Red Flower Of China:

Red Flower of China Zhai Zhenhua, 2003-07 The Cultural Revolution had transformed me into a devil writes Zhai In 1966 at age 15 she led a Red Guard brigade that tortured Chinese citizens branded counterrevolutionaries She beat innocent people to death and had others exiled her squad raided homes and murdered people Now a professor of engineering in British Columbia Zhai expresses remorse and guilt rather perfunctorily and her cool confession is tinged with rationalizations She blames the flourishing of her evil barbaric side on her blind faith in Chairman Mao Her fervor gave way to bitter disillusionment when she herself was banished to the countryside in 1969 to do three years of hard labor and be re educated by peasants This is a grisly account of how political brainwashing can induce converts to commit monstrous acts **Red Flower of China** Zhai Zhenhua, 1992 When I first saw a Red Guard remove her canvas belt to beat her victim and his clothes tear and blood appear on his skin I was afraid I was not the most bloodthirsty person in the world However I was a Red Guard leader and a member of my school s Revolutionary Committee If by beating these people I could prove my valour in the class struggle I would do it Thus when that Red Guard left off I removed my belt and learned to beat like her After a few beatings I no longer needed to rehearse the rationale behind them My heart hardened and I became used to the blood I waved my belt like an automaton and whipped with an empty mind The Cultural Revolution had transformed me into a devil So writes Zhai Zhenhua in Red Flower of China a brutally honest portrait of the Cultural Revolution as told by someone who was not only a witness to this dramatic period of history but was also a participant in it Zhai Zhenhua was born in 1951 two years after the Communist Party took over China Her parents were revolutionary supporters of Chairman Mao and she was schooled in political correctness and party loyalty But 1966 brought the Cultural Revolution and fifteen year old Zhenhua was swept up by the events taking place around her She joined the Red Guard led raids on homes and cold bloodedly beat her fellow citizens Soon however the Red Guard also fell into disfavour Zhai was purged and sent to one of the most destitute regions of China to do back breaking work and be re educated before becoming one of a handful of students selected to attend university Zhai Zhenhua does not minimize her role in the excesses of the times Red Flower of China is an intensely personal account of her eventful early life and of acts which still torture her conscience **Red Flower of China** Zhai Zhenhua, 1992 The Cultural Revolution had transformed me into a devil writes Zhai In 1966 at age 15 she led a Red Guard brigade that tortured Chinese citizens branded counterrevolutionaries She beat innocent people to death and had others exiled her squad raided homes and murdered people Now a professor of engineering in British Columbia Zhai expresses remorse and guilt rather perfunctorily and her cool confession is tinged with rationalizations She blames the flourishing of her evil barbaric side on her blind faith in Chairman Mao Her fervor gave way to bitter disillusionment when she herself was banished to the countryside in 1969 to do three years of hard labor and be re educated by peasants This is a grisly account of how political brainwashing can induce converts to commit monstrous acts China During the Cultural

Mao's Last Revolution Roderick MACFARQUHAR, Michael Schoenhals, 2009-06-30 The Cultural Revolution was a watershed event in the history of the People's Republic of China the defining decade of half a century of communist rule Before 1966 China was a typical communist state with a command economy and a powerful party able to keep the population under control But during the Cultural Revolution in a move unprecedented in any communist country Mao unleashed the Red Guards against the party Tens of thousands of officials were humiliated tortured and even killed Order had to be restored by the military whose methods were often equally brutal In a masterly book Roderick MacFarquhar and Michael Schoenhals explain why Mao launched the Cultural Revolution and show his Machiavellian role in masterminding it which Chinese publications conceal In often horrifying detail they document the Hobbesian state that ensued The movement veered out of control and terror paralyzed the country Power struggles raged among Lin Biao Zhou Enlai Deng Xiaoping and Jiang Qing Mao's wife and leader of the Gang of Four while Mao often played one against the other After Mao's death in reaction to the killing and the chaos Deng Xiaoping led China into a reform era in which capitalism flourishes and the party has lost its former authority In its invaluable critical analysis of Chairman Mao and its brilliant portrait of a culture in turmoil Mao's Last Revolution offers the most authoritative and compelling account to date of this seminal event in the history of China

China's Collective Presidency Angang Hu, 2014-06-25 This book examines the historical development of China's collective presidency and identifies five key mechanisms which effectively reduce the asymmetries of knowledge and power. The mechanisms discussed are group or collective succession, collective division of responsibilities and cooperation, collective learning, collective research, and collective decision making. This work presents many facts, including historical details, showing that the collective presidency of China is a unique and prodigious innovation of the Communist Party of China (CPC) and China's socialist political system. We see how China's political system stands in contrast to the presidential system that exists in the United States, which can be described as a system of personal responsibility of the president. The author identifies characteristics of the collective presidency and introduces a framework for analysis. Chapters then explore the phases of historical development in detail and examine fundamental features in terms of their historical development, operational characteristics, and evaluation. The final chapter summarizes the political advantages of collective presidency, particularly international competitive advantages, and readers will discover that the route to success for modern China lies in collective presidency. This book will appeal to anyone who wishes to discover how China's political system works, to explore its political institutions that operate in conjunction with the CPC and the Chinese state, or to discover how a collective presidency can work successfully.

Memory, Fluid Identity, and the Politics of Remembering Li Li, 2016-06-21 The Chinese Cultural Revolution is the single most important internal social event in contemporary Chinese history. The plethora of history, literary, and artistic representations inspired by this event are critical to our understanding of the diversified, often contested interpretations of contemporary China. Li Li's critical examination of autobiographic, filmic, and fictional presentations in *Memory, Fluid Identity, and the Politics of Remembering: The Representations of the Chinese Cultural Revolution in English-speaking Countries* demonstrates that memory works not only reflect memories of those who lived through that period but memories about their past and more importantly about their identity remapping and artistic negotiation in a cross-cultural
