Does the World Exist? Anna-Teresa Tymieniecka, 2012-12-06 Does the World exist There would be no reason to resurrect this question of modernity from its historical oblivion were it not for the fact that recent evolution in science and technology impregnating culture makes us wonder about the nature of reality of the world we are living in and of our status as living beings within it Thus great metaphysical subjacent queries are forcefully revived calling for new investigations to proceed in the light of the innumerable novel insights of science This collection presents a wealth of material toward an elaboration of a new metaphysical groundwork of the ontopoiesis phenomenology of life sought to effect such investigations The classic postulates of the metaphysics of reality those of necessity and certainty here find a new formulation Away from sclerotized ontological and cognitive assumptions and congenial with the views of contemporary science the understanding of reality of our world of life and of ourselves within it is to be sought in the existential ontopoietic ciphering of life Tymieniecka The Self and The Other Anna-Teresa Tymieniecka, 2013-06-29 **Ontopoietic Expansion in Human**

Self-Interpretation-in-Existence Anna-Teresa Tymieniecka, 1998 Papers from the Second World Phenomenology Congress convened September 12 18 1995 in Guadalajara Mexico articulate the four main tenets of the ontopoiesis of life the priority of the creative act over the cognitive intentional act the revelation that the human creative condition is pivotal in tracing specifically human powers that the creative act of the human being is the meeting ground for all human endeavors and the ontopoietic self individualization of life No index Annotation copyrighted by Book News Inc Portland OR *Logos and Life: The Three Movements of the Soul* Anna-Teresa Tymieniecka, 1988-10-31 PART I THE CRITIQUE OF REASON CONTINUED FROM LOGOS TO ANTI LOGOS 1 THE NEW CRITIQUE OF REASON A new critique of reason is the crucial task imposed on the philosophy of our times as we emerge more and more from so called modernism into a historical phase which will have to take its own paths and find its own determination It may be considered that the main developmental line of modern times in its philosophy as well as in its culture at large was traced by the Cartesian cogito The unfolding of Occidental philosophy has culminated in reason or intellect s being awarded the central place This is its specific trait We can see a direct line of progression from the cogito to Kant s Critique It is no wonder that this work is the landmark of modern philosophy Kant s Critique was concerned with the foundation of the sciences Edmund Husserl launched a second major renewed critique of reason one which addresses not only the critical situation of the sciences but extends the critique even to the situation of Occidental culture as its malaise is diagnosed by this great thinker Edmund Husserl voiced in fact the conviction that Occidental humanity has reached in our age the peak of its unfolding His identifying this peak with the formulation of phenomenological philosophy strikes at the point in which the significant and novel developments of Occidental culture and

philosophy phenomenology that is coincide Logos and Life: Creative Experience and the Critique of Reason Anna-Teresa Tymieniecka, 2012-12-06 It is rare that we feel ourselves to be participating in history Yet as Bertrand Russell observed philosophy develops in response to the challenges of socio cultural problems and situations The present day philosophical endeavor is prompted not by one or two but by a conundrum of problems and controversies in which the forces carrying life are set against each other The struggles in which contemporary mankind is fiercely engaged are not confined as in the past to economic territorial or religious rivalries nor to the quest for power but extend to the primary conditions of human existence They under mine man s primogenital confidence in life and shatter the intimacy of his home on earth Philosophical reflection today cannot fail to feel the pressure of the current situation within which it unfolds Since this situation now involves the ultimate conditions of human existence its demands have at last given to philosophy the impetus and direction needed for conceiving that the first and last of its concerns should be life itself **The Development and Meaning of Twentieth-century Existentialism** William Leon McBride, 1997 This collection of essays and reviews represents the most significant and comprehensive writing on Shakespeare s A Comedy of Errors Miola s edited work also features a comprehensive critical history coupled with a full bibliography and photographs of major productions of the play from around the world In the collection there are five previously unpublished essays The topics covered in these new essays are women in the play the play s debt to contemporary theater its critical and performance histories in Germany and Japan the metrical variety of the play and the distinctly modern perspective on the play as containing dark and disturbing elements To compliment these new essays the collection features significant scholarship and commentary on The Comedy of Errors that is published in obscure and difficult accessible journals newspapers and other sources This collection brings together these essays for the first time The Phenomenology of Man and of the Human Condition Anna-Teresa Tymieniecka, 2012-12-06
