Managing Monsters Six Myths Of Our Time The 1994 Reith Lectures:

Managing Monsters Marina Warner, 1994 Marina Warner's 1994 Reith Lectures in which she offered a definition of myth and its many contemporary faces exploring the monster children mothers strangers and the idea of home **Six Myths of Our Time** Marina Warner, 1995-01-31 Is Jurassic Park a work of covert misogynist propaganda Does romanticizing childhood lead to abusing children What secret correspondence links Mary Shelley's Frankenstein to video games and Shakespeare's Caliban to Hannibal Lecter in what ways do our culture's most hallowed legends inform the current debates over single mothers the men's movement and animal rights In these six dazzlingly intelligent and provocative essays the distinguished English novelist and critic Marina Warner weaves classical mythology pop culture and today's headlines into a potent work of cultural criticism that is both unsettling and entertaining Ranging from Medea to Thelma and Louise and from myths of cannibalism to the politics of rape Six Myths of Our Time is at once a celebration of the enduring power of fable and a welcome antidote to its more virulent manifestations in our public life **Childhood in the Contemporary English**

Novel Sandra Dinter, 2019-10-10 Since the 1980s novels about childhood for adults have been a booming genre within the contemporary British literary market Childhood in the Contemporary English Novel offers the first comprehensive study of this literary trend Assembling analyses of key works by Ian McEwan Doris Lessing P D James Nick Hornby Sarah Moss and Stephen Kelman and situating them in their cultural and political contexts Sandra Dinter uncovers both the reasons for the current popularity of such fiction and the theoretical shift that distinguishes it from earlier literary epochs The book's central argument is that the contemporary English novel draws on the constructivist paradigm shift that revolutionised the academic study of childhood several decades ago Contemporary works of fiction Dinter argues depart from the notion of childhood as a naturally given phase of life and examine the agent's interests and conflicts involved in its cultural production Dinter also considers the limits of this new theoretical impetus observing that authors and scholars alike even when they claim to conceive of childhood as a construct do not always give up on the idea of its natural core Accordingly this book reconstructs how the English novel between the 1980s and the 2010s oscillates between an acknowledgment of constructivism and an endorsement of childhood as the last irrevocable quintessence of humanity In doing so it successfully extends the literary and cultural history of childhood to the immediate present **Exploring Urban Youth Culture Outside of the Gang**

Paradigm Jade Levell, Tara Young, Rod Earle, 2025-03-18 On road is a complex term used by young people to describe street-based subculture and a general way of being Featuring the voices of young people this collection explores how race class and gender dynamics shape this aspect of youth culture With young people on road often becoming criminalised due to interlocking structural inequalities this book looks beyond concerns about gangs and presents empirical research from scholars and activists who work with and study the social lives of young people It addresses the concerns of practitioners policy makers and scholars by analysing aspects and misinterpretations of the shifting realities of young people's urban life

Girls, Boys, Books, Toys Beverly Lyon Clark, Margaret R. Higonnet, 2000-10-24 No previous collection of criticism has focused on gender in the broad range of children's literature No previous collection has embraced both children's literature and material culture Beverly Lyon Clark and Margaret R Higonnet bring together twenty two scholars to look closely at the complexities of children's culture *Girls Boys Books Toys* asks questions about how the gender symbolism of children's culture is constructed and resisted What happens when women rewrite or illustrate nursery rhymes adventure stories and fairy tales told by men How do the socially scripted plots for boys and girls change through time and across cultures Have critics been blind to what women write about masculine topics Can animal tales or doll stories displace tired commonplaces about gender race and class Can different critical approaches new historicism narratology or postcolonialism enable us to gain leverage on the different implications of gender age race and class in our readings of children's books and children's culture *Science Fiction and Organization* Matthew Higgins, Geoff Lightfoot, Martin Parker, Warren Smith, 2003-08-29 This international collection explores how science fiction can enrich studies of organization The papers assembled draw upon perspectives from across the arts and social sciences **Beyond Borders** Paula S. Rothenberg, 2006 This interdisciplinary collection of 82 articles is designed to bring today's most pressing issues into the classroom and help prepare college students to assume their roles as members of an increasingly global community **Environment** Bruce Braun, 2017-10-24 Spanning cultural and political ecology the political economy of the environment humanistic landscape interpretation cultural studies of nature and science and technology studies this volume is the definitive guide to environmental studies in Human Geography over the past 30 years The articles collected capture conceptual developments in the field for audiences within and beyond Geography and illustrate the diversity and remarkable vitality of geographical research on society environment relations **From Nursery Rhymes to Nationhood** Elizabeth Galway, 2010-12-22 As Canada came to terms with its role as an independent nation following Confederation in 1867 there was a call for a literary voice to express the needs and desires of a new country Children's literature was one of the means through which this new voice found expression Seen as a tool for both entertaining and educating children this material is often overtly propagandistic and nationalistic and addresses some of the key political economic and social concerns of Canada as it struggled to maintain national unity during this time *From Nursery Rhymes to Nationhood* studies a large variety of children's literature written in English between 1867 and 1911 revealing a distinct interest in questions of national unity and identity among children's writers of the day and exploring the influence of American and British authors on the shaping of Canadian identity The visions of Canada expressed in this material are often in competition with one another but together they illuminate the country's attempts to define itself and its relation to the world outside its borders **Soccer, Women, Sexual Liberation** Fan Hong, J.A. Mangan, 2004-11-23 This is the first in depth global study of women's football across the world This collection considers women's football in fifteen countries worldwide in a global context and analyzes its progress challenges and problems it has faced It shows how women's football

has made a significant contribution to the emancipation of women's football in many countries. It also traces the evolution of women's football in face of resistance, rejection and prejudice and describes women footballers' struggle for equal rights in a male-dominated football world.
