Manliness And The Male Novelist In Victorian Literature:

Manliness and the Male Novelist in Victorian Literature Andrew Dowling, 2017-03-02 The purpose of this book is to address two principal questions Was the concept of masculinity a topic of debate for the Victorians and Why is Victorian literature full of images of male deviance when Victorian masculinity is defined by discipline In his introduction Dowling defines Victorian masculinity in terms of discipline He then addresses the central question of why an official ideal of manly discipline in the nineteenth century co existed with a literature that is full of images of male deviance In answering this question he develops a notion of hegemonic deviance whereby a dominant ideal of masculinity defines itself by what it is not Dowling goes on to examine the fear of effeminacy facing Victorian literary men and the strategies used to combat these fears by the nineteenth century male novelist In later chapters concentrating on Dickens and Thackeray he examines how the male novelist is defined against multiple images of unmanliness These chapters illustrate the investment made by men in constructing male others those sources of difference that are constantly produced and then crushed from within gender divide By analysing how Victorian literary texts both reveal and reconcile historical anxieties about the meaning of manliness Dowling argues that masculinity is a complex construction rather than a natural given *The New Man, Masculinity and Marriage in the Victorian Novel* Tara MacDonald, 2015-10-06 By tracing the rise of the New Man alongside novelistic changes in the representations of marriage MacDonald shows how this figure encouraged Victorian writers to reassess masculine behaviour and to re imagine the marriage plot in light of wider social changes She finds examples in novels by Dickens Anne Bront George Eliot and George Gissing **The New Man, Masculinity and Marriage in the Victorian Novel** Tara MacDonald, 2015-10-06 By tracing the rise of the New Man alongside novelistic changes in the representations of marriage MacDonald shows how this figure encouraged Victorian writers to reassess masculine behaviour and to re imagine the marriage plot in light of wider social changes She finds examples in novels by Dickens Anne Bront George Eliot and George Gissing **The Victorian Novel and Masculinity** P. Dorré, 2016-12-05 The horse was essential to the workings of Victorian society and its representations which are vast ranging and often contradictory comprise a vibrant cult of the horse Examining the representational emblematic and rhetorical uses of horses in a diversity of nineteenth century texts Gina M Dorr shows how discourses about horses reveal and negotiate anxieties related to industrialism and technology constructions of gender and sexuality ruptures in the social fabric caused by class conflict and mobility and changes occasioned by national progress and imperial expansion She argues that as a cultural object the horse functions as a repository of desire and despair in a society rocked by astonishing social economic and technological shifts While representations of horses abound in Victorian fiction Gina M Dorr's study focuses on those novels by Charles Dickens Elizabeth Braddon Anna Sewell and George Moore that engage with the most impassioned controversies concerning horses and horse care such as the introduction of the steam engine popular new methods of horse taming debates over the tight reining of horses and the moral furor surrounding gambling at the race track Her book establishes the centrality of the horse as a Victorian cultural icon and explores how through it dominant ideologies of gender and class are created promoted and disrupted **Science, Medicine, and Aristocratic Lineage in Victorian Popular Fiction** Abigail Boucher, 2023-08-31 Science Medicine and Aristocratic Lineage in Victorian Popular Fiction explores the dialogue between popular literature and medical and scientific discourse in terms of how they represent the highly visible and pathologized British aristocratic body This book explores and complicates the two major portrayals of aristocrats in nineteenth century

literature that of the medicalised frail debauched and diseased aristocrat and that of the heroic active beautiful noble both of which are frequent and resonant in popular fiction of the long nineteenth century Abigail Boucher argues that the concept of class in the long nineteenth century implicitly includes notions of blood lineage and bodily correctness and that class was therefore frequently portrayed as an empirical scientific and medical certainty Due to their elevated and highly visual social positions both historical and fictional aristocrats were frequently pathologized in the public mind and watched for signs of physical excellence or deviance Using popular fiction Boucher establishes patterns across decades genres and demographics and considers how these patterns react to normalise or feed into the advent of new scientific and medical understandings

Back to the Future of the Body Dominic Janes, 2013-02-14 What can the past tell us about the future s of the body The origins of this collection of papers lie in the work of the Birkbeck Institute for the Humanities which has been involved in presenting a series of international workshops and conferences on the theme of the cultural life of the body The rationale for these events was that in concepts as diverse as the cyborg the questioning of mind body dualism the contemporary image of the suicide bomber and the patenting of human genes we can identify ways in which the future of the human body is at stake This volume represents an attempt not so much to speculate about what might happen but to develop strategies for bodily empowerment so as to get back to the future of the body The body it is contended is not to be thought of as an object or a sign but as an active participant in the shaping of cultural formations And this is emphatically not an exercise in digging corpses out of the historical archive The question is rather what can past lived and thought experiences of the body tell us about what the body can become The continuing vitality of debate around the body was proven by the range and depth of the papers presented at the workshop on which this volume is based does the body have a future Our overall theme required contributors to think through embodiment in the past This they did with considerable interdisciplinary vigour rigorousness and imagination Prof Donna Dickenson Director Birkbeck Institute of the Humanities *Masculinity, Crime and Self-Defence in Victorian Literature* E. Godfrey, 2010-12-03 Now in paperback this book considers crime fighting from the perspective of the civilian city goer from the mid Victorian garotting panics to 1914 It charts the shift from the use of body armour to the adoption of exotic martial arts through the works of popular playwrights and novelists examining changing ideals of urban middle class heroism
