typology of participants; policy analyses the response by policy makers to this phenomenon; and the problems of achieving integration between two sectors with

historically different cultures providers their motivations aims objectives and strategies Illustrated by international case studies in each chapter and with four extended case study chapters Sports Tourism participants policy and providers examines this area using real life experiences and concrete evidence      The Moralisation of Tourism Jim Butcher, 2005-07-08 Using a host of international examples Butcher examines what the advocates of new tourism see as being wrong with mass tourism looks critically at the claims made for the new alternatives and makes a case for guilt free holidays
