Manpower Strategy For The Metropolis:

Manpower Strategy for the Metropolis by and the Conservation of Human Resources Staff, Columbia University Eli Ginzberg, 1968 *Manpower Strategy for the Metropolis* Eli Ginzberg, 1968 Manpower strategy for the metropolis Eli Ginzberg, 1969 **The Conservation of Human Resources Staff** Eli Ginzberg, 1968 **Survival Strategies** George G. Wynne, 1979 This is a most unusual contribution to comparative urban systems It examines Paris and New York in terms of future prospects for each city in the face of draconian social economic and political changes and takes as axiomatic that the struggles of New York and Paris are those of super cities namely struggles to survive as world centers and not just as national metropolitan areas of worth The volume covers such vital areas as planning for older cities like Paris and New York problems in the internal management system of each city the relationship between inner cities and suburbs and issues involved in regional planning in which the two world cities provide models for their nations and the world as a whole The work is unusual in that it not only appraises organizational issues but sociological and architectural ones as well Hence the issue of blacks in New York or Arabs in Paris is addressed with considerable candor and insight The relationship between substandard housing in each of the cities is examined with the clear understanding of the racial dynamics at work in each of these centers This work gives intellectual and practical substance to Gottman s notion of megalopolis and places in sharp comparative relief problems which all too often are seen as local and parochial in character This volume represents the first world cities approach to real world cities and as such is a pioneering effort that will be greeted with great enthusiasm by scholarly and general readers alike The authors gathered for this effort represent leading practitioners from both France and the United States and hence the volume is a joy to read no less than to ponder Eli Ginzberg Irving Horowitz, 2017-12-04 The world of Eli Ginzberg can readily be thought of as a triptych a career in three parts In his early years Ginzberg s work was dedicated to understanding the history of economics from Adam Smith to C Wesley Mitchell and placing that understanding in what might well be considered economic ethnography His studies took him on travels from Wales in the United Kingdom to California in the United States For example the poignant account of Welsh miners in an era of economic depression and technological change remains a landmark work His report of a cross country trip taken in the first year of the New Deal provides insight and evaluation that can scarcely be captured in present day writings The second period of his career corresponds to Ginzberg s increasing involvement in the practice of economics He deals with issues related to manpower allocation employment shifts and gender and racial changes in the workforce His writing reflects a growing concern for child welfare and education In this period his work increasingly focuses on federal state and city governments and how the public sector impacts all basic social issues His work was sufficiently transcendent of political ideology that seven presidents sought and received his advice and participation After receiving all due encomiums and congratulations for intellectual work and policy research well done Ginzberg then went on to spend the next thirty years of his life carving out a

place as a preeminent economist of health welfare services and hospital administration It is this portion of his life that is the subject of Eli Ginzberg The Economist as a Public Intellectual What is apparent in Ginzberg s work of this period is his sense of the growing interaction of all the social sciences pure and applied to develop a sense of the whole The contributors to this festschrift join together to provide a portrait of a figure whose life and work have spanned the twentieth century and yet pointed the way to changes in the twenty first century Eli Ginzberg from the start possessed a strong sense of social justice and economic equality grounded in a Judaic Christian tradition All of these aspects come together in the writings of a person who transcends all parochialism and gives substantive content to the often cloudy phrase public intellectual Irving Louis Horowitz is Hanna Arendt Distinguished Professor Emeritus at Rutgers the State University of New Jersey where he has taught for over thirty years He also serves as Chairman of the Board at Transaction Publishers His writings include Radicalism and the Revolt Against Reason Behemoth Main Currents in the History and Theory of Political Sociology and Taking Lives Genocide and State Power Monthly Labor Review United States. Bureau of Labor Statistics,1973 Publishes in depth articles on labor subjects current labor statistics information about current labor contracts and book reviews
