Repugnant Laws Keith E. Whittington, 2020-05-18 When the Supreme Court strikes down favored legislation politicians cry judicial activism When the law is one politicians oppose the court is heroically righting a wrong In our polarized moment of partisan fervor the Supreme Court's routine work of judicial review is increasingly viewed through a political lens decried by one side or the other as judicial overreach or legislating from the bench But is this really the case Keith E Whittington asks in *Repugnant Laws* a first of its kind history of judicial review A thorough examination of the record of judicial review requires first a comprehensive inventory of relevant cases To this end Whittington revises the extant catalog of cases in which the court has struck down a federal statute and adds to this for the first time a complete catalog of cases upholding laws of Congress against constitutional challenges With reference to this inventory Whittington is then able to offer a reassessment of the prevalence of judicial review an account of how the power of judicial review has evolved over time and a persuasive challenge to the idea of an antidemocratic heroic court In this analysis it becomes apparent that that the court is political and often partisan operating as a political ally to dominant political coalitions vulnerable and largely unable to sustain consistent opposition to the policy priorities of empowered political majorities and quasi independent actively exercising the power of judicial review to pursue the justices own priorities within bounds of what is politically tolerable The court *Repugnant Laws* suggests is a political institution operating in a political environment to advance controversial principles often with the aid of political leaders who sometimes encourage and generally tolerate the judicial nullification of federal laws because it serves their own interests to do so In the midst of heated battles over partisan and activist Supreme Court justices Keith Whittington's work reminds us that for better or for worse the court reflects the politics of its time
