

Manifest Destiny in the 1840s

Manifest Destiny And The Coming Of The Civil War 18401860

Charles B. Dew

Manifest Destiny And The Coming Of The Civil War 1840-1860:

Manifest Destiny and the Coming of the Civil War, 1840-1860 Don E. Fehrenbach, 1970-01 Lists selected published and microfilmed works including articles and dissertations pertaining to westward expansion government and politics the economy society art and thought and the sectional conflict between 1840 and 1861 Apostles of Disunion Charles B. Dew, 2002-03-18 In late 1860 and early 1861 state appointed commissioners traveled the length and breadth of the slave South carrying a fervent message in pursuit of a clear goal to persuade the political leadership and the citizenry of the uncommitted slave states to join in the effort to destroy the Union and forge a new Southern nation Directly refuting the neo Confederate contention that slavery was neither the reason for secession nor the catalyst for the resulting onset of hostilities in 1861 Charles B Dew finds in the commissioners brutally candid rhetoric a stark white supremacist ideology that proves the contrary The commissioners included in their speeches a constitutional justification for secession to be sure and they pointed to a number of political outrages committed by the North in the decades prior to Lincoln s election But the core of their argument the reason the right of secession had to be invoked and invoked immediately did not turn on matters of constitutional interpretation or political principle Over and over again the commissioners returned to the same point that Lincoln s election signaled an unequivocal commitment on the part of the North to destroy slavery and that emancipation would plunge the South into a racial nightmare Dew s discovery and study of the highly illuminating public letters and speeches of these apostles of disunion often relatively obscure men sent out to convert the unconverted to the secessionist cause have led him to suggest that the arguments the commissioners presented provide us with the best evidence we have of the motives behind the secession of the lower South in 1860-61 Addressing topics still hotly debated among historians and the public at large more than a century after the Civil War Dew challenges many current perceptions of the causes of the conflict He offers a compelling and clearly substantiated argument that slavery and race were absolutely critical factors in the outbreak of war indeed that they were at the heart of our great national crisis *The Birth of the Grand Old Party* Robert F. Engs, Randall M. Miller, 2011-12-30 The period from 1850 to 1876 was the most transformative era in American history During the course of this tumultuous quarter century Americans fought a bloody civil war tried to settle the issue of state versus central government power recognized the dominance of the new industrial economy over the older agricultural one and ended slavery long the shame of the nation At the same time a major political realignment occurred with the collapse of the second American party system and the emergence of a new party the Republicans But the defeat of slavery the chief catalyst for the birth of the Republican party was at best a limited success The Constitution had been rewritten to abolish slavery and guarantee equal protection under the law but social equality for African Americans and expanding freedom for others remained elusive throughout the nation For these triumphs and enduring tragedy the Republican party which became in time and memory the party of Abraham Lincoln bore primary responsibility This collection of six original essays by some of

America's most distinguished historians of the Civil War era examines the origins and evolution of the Republican party over the course of its first generation. The essays consider the party in terms of its identity, interests, ideology, images, and individuals, always with an eye to the ways the Republican party influenced mid-nineteenth century concerns over national character, political power, race, and civil rights. The authors collectively extend their inquiries from the 1850s through the 1870s to understand the processes whereby the second American party system broke down, a new party and politics emerged, the Civil War came, and a new political and social order developed. They especially consider how ideas about freedom in the 1850s coalesced during war and Reconstruction to produce both an expanded call for political and civil rights for the ex-slaves and a concern over expanded federal involvement in the protection of those rights. By observing the transformation of a sectional party born in the 1850s into the Grand Old Party by the 1870s, the authors demonstrate that no modern political party, even the one that claims descent from Lincoln, has surpassed the accomplishments of the first generation of Republicans.

Contributors: Jean H. Baker, Professor of History at Goucher College, Maryland, is author of *Mary Todd Lincoln: A Biography*; Eric Foner, DeWitt Clinton Professor of History at Columbia University, is author of *Reconstruction: America's Unfinished Revolution, 1863-1877*, winner of the Bancroft Prize; Michael F. Holt, Langbourne M. Williams Professor of American History at the University of Virginia, is author of *The Rise and Fall of the American Whig Party: Jacksonian Politics and the Onset of the Civil War*; James M. McPherson, Professor of History at Princeton University, is author of *Battle Cry of Freedom: The Civil War Era*, winner of the Pulitzer Prize in history; Mark E. Neely Jr., McCabe Greer Professor in the American Civil War Era at Pennsylvania State University, is author of *The Fate of Liberty: Abraham Lincoln and Civil Liberties*, winner of the Pulitzer Prize in history; Phillip Shaw Paludan, Naomi Lynn Professor of Lincoln Studies at the University of Illinois at Springfield, is author of *The Presidency of Abraham Lincoln*, winner of the Lincoln Prize; Brooks D. Simpson, Professor of History at Arizona State University, is author of *Ulysses S. Grant: Triumph over Adversity, 1822-1865*.

The Shattering of the Union, Eric H. Walther, 2004. The 1850s offered the last remotely feasible chance for the United States to steer clear of Civil War. Yet fundamental differences between North and South about slavery and the meaning of freedom caused political conflicts to erupt again and again throughout the decade as the country lurched toward secession and war. With their grudging acceptance of the Compromise of 1850 and the election of Franklin Pierce as president in 1852, most Americans hoped that sectional strife and political upheaval had come to an end. Extremists in both North and South, abolitionists and secessionists, testified to the prevailing air of complacency by their shared frustration over having failed to bring on some sort of conflict. Both sets of zealots wondered what it would take to convince the masses that the other side still menaced their respective visions of liberty. And as new divisive issues emerged in national politics with slavery still standing as the major obstacle, compromise seemed more elusive than ever. As the decade progressed, battle lines hardened. The North grew more hostile to slavery while the South seized every opportunity to spread it. Immigrant Aid Societies flourished in the North.

raising money men and military supplies to secure a free soil majority in Kansas Southerners flocked to the territory in an effort to fight off antislavery After his stirring vilification of the institution of slavery Massachusetts senator Charles Sumner was brutally attacked on the floor of the United States Senate Congress whose function was to peacefully resolve disputes became an armed camp with men in both houses and from both sections arming themselves within the capitol building In October 1858 Senator William Henry Seward said that the nation was headed for an irrepressible conflict In spite of the progress ushered in by the decade s enormous economic growth the country was self destructing The Shattering of the Union America in the 1850s is a concise readable analysis and survey of the major ideas and events that resulted in the Civil War The first scholarly synthesis of America s final antebellum decade to be published in more than twenty years this essential overview incorporates methods and findings by recognized historians on politics society race relations ideology and slavery This book is a fascinating look at one of the pivotal decades in U S history Slavery and the American West Michael A. Morrison, 2000-11-15 Tracing the sectionalization of American politics in the 1840s and 1850s Michael Morrison offers a comprehensive study of how slavery and territorial expansion intersected as causes of the Civil War Specifically he argues that the common heritage of the American Revolution bound Americans together until disputes over the extension of slavery into the territories led northerners and southerners to increasingly divergent understandings of the Revolution s legacy Manifest Destiny promised the literal enlargement of freedom through the extension of American institutions all the way to the Pacific At each step from John Tyler s attempt to annex Texas in 1844 to the Kansas Nebraska Act to the opening shots of the Civil War the issue of slavery had to be confronted Morrison shows that the Revolution was the common prism through which northerners and southerners viewed these events and that the factor that ultimately made consensus impossible was slavery itself By 1861 no nationally accepted solution to the dilemma of slavery in the territories had emerged no political party existed as a national entity and politicians from both North and South had come to believe that those on the other side had subverted the American political tradition *The A to Z of the Jacksonian Era and Manifest Destiny* Terry Corps, 2009-07-27 The brief period from 1829 to 1849 was one of the most important in American history During just two decades the American government was strengthened the political system consolidated and the economy diversified All the while literature and the arts the press and philanthropy urbanization and religious revivalism sparked other changes The belief in Manifest Destiny simultaneously caused expansion across the continent and the wretched treatment of the Native Americans while arguments over slavery slowly tore a rift in the country as sectional divisions grew and a national crisis became almost inevitable The A to Z of the Jacksonian Era and Manifest Destiny takes a close look at these sensitive years Through a chronology that traces events year by year and sometimes even month by month actions are clearly delineated The introduction summarizes the major trends of the epoch and the four administrations therein The details are then supplied in several hundred cross referenced dictionary entries and the bibliography concludes this essential tool for anyone interested

in history The Slaveholding Republic the late Don E. Fehrenbacher, 2002-12-19 Many leading historians have argued that the Constitution of the United States was a proslavery document But in The Slaveholding Republic one of America's most eminent historians refutes this claim in a landmark history that stretches from the Continental Congress to the Presidency of Abraham Lincoln Fehrenbacher shows that the Constitution itself was more or less neutral on the issue of slavery and that in the antebellum period the idea that the Constitution protected slavery was hotly debated many Northerners would concede only that slavery was protected by state law not by federal law Nevertheless he also reveals that U S policy abroad and in the territories was consistently proslavery Fehrenbacher makes clear why Lincoln's election was such a shock to the South and shows how Lincoln's approach to emancipation which seems exceedingly cautious by modern standards quickly evolved into a Republican revolution that ended the anomaly of the United States as a slaveholding republic The Oxford Handbook of the U.S. Constitution Mark V. Tushnet, Mark A. Graber, Sanford Levinson, 2015 The Oxford Handbook of the U S Constitution offers a comprehensive overview and introduction to the U S Constitution from the perspectives of history political science law rights and constitutional themes while focusing on its development structures rights and role in the U S political system and culture This Handbook enables readers within and beyond the U S to develop a critical comprehension of the literature on the Constitution along with accessible and up to date analysis Whether a return to the pristine constitutional institutions of the founding or a translation of these constitutional norms in the present is possible remains the central challenge of U S constitutionalism today *Historical Dictionary of the Jacksonian Era and Manifest Destiny* Mark R. Cheatham, Terry Corps, 2016-12-13 The Jacksonian period under review in this dictionary served as a transition period for the United States The growing pains of the republic's infancy during which time Americans learned that their nation would survive transitions of political power gave way to the uncertainty of adolescence While the United States did not win its second war the War of 1812 with its mother country it reaffirmed its independence and experienced significant maturation in many areas following the conflict's end in 1815 As the second generation of leaders took charge in the 1820s the United States experienced the challenges of adulthood The height of those adult years from 1829 to 1849 is the focus of the *Historical Dictionary of the Jacksonian Era and Manifest Destiny* This second edition of *Historical Dictionary of the Jacksonian Era and Manifest Destiny* contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 200 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about this era in American history
