Ecology of Blue Straggler Stars Henri M. J. Boffin, Giovanni Carraro, Giacomo Beccari, 2014-12-03 The existence of blue straggler stars which appear younger hotter and more massive than their siblings is at odds with a simple picture of stellar evolution Such stars should have exhausted their nuclear fuel and evolved long ago to become cooling white dwarfs They are found to exist in globular clusters open clusters dwarf spheroidal galaxies of the Local Group OB associations and as field stars This book summarises the many advances in observational and theoretical work dedicated to blue straggler stars Carefully edited extended contributions by well known experts in the field cover all the relevant aspects of blue straggler stars research Observations of blue straggler stars in their various environments Binary stars and formation channels Dynamics of globular clusters Interpretation of observational data and comparison with models The book also offers an

introductory chapter on stellar evolution written by the editors of the book **"Red Books" of the British Fire Prevention Committee ...** ,1899 *Seed World* ,1925 **Stellar Astrophysics for the Local Group** A. Aparicio,A. Herrero,F. Sánchez,1998-06-13 A review of the new subject of extragalactic stellar astrophysics for both graduate students and researchers working in astrophysics **Literature 1989, Part 1** Astronomisches Rechen-Institut,2013-11-11 From the reviews Astronomy and Astrophysics Abstracts has appeared in semi annual volumes since 1969 and it has already become one of the fundamental publications in the fields of astronomy astrophysics and neighbouring sciences It is the most important English language abstracting journal in the mentioned branches The abstracts are classified under more than a hundred subject categories thus permitting a quick survey of the whole extended material The AAA is a valuable and important publication for all students and scientists working in the fields of astronomy and related sciences As such it represents a necessary ingredient of any astronomical library all over the world Space Science Review Dividing the whole field plus related subjects into 108 categories each work is numbered and most are accompanied by brief abstracts Fairly comprehensive cross referencing links relevant papers to more than one category and exhaustive author and subject indices are to be found at the back making the catalogues easy to use The series appears to be so complete in its coverage and always less than a year out of date that I shall certainly have to make a little more space on those shelves for future volumes The Observatory Magazine
