Disputes Resolution in Urban Communities in Contemporary China Jieren Hu, 2020-11-06 This book explains the causes process and results of group disputes in urban communities the empirical experiences from Shanghai in China It explores the means and characteristics of as well as the differences in conflict resolution in various forms of state society relations particularly the ways of dealing with and resolving disputes concerning mass incidents involving government interests in China's current social transformation period It also analyzes how people's mediation organizations interact with the local government when managing and defusing collective disputes Combining the relevant theories and five conflict resolution measurement models created by Blake and Mouton

1964 this book explains the current interaction model and cooperation mechanism between the state and social organizations in China To do so it examines the role of the Lin Le People s Mediation Workroom in dealing with community collective disputes and the respective action strategies and constraints The book argues that the current state social relations in China are not centered on society or the state but on state led social pluralism **Resolving Public Conflict** E. Franklin Dukes,1996 Drawing on conflict resolution experience and recent democratic theory Dukes traces the philosophical roots and development of the public conflict resolution field He examines in detail how it has worked in practice in the US and other western democracies **Integrated Coastal Management Law** Cormac Cullinan,2006-01-01 Integrated coastal management ICM is widely accepted throughout the world as the best approach to dealing with coastal issues The 1990s saw a proliferation of legislative reform processes worldwide This aimed at supporting the implementation of ICM Despite many international environmental treaties declarations and other promises of action the quality of coastal environments continues to deteriorate while the demand for coastal resources has increased in most of the world This publication in its practical guidance will be especially valuable to anyone involved in the development drafting or implementation of a legal or institutional framework to promote ICM It is enhanced by illustrative examples from a range of countries that are at various stages of developing and implementing legislation to promote ICM **Collaborative Planning for Wetlands and Wildlife** Douglas R. Porter,David Salvesen,2013-03-19 Collaborative Planning for Wetlands and Wildlife presents numerous case studies that demonstrate how different communities have creatively reconciled problems between developers and environmentalists It answers questions asked by regulators environmentalists and developers who seek practical alternatives to the existing case by case permitting process and offers valuable lessons from past and ongoing areawide planning efforts

Transport Geopolitics Luc Ampleman,2021-09-27 This book provides readers with fresh new theoretical tools to better understand how sociopolitical actors from governmental institutions to ecological NGOs from local residents to multinational companies clash about transport initiatives It questions both the dominant understanding of what is geopolitics and conventional conceptions in transport geography used by transport planners Drawing on a structuralist approach and addressing the capital notion of political control of mobility it demonstrates how transport geopolitics by being more inclusive of all modes of transport and all scales of analysis may help prepare transport diplomacy in a time of critical global and local turbulences It offers a valuable resource for research and teaching in the fields of transport studies land use planning conflict studies human geography and politics presenting insightful theoretical material and concrete transport conflict examples to support teaching about territorial conflicts political governance and transport political geography
