The Triumph of Modernism Hilton Kramer, 2013-12-09 Widely acknowledged as the most authoritative art critic of his generation Hilton Kramer advanced his comments and judgments largely in the form of essays and short pieces Thus this first collection of his work to appear in twenty years is a signal event for the art world and for criticism generally The Triumph of Modernism not only traces the vicissitudes of the art scene but diagnoses the state of modernism and its vital legacy in the postmodern world Mr Kramer bracingly updates his incisive critique of the artists critics institutions and movements that have formed the basis for modern art Appearing for the first time in greatly expanded form is his consideration of the foundations of modern abstract painting and the future of abstraction The aesthetic intelligence that Mr Kramer brings to bear on certain tired assumptions about modernism many of them derived from methodologies and politics that have little to do with art helps rescue the artwork itself and its appreciation from the very institutions such as the art museum and the academy that purport to foster it Always clear eyed and vastly illuminating Hilton Kramer's art criticism remains among the very finest written in the past hundred years Readers of The Triumph of Modernism will be treated to an exhilarating experience

Manet and the French Impressionists Théodore Duret, 1910 Édouard Manet and artworks Natalia Brodskaya, 2023-11-16 Manet is one of the most famous artists from the second half of the nineteenth century linked to the impressionists although he was not really one of them He had great influence on French painting partly because of the choice he made for his subjects from everyday life the use of pure colours and his fast and free technique He made in his own work the transition between Courbet's Realism and the work of the impressionists Born a high bourgeois he chose to become a painter after failing the entry to the Marine School He studied with Thomas Couture an Academic painter but it was thanks to the numerous travels he made around Europe from 1852 that he started to find out what would become his own style His first paintings were mostly portraits and genre scenes inspired by his love for Spanish masters like Velázquez and Goya In 1863 he presented his masterpiece Luncheon on the Grass at the Salon des Refusés His work started a fight between the defenders of Academic art and the young refusés artists Manet became the leader of this new generation of artists From 1864 the official Salon accepted his paintings still provoking loud protests over works such as Olympia in 1865 In 1866 the writer Zola wrote an article defending Manet's work At that time Manet was friends with all the future great impressionist masters Edgar Degas Claude Monet Auguste Renoir Alfred Sisley Camille Pissarro and Paul Cézanne and he influenced their work even though he cannot strictly be counted as one of them In 1874 indeed he refused to present his paintings in the First Impressionist Exhibition His last appearance in the official Salon was in 1882 with A Bar at the Folies Bergères one of his most famous works Suffering from gangrene during the year 1883 he painted flower still lifes until he became too weak to work He died leaving behind a great number of drawings and paintings

Théodore Duret, 1912 **Impressionism and Post-Impressionism** Nathalia Brodskaja, 2018-03-13 Impressionism is the most famous artistic movement But what appears today as a charming and exquisite landscape painting was actually one of the first avant garde movements whose members had decided to fight the values of traditional art The impressionist outdoor paintings shocked the public by the technique used but also by their apparent banality As Monet Sisley Pissarro and many others sought to capture the ephemeral nature of light the next generation would reject naturalism Indeed post impressionists such as Gauguin Van Gogh C zanne and Seurat favored the subjective rather than the objective and the eternal rather than the concrete In doing so they laid the formal foundations of 20th century modern art This book is a visual guide through the crucial moments in the history of art and the progression of the 19th century to modernity
