BOOK JACKET The U.S. Struggle for Global Hegemony Georg von Goldbach,2024-08-15

CONTENT OF THE BOOK This book will encourage readers to let go of illusions and say goodbye to deceptions The main illusion and deception we often indulge in on a global scale is to believe that much of what happens on a global political and economic level is due to chance We often think that many of the armed conflicts and events in which the U S is involved or engaged are to its detriment and harm it This may be the case in the long term In the short and medium term however the United States with all the wars and conflicts it has initiated and waged globally since centuries has always pursued its economic and geopolitical interests in a very targeted manner and has obviously achieved them to a considerable extent This can be seen in its globally dominant role over the past century It s like in a casino where they use to say that the bank always wins This short book shows why this is the case and how the mechanisms that have ensured the dominant role of the USA are functioning effectively
