Manifest Destinies Americanizing Immigrants And Internationalizing Americans:

Manifest Destinies David W. Haines, Carol Mortland, 2000-10-30 At the turn of the century America is both retrenching and expanding becoming more restrictive and more expansive more utilitarian and more value and religion oriented As was true a century ago the flow of these changes is very much a story of immigrants their lives in America and the changing lives of those they join This book examines the interaction of immigrants and the native born in nine widely varying locales including Richmond VA St Louis West Palm Beach FL Tacoma WA Garden City KS Dallas Phoenix San Francisco and New York City The volume considers a broad range of immigrants from well educated and economically successful Chinese and Indians to legally recognized refugees who often have more difficulty accommodating to U S society to illegal immigrants who are being Americanized to a shadow world of limited opportunity and limited protection Through insight into the interactions between immigrants and native born at the local level the authors collectively sketch an America that is changing but also re creating its past

The Peoples Of Las Vegas Jerry L Simich, Thomas C. Wright, 2005-03-07 Beneath the glitzy surface of the resorts and the seemingly cookie cutter suburban sprawl of Las Vegas lies a vibrant and diverse ethnic life People of varied origins make up the population of nearly two million and yet until now little mention of the city has been made in studies and discussion of ethnicity or immigration The Peoples of Las Vegas One City Many Faces fills this void by presenting the work of seventeen scholars of history political science sociology anthropology law urban studies cultural studies literature social work and ethnic studies to provide profiles of thirteen of the city s many ethnic groups The book s introduction and opening chapters explore the historical and demographic context of these groups as well as analyze the economic and social conditions that make Las Vegas so attractive to recent immigrants Each group is the subject of the subsequent chapters outlining migration motivations and processes economic pursuits cultural institutions and means of transmitting culture involvement in the broader community ties to homelands and recent demographic trends

Louis Armstrong, Duke Ellington, and Miles Davis Aaron Lefkovitz, 2018-06-20 This book examines Louis Armstrong Duke Ellington and Miles Davis as distinctively global symbols of threatening and nonthreatening black masculinity It centers them in debates over U S cultural exceptionalism noting how they have been part of the definition of jazz as a jingoistic and exclusively American form of popular culture

The New Americans Mary C. Waters, Reed Ueda, Helen B. Marrow, 2007-01-30 The U S has always been a nation of immigrants shaped by successive waves of new arrivals This comprehensive guide provides an authoritative account of the most recent surge of immigrants Based on the latest U S Census data and scholarly research this book is an essential reference for anyone curious about the changing face of America

The Chinese in Silicon Valley Bernard P. Wong, 2006 Bernard Wong examines the complex role of Chinese American scientists and engineers in their ever increasing role in Silicon Valley where those who settle there must learn how to prosper despite a changing cultural identity changes in family life and new citizenship

More Peoples of Las Vegas Jerry L

Simich, Thomas C. Wright, 2010-03-15 The remarkable economic growth of Las Vegas between 1980 and 2007 created a population boom and a major increase in the ethnic and religious diversity of the city Today over 21 percent of the city's population is foreign born and over 30 percent speak a language other than English at home The local court system offers interpreters in 82 languages and in 2005 2006 for example more than 11 000 people originating from 138 countries were naturalized there as American citizens More Peoples of Las Vegas extends the survey of this city's cosmopolitan population begun in The Peoples of Las Vegas University of Nevada Press 2005 As in the previous book this volume includes well established groups like the Irish and Germans and recently arrived groups like the Ethiopians and Guatemalans Essays describe the history of each group in Las Vegas and the roles they play in the life and economy of the city The essays also explore the influence of modern telecommunications and accessible air travel showing how these factors allow newcomers to create transnational identities and maintain ties with families and culture back home They also examine the role of local institutions including clubs religious organizations shops restaurants and newspapers and other media in helping immigrants maintain their ethnic and religious identities and in disseminating national and even regional cultures of origin More Peoples of Las Vegas adds to our awareness of the rich and varied ethnic and religious character of Las Vegas In a broader context it offers thoughtful perspectives on the impact of globalization on a major American city and on the realities of immigrant life in the twenty first century

Running Out Lucas Bessire, 2022-10-04 Finalist for the National Book Award An intimate reckoning with aquifer depletion in America's heartland The Ogallala aquifer has nourished life on the American Great Plains for millennia But less than a century of unsustainable irrigation farming has taxed much of the aquifer beyond repair The imminent depletion of the Ogallala and other aquifers around the world is a defining planetary crisis of our times Running Out offers a uniquely personal account of aquifer depletion and the deeper layers through which it gains meaning and force Anthropologist Lucas Bessire journeyed back to western Kansas where five generations of his family lived

as irrigation farmers and ranchers to try to make sense of this vital resource and its loss His search for water across the drying High Plains brings the reader face to face with the stark realities of industrial agriculture eroding democratic norms and surreal interpretations of a looming disaster Yet the destination is far from predictable as the book seeks to move beyond the words and genres through which destruction is often known Instead this journey into the morass of eradication offers a series of unexpected discoveries about what it means to inherit the troubled legacies of the past and how we can take responsibility for a more inclusive sustainable future An urgent and unsettling meditation on environmental change *Running Out* is a revelatory account of family complicity loss and what it means to find your way back home

Survivors Sucheng Chan, 2004-05-05 In this clear comprehensive and unflinching study Sucheng Chan invites us to follow the saga of Cambodian refugees striving to distance themselves from a series of cataclysmic events in their homeland *Survivors* tracks not only the Cambodians fight for life lives but also their battle for self definition in new American surroundings Unparalleled in scope *Survivors* begins with the Cambodians experiences under the brutal Khmer Rouge regime following them through escape to refugee camps in Thailand and finally to the United States where they try to build new lives in the wake of massive trauma Their struggle becomes primarily economic as they continue to negotiate new cultures and deal with rapidly changing gender and intergenerational relations within their own families Poverty crime and racial discrimination all have an impact on their experiences in America and each is examined in depth Although written as a history this is a thoroughly multidisciplinary study and Chan makes use of research from anthropology sociology psychology medicine social work linguistics and education She also captures the perspective of individual Cambodians Drawing on interviews with more than fifty community leaders a hundred government officials and staff members in volunteer agencies *Survivors* synthesizes the literature on Cambodian refugees many of whom come from varying socioeconomic backgrounds A major scholarly achievement *Survivors* is unique in the Asian American canon for its memorable presentation of cutting edge research and its interpretation of both sides of the immigration process
