Patterns in the Production of Apulian Red-Figure Pottery Edward Herring, 2018-10-01 Most of the previous scholarship on Apulian red figure pottery has focused on the cataloguing of collections the attribution of vases to painters and workshops iconographic and stylistic matters and individual vessels and vase forms This partly reflects the history of vase painting scholarship which grew out of antiquarian collecting during the eighteenth and nineteenth centuries and the fact that a full archaeological provenance is not preserved for the overwhelming majority of vessels This book takes a different approach by using a database containing in excess of 13 500 vessels and fragments to identify patterns in the production and decoration of Apulian vases that cast light on the choices made by vase producers and the preferences of their customers Individual chapters consider the popularity of different vessel shapes over time the use of highly generic decorative scenes which are characteristic of Apulian red figure as well as the popularity of scenes of myth images of the gods scenes of the life of the non Greek population of ancient Puglia and those showing funerary monuments As virtually all of the vases in the sample derive from tombs the patterns identified provide insights into the ways in which the ancient populations of South East Italy both Greek and indigenous honoured their dead **Patterns in the Production of Paestan Red-Figure Pottery** Edward

Herring, 2022-05-10 Most of the previous scholarship on Paestan red figure pottery has focused on the cataloguing of collections the attribution of vases to painters and workshops iconographic and stylistic matters and individual vessels and vase forms This partly reflects the history of vase painting scholarship which grew out of antiquarian collecting during 18th

and 19th centuries and partly the fact that a full archaeological provenance is not preserved for the majority of vessels This book uses a database containing in excess of 1 800 vessels and fragments to identify patterns in the production and decoration of Paestan vases that cast light on the choices made by vase producers and the preferences of their customers It considers the popularity of different vessel shapes over time the use of highly generic decorative scenes which are characteristic of Paestan red figure as well as the popularity of scenes of myth images of the gods and scenes of nude and half draped women Paestan red figure is compared with the vessels decorated in Applied Red produced at the same site A comparison is also made between the output of the Paestan red figure industry and that of Apulia As the majority of the vases in the sample derive from tombs the patterns identified provide insights into the ways in which the ancient populations of Paestum and South West Italy commemorated the dead

Red-figure Pottery in its Ancient Setting Bodil Bundsgaard Rasmussen, Stine Schierup, 2012-05-22 What happened when Athenian pottery reached other cultural contexts and was absorbed into indigenous communities around or outside Greece How did the various contexts influence the adaption of Athenian iconography and does the setting add to an understanding of how Athenian iconographic themes were altered or absorbed as they entered into new cultural contexts To highlight these interpretative challenges the National Museum of Denmark in 2009 stages the colloquium Red figure Pottery in its Ancient Setting and invited a group of specialists to present cases from within their areas of research which would serve to enhance our understanding of the great range of the character and value of red figure pottery and its imagery whether in local Greek a colonial Greek an Etruscan or any other indigenous community The various cases presented in these proceedings of the colloquium clearly demonstrate that this approach to the study of Greek pottery and its imagery has much to offer

Refiguring Tragedy Ioanna Karamanou, 2019-05-20 This book brings together case studies delving into different unstudied aspects of the Nachleben of selected lost tragedies either in their once extant form or in their fragmentary state in later periods of time It seeks to explore the ways in which the plays in question were reworked discussed represented or reperformed within varying frameworks Notably enough research on the reception of tragic fragments could yield insight not only into the receiving work but also into the facets of the source text that have attracted attention in its subsequent refigurations It could thus shed light on the ideological and cultural routes through which these fragmentary tragedies were received by the poet the scholar the artist the viewer the reader and the spectator in each case The complex process of the refiguration of a fragmentarily preserved play within different contexts could form a yardstick of its cultural power and elucidate the dynamics of fragmentation in modern times the volume is of particular interest to scholars in the fields of classics reception cultural and performance studies as well as to readers fascinated by Greek tragedy and its vibrant afterlife

The Red and the Black Brian A. Sparkes, 2013-10-16 The Red and the Black covers the major stages in the history of Greek pottery production both figured and plain as they are understood today It provides an up to date evaluation of ways of studying Greek pottery and

encourages new approaches There is a detailed analysis of the subject matter of figured scenes covering some of the main preoccupations of ancient Greece myth fantasy and everyday life Furthermore it sets the artefacts in the context of the societies that produced them highlighting the social art historical mythological and economic information that can be revealed from their study This volume also covers a hitherto neglected area the history of the collecting of Greek pottery through the Renaissance and up to the present day It shows how market values have gradually increased to the high prices of today and goes on to take a closer look at the enthusiasm of the collectors

Omens and Oracles Matthew Dillon, 2017-07-14 Addressing the role which divination played in ancient Greek society this volume deals with various forms of prophecy and how each was utilised and for what purpose Chapters bring together key types of divining such as from birds celestial phenomena the entrails of sacrificed animals and dreams Oracular centres delivered prophetic pronouncements to enquirers but in addition there were written collections of oracles in circulation Many books were available on how to interpret dreams the birds and entrails and divination as a religious phenomenon attracted the attention of many writers Expert diviners were at the heart of Greek prophecy whether these were Apollo's priestesses delivering prose or verse answers to questions put to them by consultants diviners known as manteis who interpreted entrails and omens the chresmologoi who sang the many oracles circulating orally or in writing or dream interpreters Divination was utilised not only to foretell the future but also to ensure that the individual or state employing divination acted in accordance with that divinely prescribed future it was employed by all and had a crucial role to play in what courses of action both states and individuals undertook Specific attention is paid in this volume not only to the ancient written evidence but to that of inscriptions and papyri with emphasis placed on the iconography of Greek divination

The

Oxford Companion to Classical Civilization Simon Hornblower, Antony Spawforth, Esther Eidinow, 2014 This Oxford Companion to the ancient classical world is aimed at the general reader interested in learning more about the very bedrock of Western culture covering such topics as history morals mythology medicine and social life Art and Crime Noah Charney, 2009-05-14 Through the use of case examples and careful examination this book presents the first interdisciplinary essay collection on the study of art crime and its effect on all aspects of the art world Contributors discuss art crime subcategories including vandalism iconoclasm forgery fraud peace time theft war looting archaeological looting smuggling submarine looting and ransom The contributors offer insightful analyses coupled with specific practical suggestions to implement in the future to prevent and address art crime This work is of critical importance to anyone involved in the art world its trade study and security Art crime has received relatively little attention from those who study art to those who prosecute crimes Indeed the general public is not well aware of the various forms of art crime and its impact on society at large to say nothing of museums history and cultural affairs And yet it involves a multi billion dollar legitimate industry with a conservatively estimated 6 billion annual criminal profit Information about and analysis of art crime is critical to the wide variety of fields involved in the art trade and art preservation from museums to academia from auction houses to galleries from insurance to art law from policing to security Since the Second World War art crime has evolved from a relatively innocuous crime into the third highest grossing annual criminal trade worldwide run primarily by organized crime syndicates and therefore funding their other enterprises from the drug and arms trades to terrorism It is no longer merely the art that is at stake *The Cambridge Companion to Greek Tragedy* P. E. Easterling, 1997-10-02 As a creative medium ancient Greek tragedy has had an extraordinarily wide influence many of the surviving plays are still part of the theatrical repertoire and texts like Agamemnon Antigone and Medea have had a profound effect on Western culture This Companion is not a conventional introductory textbook but an attempt by seven distinguished scholars to present the familiar corpus in the context of modern reading criticism and performance of Greek tragedy There are three main emphases on tragedy as an institution in the civic life of ancient Athens on a range of different critical interpretations arising from fresh readings of the texts and on changing patterns of reception adaptation and performance from antiquity to the present Each chapter can be read independently but each is linked with the others and most examples are drawn from the same selection of plays

Comic Angels and Other Approaches to Greek Drama through Vase-Paintings Oliver Taplin, 1993-01-28 This book opens up a neglected chapter in the reception of Athenian drama especially comedy and it gives stage centre to a particularly attractive and entertaining series of vase paintings which have been generally regarded as marginal curiosities These are the so called phryx vases nearly all painted in the Greek cities of South Italy in the period 400 to 360 BC Up till now they have been taken to reflect some kind of local folk theatre but Oliver Taplin prompted especially by three that have only been published in the last twelve years argues that most if not all reflect Athenian comedy of the sort represented by Aristophanes

This bold thesis opens up questions of the relation of tragedy as well as comedy to vase painting the cultural climate of the Greek cities in Italy and the extent to which Athenians were aware of drama as a potential export It also enriches appreciation of many key aspects of Aristophanic comedy its metatheatre and self reference its use of stage action and stage props its unabashed indecency and its polarised relationship even rivalry with tragedy The book has assembled thirty six photographs of vase paintings Many are printed here for the first time outside specialist publications that are not readily accessible

Couched in Death Elizabeth P. Baughan, 2013 In *Couched in Death* Elizabeth P Baughan offers the first comprehensive look at the earliest funeral couches in the ancient Mediterranean world These sixth and fifth century BCE klinai from Asia Minor were inspired by specialty luxury furnishings developed in Archaic Greece for reclining at elite symposia It was in Anatolia however in the dynastic cultures of Lydia and Phrygia and their neighbors that klinai first gained prominence not as banquet furniture but as burial receptacles For tombs wooden couches were replaced by more permanent media cut from bedrock carved from marble or limestone or even cast in bronze The rich archaeological findings of funerary klinai throughout Asia Minor raise intriguing questions about the social and symbolic meanings of this burial furniture Why did Anatolian elites want to bury their dead on replicas of Greek furniture Do the klinai found in Anatolian tombs represent Persian influence after the conquest of Anatolia as previous scholarship has suggested Bringing a diverse body of understudied and unpublished material together for the first time Baughan investigates the origins and cultural significance of kline burial and charts the stylistic development and distribution of funerary klinai throughout Anatolia She contends that funeral couch burials and banqueter representations in

funerary art helped construct hybridized Anatolian Persian identities in Achaemenid Anatolia and she reassesses the origins of the custom of the reclining banquet itself a defining feature of ancient Mediterranean civilizations Baughan explores the relationships of Anatolian funeral couches with similar traditions in Etruria and Macedonia as well as their afterlife in the modern era and her study also includes a comprehensive survey of evidence for ancient klinai in general based on analysis of more than three hundred klinai representations on Greek vases as well as archaeological and textual sources Artwashing the Past David W.J. Gill, 2024-10-01 Artwashing the Past Context Matters contributes to the wider discussion about the appropriate due diligence process that should be conducted prior to the acquisition of cultural objects The chapters were written as museums in Europe and North America were facing a series of claims on recently acquired objects in their collections in the light of the photographic dossiers that had been seized from dealers in Switzerland and Greece They engage with some of the recent debates over cultural property that include the Ka Ka Nefer mummy mask currently in the St Louis Art Museum and the Leutwitz Apollo acquired by the Cleveland Museum of Art Two of the essays reflect on the recent and controversial metal detecting finds in England the so called Crosby Garrett helmet and the Lenborough Hoard
