Humanitarianism and Human Rights Michael N. Barnett, 2020-10-15 This book explores the fluctuating relationship between human rights and humanitarianism For most of their lives human rights and humanitarianism have been distant cousins Humanitarianism focused on situations in faraway places dealing with large scale loss of life that demanded urgent attention whilst human rights advanced the cause of individual liberty and equality at home However the twentieth century saw the two coming much more directly into dialogue particularly following the end of the Cold War as both began working in war zones and post conflict situations Leading scholars probe how the shifting meanings of human rights and humanitarianism converge and diverge from a variety of disciplinary perspectives ranging from philosophical inquiries that consider whether and how differences are constructed

Gill, Robin Geiß, Heike Krieger, Tim McCormack, Christophe Paulussen, Jessica Dorsey, 2015-12-22 This volume commemorates the centenary of the First World War 1914-2014 and aims to capture 100 years of warfare evolution. Among the main issues addressed are the changing nature of means and methods of warfare, the law of weaponry and challenges to humanitarian assistance and protection of the civilian population affected by armed conflict. Specific topics include the legal regime governing nuclear weapons, the prohibition of chemical weapons and arms control, the evolution of naval warfare, asymmetric conflicts, the law of occupation and cultural property. A comprehensive Year in Review also describes the most important events and legal developments that took place in 2014. *The International Legal Protection of Persons in Humanitarian Crises* Dug Cubie, 2017-04-20 The instinctual desire to support those in need, irrespective of geographic, cultural or religious links, is both facilitated and overwhelmed by the extent of information now available about the multiple humanitarian crises which occur on a daily basis around the world. Behind the images of devastating floods and earthquakes or massive forced displacements resulting from armed conflicts is the all too real suffering faced by individuals and families. From the 2004 Indian Ocean Tsunami to the on-going conflict in Syria, recent years have seen an increasing debate regarding the international legal mechanisms to protect persons in such humanitarian crises. *The International Legal Protection of Persons in Humanitarian Crises* argues that an *acquis humanitaire* is identifiable through the interconnected web of existing and emerging international, regional and national laws, policies and practices for the protection of persons caught up in humanitarian crises. Indeed, the humanitarian imperative to alleviate suffering wherever it may be found permeates various branches of international law and is reflected in the extensive humanitarian activities undertaken by States and other actors in times of armed conflict, population displacement and disaster. Dug Cubie argues that by clarifying the conceptual framework and normative content of the *acquis humanitaire*, gaps and lacunae can be identified and the overall protection of persons strengthened.
