Intellectual Property Management for Start-ups Martin A. Bader, Sevim Süzeroğlu-Melchior, 2023-02-16. This book examines intellectual property (IP) as an important value driver for start-ups. Businesses of all sizes are inevitably confronted with intellectual property issues at some point, but start-ups and their collaborators face unique challenges and opportunities in IP management. Identifying, generating, and exploiting intellectual property can lead to sustainable competitive advantages and avoidance of risks. Many start-ups sense the complexity of IP management and therefore place their energy elsewhere. However, the clear conclusion to be drawn from this unique collection of contributions is that putting an IP management strategy in place is critical to the successful development of a business. Prof. Dr. Martin A. Bader and Prof. Dr. Sevim Süzeroğlu-Melchior have years of experience as consultants, entrepreneurs, business owners, and researchers where they saw firsthand the need for a comprehensive yet practical resource for start-ups and their key stakeholders. This book explores different perspectives in dealing with IP from six different angles: the start-up's view, the investor's view, the corporation's view, the university's view, the global IP office's view, and the advisor's view. Each section consists of chapters written by leading experts from around the globe, including Silicon Valley, Canada, Israel, Switzerland, Germany, Finland, France, Australia, Brazil, India, Japan, Singapore, and South Africa. Contributors bring practical experience from a wide range of sectors, such as information and communication technology, software, artificial intelligence, machine learning, cybersecurity, industrial automation, internet of things, life sciences, pharma, crop science, biotech, medtech, mining, sustainability, climate tech, and even quantum technologies. This timely publication serves as a guidebook for entrepreneurs and other key stakeholders in the start-up ecosystem. It empowers founders to develop their own IP management strategy to mitigate risk, create and capture value, and lay the groundwork for sustainable growth. An essential reference for start-ups to achieve business excellence. This edited book volume offers valuable insights, bringing together perspectives of key stakeholder groups from a wide variety of innovation ecosystems, an invaluable resource. Carsten Fink, Chief Economist, World Intellectual Property Organization, Geneva. A timely book for those wanting a clear overview of the issues the different players encounter in the start-up ecosystem. A useful resource, indeed. Congratulations to the editors and team. Audrey Yap, Managing Partner, YUSARN AUDREY LLC. Past President, LESI, Chairman, Singapore Innovation Productivity Institute, Singapore. A must-read for all innovators in the start-up world. It is truly a fantastic book, and one I would recommend being bought and read in full.
