China through a panoramic overview of major Chinese revolutionary events and nuanced analysis of cultural representations Examining the relationship between revolution space and culture in modern China the author takes five spatially significant revolutionary events as case studies the territorial dispute between Russia and the Qing dynasty in 1892 the Land Reform in the 1920s the Long March 1934-36 the mainland Taiwan split in 1949 and the Cultural Revolution 1966-76 and analyses how revolution constructs conceives and transforms space Using materials associated with these events including primarily literature as well as maps political treatises historiography plays film and art the book argues that in addition to redirecting the flow of Chinese history revolutionary movements operate in and on space in three main ways maintaining territorial sovereignty redefining social relations and governing an imaginary realm Arguing for reconsideration of revolution as a reorganization of space as much as time this book will appeal to students and scholars of Chinese culture society history and literature

Words and Their Stories Ban Wang, 2010-10-05 As China joins the capitalist world economy the problems of social disintegration that gave rise to the earlier revolutionary social movements are becoming pressing Instead of viewing the Chinese Revolution as an academic study these essays suggest that the motifs of the Revolution are still alive and relevant The slogan Farewell to Revolution that obscures the revolutionary language is premature In spite of dislocations and ruptures in the revolutionary language to rethink this discourse is to revisit a history in terms of sedimented layers of linguistic meanings and political aspirations Earlier meanings of revolutionary words may persist or coexist with non revolutionary rivals Recovery of the vital uses of key revolutionary words proffers critical alternatives in which contemporary capitalist myths can be contested

To Run for Life from Swastika and Red Star A. Reisfeld, 2002-10-07 When the Germans invaded Poland in September 1939 the author and his father were drafted into the Polish Army After a few days of hopeless fighting the brigade in which the author served was routed and dispersed This precipitated a headlong flight of soldiers and civilians alike anxious to escape the murderous attack of the rapidly advancing enemy armored columns and their attendant aircraft which ceaselessly bombed and strafed roads and villages For some three weeks Aaron Reisfeld and his father desperately sought to escape the Nazi onslaught by fleeing eastward to the Russian border and the perceived safety that country offered It was a harrowing ordeal covering hundreds of kilometers during which the Reisfelds endured hunger exposure bombing shelling and countless dangers on roads clogged with millions of terrified escaping refugees At the outbreak of war the author lived a comfortable life in a reasonably affluent home in the town of Lodz and was about to complete his last year of high school Little did he know it would be more than a decade before he could complete his education and obtain a degree in textile engineering from Nottingham College in England In that decade the author survived many trials by fire and mortal danger first in escaping from the Nazis then fighting the Germans in North Africa as a soldier in the British Army and finally serving in the Israeli Army in that countrys bloody war for independence While he managed to escape the fires of the Holocaust his mother sister and most members of his extended family were consumed in it along with

six million Jews and untold numbers of gentiles Running from the advancing Nazis the author and his father through sheer determination willpower to survive and luck managed to reach the Russian Zone of Occupation and its temporary safety Soon however they found they had to flee from the Russians as well when they began deporting into the Siberian hinterland capitalists professionals and the intelligentsia who were unlikely to hew to the Soviet ideology and order Fleeing the Russians the Reisfelds brought off another harrowing escape this time by crossing a raging river in the middle of a cold wintry night into Romania where they hoped to find a temporary haven Because they had crossed illegally into the country the author and his father were apprehended by the Romanian police and forced to serve a brief jail sentence before being set free and allowed to stay in that country From their base in Bucharest Reisfelds father tried to arrange for his mothers and sisters escape from Nazi occupied Poland Such arrangements were difficult to make but possible by bribing the right police and Nazi officials Reisfelds father succeeded in making those arrangements and his mother and sister were set to travel to then neutral Italy from where they could continue on to Palestine But just as they were about to depart Italy entered the war on Germanys side thus trapping them in Poland and sealing their doom The security they found in Romania did not last as both Germany and the Soviets were poised to march into Romania and partition the country between them The Reisfelds had to flee once again before they could be overtaken by their dreaded enemies They managed to book passage on one of the last passenger ships to leave Romania barely days ahead of the German occupation After a tour of eastern Mediterranean ports the Reisfelds finally landed in Haifa where they were taken in by family members already established in Palestine Yet this was hardly the end of the authors peregrinations With the war raging in North Africa and creeping closer to Palestine Aaron joined the British Armys Corp of Royal Engineers as a sapper lifting and planting mines blowing up fortifications and building and destroying bridges among ot

The Foundations of Civil War Francisco J. Romero Salvado,2016-04-29 This book analyzes the decay of Liberal politics in Spain as the regional version of the general crisis that engulfed most of Europe between 1916 and 1923 Romero enriches the important wider debate about this watershed period of European history when in the face of unprecedented mass social protest and political mobilization incumbent governing elites struggled to find a valid formula of social containment in the dawning of mass politics which also saw the spread of the radical new doctrines of Bolshevism and Fascism Above all this book examines

Spain's crisis of modernization a process marked by complex social and political realignments through which the nature of civil society was profoundly altered. It resulted in an unprecedented spiral of violence and a polarization that firstly led to an authoritarian formula of social control in 1923 and ultimately to the outbreak of civil war in 1936.

How the "Red Star" Rose Ishikawa Yoshihiro, 2022-01-30

The fact that Snow did not sneak into red China to gather information constituting the basis of his Red Star over China all alone is in many instances misunderstood even by scholars. Mao Zedong's biography has been the subject of an international mountain of commentary in China and elsewhere. Biographies praising Mao and those slandering him are all based on the American journalist Edgar Snow's 1905-1972 account in Red Star over China for the route Mao traveled from early childhood through his youth. How the Red Star Rose introduces the image of Mao and the biographical information made known to the world through the publication of Red Star and with its publication the circumstances which they fundamentally undermined. Ishikawa Yoshihiro uses Mao Zedong as raw material to examine from whence and how ordinary historical information and images which we habitually use unconsciously come into being. He desires to help readers to reconsider the historicity of the generation of not only Mao's image but of that of historical materials. With a title that evokes Gao Hua's seminal study of Mao Zedong's rise in the Chinese Communist Party, Ishikawa Yoshihiro asks two critical questions: What did the world know of Mao before the publication of Edgar Snow's Red Star over China? How did Red Star change that understanding? With the meticulous research, careful documentation, and fair-minded judgment that characterizes all of Ishikawa's work, he shows how little even Moscow and the Communist International knew about Mao before 1936. This study is full of unexpected insights into the origins of early visual images of Mao, the background to Snow's historic trip to northern Shaanxi, and the evolution of the classic study that he left. In a world where balanced judgment of the rise of Mao is increasingly difficult to find, Ishikawa's scholarship stands out as a rare model of judicious balance. Joseph W. Esherick, Emeritus Professor, Hwei-chih and Julia Hsiu Chair in Chinese Studies, University of California, San Diego. This book is first an exquisite excavation on the enabling infrastructures in the writing and publishing of one of the most iconic works in journalistic interviews in the 20th century, a text that broke through a wall of intelligence blockade to give to the world in an autobiographical voice and with a striking image the debut of the revolutionary Mao while holed up in a mountain base area. It is in addition a history of the reading of the book in multiple languages including Chinese that is indexed to the rise of the Mao cult thereafter. Ishikawa captures a moment of a past gearing up in anticipation of a future that never came. This book is a must read for all with an interest in Mao journalism and the history of books. Wen-hsin Yeh, Richard H. and Laurie C. Morrison Chair Professor in History, University of California, Berkeley. Ishikawa offers a challenging reflection on how historical information and images that we take for granted come into being through the twin case studies of images of Mao Zedong before Edgar Snow's famous biography in 1936 and then how Snow's images of Mao were translated and transmuted into Chinese, Russian, and Japanese. Joshua Fogel's careful translation brings this impeccable example of Japanese

sinology to the English reading public Timothy Cheek Professor and Louis Cha Chair in Chinese Research University of British Columbia
