Recycled Re Seen Folk Art From The Global Scrap Heap:

Recycled Re-Seen: Folk Art from the Global Scrap Heap Charlene Cerny, Suzanne Seriff, 1996-09-01 **Recycled, Re-seen** Charlene Cerny, Suzanne Seriff, Museum of International Folk Art (N.M.), 1996 Examines the trend of folk art in which trash and recycled materials are transformed into objects of beauty and personal and social significance No Space Hidden Grey Gundaker, Judith McWillie, 2005 Focusing primarily though not exclusively on the southeastern United States the book examines works ranging from James Hampton's well known Throne of the Third Heaven of the Nations Millennium General Assembly now part of the Smithsonian collection to several elaborately decorated yards and gardens to smaller scale acts of commemoration protection and witness The authors show how the artful arrangement and adornment of everyday objects and plants express both the makers own experiences and concerns and a number of rich and sustaining cultural traditions They identify a lexicon of material signs that are frequently and consistently used in African American culture and art and then show how such elements have been used in various individual works and what they mean to the practitioners themselves BOOK JACKET **Sacred and Profane** Carol Crown, Charles Russell, 2007 A sustained critical assessment of southern folk art and self taught art and artists Global Design History Glenn Adamson, Giorgio Riello, Sarah Teasley, 2011-03-15 Globalism is often discussed using abstract terms such as networks or flows and usually in relation to recent history Global Design History moves us past this limited view of globalism broadening our sense of this key term in history and theory Individual chapters focus our attention on objects and the stories they can tell us about cultural interactions on a global scale They place these concrete things into contexts such as trade empire mediation and various forms of design practice Among the varied topics included are the global underpinnings of Renaissance material culture the trade of Indian cottons in the eighteenth century the Japanese tea ceremony as a case of import substitution German design in the context of empire handcrafted modernist furniture in Turkey Australian fashions employing ethnic motifs an experimental UK Ghanaian design partnership Chinese social networking websites the international circulation of contemporary architects Featuring work from leading design historians each chapter is paired with a response designed to expand the discussion and test the methodologies on offer An extensive bibliography and resource guide will also aid further research providing students with a user friendly model for approaches to global design Global Design History will be useful for upper level undergraduate and postgraduate students academics and researchers in design history and art history and related subjects such as anthropology craft studies and cultural geography **Waste and Want** Susan Strasser, 2024-03-26 An unprecedented look at that most commonplace act of everyday life throwing things out and how it has transformed American society Strasser reads our American history in our tea leaves and countless tons of other domestic garbage as she traces the changing meanings of waste and thrift from Colonial times to the present The Boston Globe Winner of the Abel Wolman Award of the Public Works Historical Society Susan Strasser's pathbreaking histories of housework and the rise of

the mass market have become classics in the literature of consumer culture Here she turns to an essential but neglected part of that culture the trash it produces and finds in it an unexpected wealth of meaning Before the twentieth century streets and bodies stank but trash was nearly nonexistent With goods and money scarce almost everything was reused Strasser paints a vivid picture of an America where scavenger pigs roamed the streets swill children collected kitchen garbage and itinerant peddlers traded manufactured goods for rags and bones Over the last hundred years however Americans have become hooked on convenience disposability fashion and constant technological change the rise of mass consumption has led to waste on a previously unimaginable scale Lively and colorful *Waste and Want* recaptures a hidden part of our social history vividly illustrating that what counts as trash depends on who's counting and that what we throw away defines us as much as what we keep *Waste and Want* shows to startling effect how radically both our notions of trash and our means of coping with it have altered over the years *The Washington Post* A vibrant social history of American attitudes toward superfluous or unusable material items The book spills over with fascinating facts *Publishers Weekly* **A Reader in Themed and Immersive Spaces** Scott A. Lukas, 2016 Themed spaces have at their foundation an overarching narrative symbolic complex or story that drives the overall context of their spaces Theming in some very unique ways has expanded beyond previous stereotypes and oversimplifications of culture and place to now consider new and often controversial topics themes and storylines Publisher's website **Exhibitions Today** National Endowment for the Humanities. are exclamatory signposts and store mascots For the academic folklorists who analyze them they are symbolic icons with cultural meanings that proclaim individual identity and group membership For the collectors who treasure them they are exemplars of outsider art For most non specialists who wave as they speed past they are funky delights This colorful book documents the widespread appeal of muffler men as a form of occupational art that enriches the workplace the local environment and now the art gallery *Events, Exhibitions, and Programs* National Endowment for the Humanities.
