Mankind in the Making H. G. Wells,2010 Herbert George Wells 21 September 1866 13 August 1946 known primarily as H G Wells was a prolific English writer in many genres including the novel history politics and social commentary and textbooks and rules for war games He is now best remembered for his science fiction novels and Wells is called the father of science fiction along with Jules Verne and Hugo Gernsback His most notable science fiction works include The Time Machine 1895 The Island of Doctor Moreau 1896 The Invisible Man 1897 and The War of the Worlds 1898 Mankind in the Making H. G. Wells,2014-03-16 It may save misunderstanding if a word or so be said here of the aim and scope of this book It is written in relation to a previous work Anticipations Footnote Published by Harper Bros and together with that and a small pamphlet The Discovery of the Future Footnote Nature vol lxxv 1901 2 p 326 and reprinted in the Smithsonian Report for 1902 presents a general theory of social development and of social and political conduct It is an attempt to deal with social and political questions in a new way and from a new starting point viewing the whole social and political world as aspects of one universal evolving scheme and placing all social and political activities in a defined relation to that and to this general method and trend it is that the attention of the reader is especially directed The two books and the pamphlet together are to be regarded as an essay in presentation It is a work that the writer admits he has undertaken primarily for his own mental comfort He is remarkably not qualified to assume an authoritative tone in these matters and he is acutely aware of the many defects in detailed knowledge in temper and in training these papers collectively display He is aware that at such points for

example as the reference to authorities in the chapter on the biological problem and to books in the educational chapter the lacunar quality of his reading and knowledge is only too evident to fill in and complete his design notably in the fourth paper he has had quite frankly to jerry build here and there
