Managing Economic Development In Asia:

Managing Economic Development in Asia Kuotsai Liou, 2002-03-30 From 1965 to 1990 the 23 East Asian economies grew faster than all other regions of the world. The high performing economies of Japan, South Korea, Taiwan, Hong Kong, Singapore, Thailand, Malaysia, and Indonesia experienced low and declining levels of income inequality as well. The June 1997 financial crisis has challenged these economies. Many of the high performing economies have experienced serious problems including falls in currency and equity markets, significant slowdowns in international trade, and setbacks in economic growth. Emphasizing the role of government and the importance of managing development, this book provides an overview of the major impact of the financial crisis on selected Asian countries and of the development policies implemented. Examining the experience of managing economic development, the book includes contributed chapters on China, Hong Kong, Indonesia, Japan, Korea, Malaysia, Taiwan, Thailand, Singapore, and Southeast Asia. It will be a useful resource for scholars, students, and those researching Asian economic development.

Managing Economic Crisis in East Asia Saw Swee-Hock, John Wong, 2010 This book incorporates a selection of eight revised papers presented to the Conference on Managing Economic Crisis in East Asia organized jointly by the Saw Centre for Financial Studies, NUS Business School, and the East Asian Institute, National University of Singapore, in November 2009. The chapters present a detailed analysis of the impact of the 2008-09 economic crisis in China, Hong Kong, Taiwan, Korea, and Japan, and the stimulus packages that were swiftly put in place by the governments to mitigate the economic recession and to pave the way for a quick recovery. The success of the monetary and fiscal policy measures in engendering a strong economic recovery in these countries is also discussed in considerable depth. The book, with contributions from experts on the topics covered, will be extremely valuable to businessmen, analysts, academics, students, policy makers, and the general public interested in seeking a greater understanding of the global economic crisis.

Managing Economic Crisis in Southeast Asia Saw Swee-Hock, 2011 This book incorporates a selection of eight revised papers presented at the Conference on Managing Economic Crisis in Southeast Asia organized jointly by the Saw Centre for Financial Studies, NUS Business School, and the Institute of Southeast Asian Studies in January 2010. The chapters deal with the management of the 2008-09 economic crisis in Singapore, Malaysia, Thailand, Vietnam, the Philippines, Indonesia, and the region as a whole. They represent an analysis of the impact of the economic crisis and the stimulus packages that were swiftly put in place by the governments to mitigate the economic recession and to pave the way for a quick recovery. The success of the monetary and fiscal policy measures in engendering a strong economic recovery in these countries is also discussed in considerable depth. The book, with contributions from experts on the topics covered, will be extremely valuable to businessmen, analysts, academics, students, policy makers, and the general public interested in seeking a greater understanding of the sub-prime crisis that led to the global economic recession.
