Red Star Fighters Ground Attack:

Red Star Airacobra Evgeniy Mariinskiy, 2006 Evgeniy Mariinskiy a Soviet fighter ace and Hero of the Soviet Union shot down 20 enemy planes in aerial combat over the Eastern Front between 1943 and 1945 He frequently engaged enemy fighters and bombers shot down many but was himself shot down several times This is his extraordinary story His vivid inside view of the ruthless war in the air on the Eastern Front gives a rare insight into the reality of fighting and tactics of the Red Army Air Force In his own words and with a remarkable clarity of recall Evgeniy Mariinskiy describes what combat was like in the air face to face with a skilled deadly and increasingly desperate enemy The reader can follow his career from an unskilled novice who has just arrived at his regiment through to him becoming an ace and Hero of the Soviet Union under the leadership of experienced commanders The terrifying moments of action engagements with enemy fighters forced landings nervous strain before attacks loss of comrades and everyday life of pilots all these aspects of a Soviet fighter pilot's experience during the Great Patriotic War are brought dramatically to life in his memoirs In his memoirs Mariinskiy describes tactics which enabled him to have an upper hand in dogfights against experienced German pilots The grand strategy of the campaigns across the Eastern Front is less important here than the sequence of engagements that were the firsthand experience of the author It is this close up view of combat that makes Evgeniy Mariinskiy's reminiscences of such value Key sales points A gripping and superbly readable memoir of the war in the air over the Eastern Front 1943-45 penned by a Hero of the Soviet Union and air ace credited with 20 victories Covers the author's full aviation career including training and his initial experiences over the front as well as his increasingly successful combat with a skilled enemy Evgeniy Mariinskiy served with the 129th Guards Fighter Regiment 1943-45 undertaking 210 sorties participating in 60 air to air engagements and shooting down 20 enemy aircraft In 1945 he was awarded the Gold Star of Hero of the Soviet Union

Red Star Against The Swastika Vasily Emelianenko, 2005-12-01 This is the extraordinary story of Vasily B Emelianenko the veteran pilot of one of the Soviet Union's most contradictory planes of WWII the Il-2 This heavily armoured aircraft was practically unrivalled in terms of fire power but it was slow to manoeuvre and an easy target for fighters Il-2 had to attack enemy flak columns at extremely low altitudes which led to enormous tolls both in equipment and personnel **The Eastern Front Air War, 1941-1945** Anthony Tucker-Jones, 2020-01-31 This lavishly illustrated WWII history examines the bitter aerial combat of the Eastern Front through rare wartime photographs and informative text Though the air war was a major aspect of the Eastern Front conflict it has long been neglected by historians Anthony Tucker Jones's photographic history offers a vividly detailed introduction to the subject With more than 150 archival images most of which have never been published before this volume examines Stalin's Red Air Force and Hitler's Luftwaffe their equipment and the role they played in supporting the war on the ground Just before Hitler's invasion of the Soviet Union Stalin had decimated the leadership of the Red Air Force in a series of purges Thousands of Russian fighter aircraft were swiftly destroyed in the

German Blitzkrieg But a remarkable recovery followed as the Red Air Force turned the tide against the ravages of the Luftwaffe to wrestle back air superiority by 1944

Aces at Kursk Christopher A Lawrence, 2024-07-25 The Battle of Kursk in July 1943 is known for being the largest tank battle in history A Russian victory it marked the decisive end of the German offensive capability on the Eastern Front and set the scene for the Soviet successes that followed While many have focused on the tank engagements especially the Battle of Prokhorovka there was an intense air battle going on overhead that was bigger than the Battle of Britain As part of the German offensive the Luftwaffe's VIII Air Corps deployed around 1 100 aircraft in the south alone while the opposing Soviet Second and Seventeenth air armies initially deployed over 1 600 aircraft There was a similar effort surrounding the German attack in the north The battle in the south began with a Soviet air strike on German airfields and a fight for control of the air that continued throughout the day across the front On the first day of the battle 5 July 1943 the Germans flew at least 2 387 sorties in the south while the two Soviet air armies flew 1 688 sorties That first day of battle resulted in 19 to 27 German planes and 189 Soviet aircraft shot down This was an aerial engagement like no other ever seen before Involved on the German side were the 52nd and 3rd Fighter Wings The 52nd Fighter Wing was the most accomplished fighter wing in history and many of its top aces were involved in the combats over the Kursk battlefield These included Walter Krupinski 197 claimed kills in the war G nther Rall the third highest scoring ace in history 275 claimed kills and the highest scoring ace in history Erich Hartmann 352 claimed kills Opposing them were what were to become three of the top five Soviet aces Kirill Yevstigneyev 53 claimed kills Nikolai Gulayev 55 claimed kills and the top scoring Allied ace of the war Ivan Kozhedub 62 claimed kills This was indeed the battle of the aces But there was also the massive ground attack effort by both sides including the Junkers Ju 87 Stuka fitted with 37mm anti tank guns flown by the man who would become most decorated soldier of the Third Reich Hans Ulrich Rudel The aerial battle involved hundreds of Soviet Sturmoviks or IL 2s Stalin's armored ground attack plane The battle featured the famous attack by Luftwaffe Hs 129s and Fw 190s on Soviet armor on 8 July 1943 Aces at Kursk is not just a war story but a revealing investigation that analyses the entire air battle that turned the tide of the war on the Eastern Front

Rcaf War Prize Flights, German and Japanese Warbird Survivors Harold A. Skaarup,2006-05-23 This handbook concerns the collection of Air Technical Intelligence and the test flying of war prizes carried out by two RCAF bomber pilots who were posted to the Royal Aircraft Establishment s Foreign Aircraft Flight Farnborough in the United Kingdom in May 1945 Their primary task was to visit former Luftwaffe airfields and to find and fly back any aircraft they deemed worthy of evaluation The list of aircraft found here does not include every German combat aircraft of the Second World War as it focuses on those warbirds captured and flown by members of the RCAF or sent to Canada as war prizes Very few of these rare aircraft exist today and therefore information on known locations where German Japanese and Italian warbird survivors may be found is included As a member of the Canadian Aviation Preservation Association and the Canadian Aviation Artists Association the author strongly supports the preservation of Canada s aviation heritage The primary intent of this handbook is to provide information for aviation artists and enthusiasts looking for that unusual never before painted military aviation subject and to support the efforts of those engaged in the search for those missing warbirds for which no examples currently exist

The Defense of Moscow 1941 Jack Radey,Charles Sharp,2013-01-19 The little known story of the Battle of Kalinin on the eastern front and how it shaped the course of WWII based on archival records from both sides There was only one point in the Second World War when Nazi Germany had a chance of winning That point was October 1941 when most of the Red Army s forces before Moscow had been smashed or encircled and no reserves were available to defend the capital All that stood in Hitler s way were a handful of Soviet rifle divisions tank brigades and hastily assembled militia According to German accounts their spearheads were stopped by the mud but a close examination of German records shows this was not so Instead it is clear that it was the resistance of the Red Army and bad arrogant planning that halted the Wehrmacht This is the dramatic story that Jack Radey and Charles Sharp tell in this compelling study of a previously unknown part of the Battle of Moscow Using archival records from both sides they reveal how the Soviets inflicted a stunning defeat on a German plan to encircle six Soviet armies in the middle of October 1941

The Battle of Kursk Valeriy Zamulin,2017-07-27 In this book noted historian of the Battle of Kursk Valeriy Zamulin the author of multiple Russian language books on the Battle of Kursk and Destroying the Myth The Tank Battle at Prokhorovka Kursk July 1943 An Operational Narrative takes a fresh look at several controversial and neglected topics regarding the

battle and its run up He starts with a detailed look at the Soviet and Russian historiography on the battle showing how initially promising research was swamped by Party dogma and censorship during the Brezhnev area before being resumed with the collapse of the Soviet Union Zamulin then transitions to discussions of how the southern shoulder of the Kursk bulge was formed preparations for the battle on both sides and the size and composition of Model's Ninth Army He then examines such controversial topics as whether or not the II SS Panzer Corps was aware of the pending Soviet counterattack at Prokhorovka and the effectiveness of the Soviet preemptive barrage that struck the German troops that were poised to attack Zamulin also discusses whether or not General Vatutin the Commander in Chief of Voronezh Front erred when arranging his defenses Zamulin also takes a look at how the myth of 1 500 tanks colliding on a narrow strip of farm fields became perpetuated in Soviet and foreign history books when in fact it was impossible for the 5th Guards Tank Army's tanks to attack in massive wave after wave due to the constrictions of the terrain Zamulin also reveals incidents of the battle that were long kept behind the curtain by Soviet censorship For example the 183rd Rifle Division defending the Prokhorovka axis was repeatedly struck by friendly aircraft and a Soviet tank counterattack overran the positions of one of its battalions Zamulin discusses other cases of fratricide in the Voronezh Front including the death of one of the 1st Tank Army's foremost tank commanders in a friendly fire incident In the process he reveals that a wave of suicides swept through the junior command staff of the 5th Guards Tank Army immediately prior to the famous counteroffensive on 12 July 1943 All in all Valeriy Zamulin with this collection of essays and articles two of which have been reprinted from the Journal of Slavic Military History makes a new contribution to our knowledge and understanding of this pivotal epochal battle of the Second World War

The Luftwaffe: A History John Killen, 2013-06-12 An extensive history of the rise and fall of Nazi Germany's air force In his thoroughly researched study John Killen examines German air power between 1914 and 1945 from the early days of flying when Immelman Boelke Richtofen and other First World War aces fought and died to give Germany air supremacy to the nightmare existence of the Luftwaffe as the Third Reich plunged headlong to destruction Here are the aircraft the frail biplanes and triplanes of the Kaiser's war the great Lufthansa aircraft and airships of the turbulent Thirties the monoplanes designed to help Hitler in his

conquest of Europe Here are the generals who forged the air weapon of the Luftwaffe the swaggering Goering the playboy Udet the ebullient Kesselring and the scapegoat Jeschonnek Here too are the pilots who tried to keep faith with their Fatherland despite overwhelming odds Adolf Galland Werner Molders Joachim Marseille and Hanna Reitsch Not least are the actions fought by the Luftwaffe from the Spanish Civil War to the Battle of Britain through the bloody struggle for Crete and the siege of Stalingrad to the fearful twilight over Berlin A good readable account of the rise and fall of the Luftwaffe that covers all of the main fronts on which it fought and examines the reasons for the eventual failure as well as providing a readable narrative History of War
