Thomas Mann's Felix Krull written between 1910-13 and continued though never completed in 1951-54 uses contemporary accounts of these figures as a starting point from which to explore the aesthetics of society The early Krull marks an important stage in Mann's development in a number of respects In writing it Mann acquired a more flexible conception of identity and a new understanding of the relation between artist and public Krull also signals a deeper engagement with Goethe and a shift in Mann's work towards a more open treatment of sexuality The novel presents art as being central to the development of the individual and to social interaction While Krull is nominally a confidence man he is more of a performance artist a purveyor of beauty who relies upon the complicity of his audience The later Krull takes up where Mann left off and continues the justification of art as an essential human activity This study draws upon unpublished material in order to provide a comprehensive reading of Felix Krull It examines the novel within the context of Mann's work as a whole and in doing so it seeks to demonstrate the remarkable continuity of Mann's creative achievement The Cambridge Companion to Thomas Mann Ritchie Robertson, 2002 Specially commissioned essays explore key dimensions of Thomas Mann's writing and life **The British Library General Catalogue of Printed Books to 1975** British Library, 1983 *Two Stories.*
