Managing To Care Case Management And Service System Reform:

Managing to Care Ann Dill, 2017-09-04 The point of departure for *Managing to Care* is widespread concern that the present delivery of health and social welfare services is fragmented uncoordinated inefficient costly wasteful and ultimately detrimental to clients health and wellbeing Dill traces the evolution of case management from its start as a tool for integrating services on the level of the individual client to its current role as a force behind the most significant trends in health care Those trends include the entrenchment of bureaucracy the challenges of once dominant professions and the rise of corporate control The author's purpose in adopting this analysis is to invite further scrutiny of the case management profession and at the same time to identify new possibilities for its application This volume brings together thoughts developed over many years of observing and participating in case management programs It provides a multilayered perspective of case management showing linkages among its social and historical contexts and the ways it is practiced today in diverse service settings The author emerged convinced about the essential need for care coordination and that present ways of providing care can work against our highest objectives in doing so The paradoxes and contraindications embedded in case management practice became a major theme of the book *Managing to Care* is highly critical of the ways case management has come to absorb and reflect the organizational flaws of the very service systems it was intended to reform Too often management of the case comes to dominate care The author does not call for a rejection of professional systems in favor of a resurrected informal community While much can and should be done to strengthen our ties to one another there will always be people whose problems require more expert help Dill argues here that case management can provide such help and provide it well but only if it is grounded in the human dimension of a caring relation

Managing to Care Ann E. P. Dill, 2001 The point of departure for *Managing to Care* is widespread concern that the present delivery of health and social welfare services is fragmented uncoordinated inefficient costly wasteful and ultimately detrimental to clients health and wellbeing Dill traces the evolution of case management from its start as a tool for integrating services on the level of the individual client to its current role as a force behind the most significant trends in health care Those trends include the entrenchment of bureaucracy the challenges of once dominant professions and the rise of corporate control The author's purpose in adopting this analysis is to invite further scrutiny of the case management profession and at the same time to identify new possibilities for its application This volume brings together thoughts developed over many years of observing and participating in case management programs It provides a multilayered perspective of case management showing linkages among its social and historical contexts and the ways it is practiced today in diverse service settings The author emerged convinced about the essential need for care coordination and that present ways of providing care can work against our highest objectives in doing so The paradoxes and contraindications embedded in case management practice became a major theme of the book *Managing to Care* is highly critical of the ways case management has come to absorb and reflect the

organizational flaws of the very service systems it was intended to reform Too often management of the case comes to dominate care The author does not call for a rejection of professional systems in favor of a resurrected informal community While much can and should be done to strengthen our ties to one another there will always be people whose problems require more expert help Dill argues here that case management can provide such help and provide it well but only if it is grounded in the human dimension of a caring relationship Ann E P Dill associate professor of sociology and gender studies at Brown University is a medical sociologist and social gerontologist Her research examines issues affecting the long term provision of health care and social services both in the United States and in countries formerly part of Yugoslavia

The Practice of Case Management Peter Camilleri, 2020-07-16 Case management is used across a diverse range of organisational settings from child protection to aged care disability services acute and community health courts and correctional services employment services veteran services education and immigration programs However case management is not always successfully implemented and practitioners often feel they are not given sufficient support The Practice of Case Management draws on extensive practice research to identify the key characteristics of successful case management organisational support developing delivery models to suit individual client needs preparation of staff at all levels and affirmation of the central and active role of the client The authors outline the challenges and complexities faced by case managers acknowledging that their role is often poorly conceptualised and articulated They demonstrate that true engagement enables effective service provision and offer practical strategies for everyone involved in the case management process to facilitate negotiation accountability and the achievement of positive outcomes

The Oxford Handbook of Inter-organizational Relations Steve Cropper, 2008 Inter organizational relations IOR the study of Strategic Alliances Joint Ventures Partnerships Networks and other forms of relationship between organizations is a field of study that has burgeoned over the last four decades but is fragmented drawing contributions from a wide variety of disciplines theoretical bases and sectoral interests The Oxford Handbook of Inter Organizational Relations provides a structured overview of the field With contributions from leading international experts on their particular areas of expertise it is an authoritative introduction to its research findings The material is organized in three main sections The first relates to research that focuses on particular manifestations of IORs such as industry supply policy and project networks public and voluntary sector partnerships strategic alliances and so on The second section relates to research that stems from distinct disciplinary or theoretical bases including institutional theory social networks evolutionary theory transaction cost economics management process psychology critical theory political theory economic geography and the legal perspective The third section focuses on key topics in contemporary IOR topics or those that will become so in the future These include trust power development interventions social capital learning and knowledge dynamics and change and evaluation
