**Masculinities in a Global Era** Joseph Gelfer, 2013-06-20 Masculinities in a Global Era extends the conversation of masculinity studies by analyzing global masculinities from a psychological perspective Canvassing a broad array of psychological aspects such as the construction of identity the negotiation of power coping with trauma and sexuality this volume shows how masculinities are experienced performed and embodied in geographically dispersed communities Importantly Masculinities in a Global Era fulfills a much needed but elusive need within the study of masculinities a forum in which the often polarized approaches of pro feminists and men s rights advocates can begin to move beyond their entrenched historical positions towards a more fruitful and nuanced future

Gender Inclusive Adam Jones, 2008-12-02 Gender Inclusive offers a challenging and unconventional reinterpretation of gender and mass violence Compiling essays and excerpts drawn from nearly two decades of Adam Jones s writing on gender and politics this stimulating and diverse collection of essays explores vital issues surrounding gendercide gender selective mass killing including How gender shapes men and women as victims and perpetrators of mass violence including genocide The range of gender selective atrocities inflicted upon males especially the gendercidal killing of civilian men of battle age The victimization of women and girls worldwide including the structural forms of violence gendercidal institutions directed against them Genocidal violence throughout modern history with a particular focus on the Balkans and Rwanda In depth critiques of prevailing gender framings in academic scholarship mass media and the policy sphere Adam Jones recently selected as one of fifty key thinkers in Holocaust and genocide studies contests prevailing interpretations of gender and violence arguing that they fail to capture the broad range of gendered experience His global historical treatment is essential reading for anyone with an interest in genocide human rights and gender studies

From Boys to Men Tamara Shefer, 2007 The current emphasis in research and education on women and girls is fraught with problems It has raised a concern that boys and men should be included in research and intervention work on gender equality and transformation As a result academics with a background of many years of work in women s and gender studies undertook a research project focusing on the construction of masculinities among young men From Boys to Men was born out of this project This highly original work arises from the conference From Boys to Men held in January 2005 It represents the work of some of the best known theorists and researchers in masculinities and feminism in South Africa on the continent and internationally The subjects covered are based on rich ethnographic studies mostly in South Africa but also elsewhere in Africa Acknowledging that there are multiple versions of masculinity and that some are more valued than others this book is concerned with documenting both hegemonic discourses on masculinity as well as resistances and challenges to dominant forms of being a boy or man in different contexts of space and time From Boys to Men provides valuable material for those working with issues of gender identity and power and will sharpen understanding of males inform community based interventions and

facilitate theory building This impressive collection of research on men boys and masculinities would have been impossible just a generation ago It took the worldwide impact of the women s liberation movement and the many feminisms that have since developed to bring gender into focus and to bring men into focus as participants in a gender system Raewyn Connell Professor at the University of Sydney author of *Masculinities* 1995 Given the extant paucity of research and literature on masculinities this book will undoubtedly prove to be an invaluable resource for scholars in the field of gender studies The editors of the volume should be commended for this timely well constructed and significant contribution to the literature on masculinities studies both in South Africa and internationally Norman Duncan Chair of Psychology University of the Witwatersrand Setting this collection apart from existing scholarship on masculinities in South Africa is its interrogation of the gendered rhetoric of boyhood and manhood in the context of HIV Aids This is a multilayered and rich collection that suggests masculinities have the potential to be unmade and remade The volume usefully opens up new avenues of analysis telling us that masculinities are always in process under negotiation contradictory for ever in crisis Vasu Reddy Gender and Development Unit Human Sciences Research Council *Critical Explorations of Crisis* Helle Rydstrom, Mo Hamza, Thomas Gammeltoft-Hansen, Vanja Berggren, 2025-09-18

Claims to crisis reverberate across societal and academic discourses as people around the world face dire situations and detrimental challenges Yet the study of crisis tends to remain siloed and therefore oblivious to the multi dimensional nature of crisis which inhibits learning from one type of crisis to the next Bringing together a broad team of contributors this book argues for a new interdisciplinary field of crisis studies Covering a range of cases the book critically explores the intersections of socio economic political climate and health factors to unravel the dynamic and transformative forces of crisis In doing so the book contributes novel insights into human precariousness and resilience in times of crisis shaped by global local inequities post fact discourses and politics **Masculine Power and Gender Equality: Masculinities as Change Agents** Russell Luyt, Kathleen Starck, 2020-03-03 This book explores how political institutions can challenge dominant and normative masculinities guiding thinking instead toward a transformation of gendered power structures and general equality Representing a range of relevant areas the expert chapter authors provide various methodological and theoretical approaches applied to shifting gender meanings in cultural national and social contexts Authors also represent a variety of cultures contributing to the multi perspective debate about how best to achieve gender equality in the real world Among the topics discussed Reimagining masculinities their everyday practice and practical interventions Towards a feminist theory of male rape Political implications of challenging men s everyday practices through domestic violence primary prevention work Men as allies a case study of White Ribbon Australia **Masculine Power and Gender Equality Masculinities as Change Agents** provides valuable insight into strategies for re imagining male dominated power structures and promoting gender equality **Destabilising Manhood and Masculinity** Bob Pease, 2025-07-01 This book addresses the debate within feminism and critical studies of men and masculinities on whether men should be

encouraged to develop alternative masculinities or whether they should be challenged to renounce masculinity altogether It argues that men have to move beyond the illusion of masculinity to address their habitual ways of relating that reinforce dominance and oppression and instead foster subjectivities that are multiple and fluid Tracing the nature of the problem associated with men masculinity and gender Pease examines the implications of feminist engagements with Gilles Deleuze and Felix Guattari to explore the possibilities of destabilising and moving beyond manhood and masculinity The book will be of interest to scholars in Sociology Psychology Social Work and Environmental and Gender Studies especially as they relate to critical studies of men and masculinities
