## **My Vertical World:**

*My Vertical World* Jerzy Kukuczka, 1992 *My Vertical World* is the story of a quiet family man from Silesia who was also a single minded schemer sailing close to the bureaucratic wind in Poland as well as Pakistan and Nepal painting factory chimneys and thinking of Lhotse juggling for most of the time with meagre hard currency scarce food and indifferent gear to achieve the starting point western climbers took for granted Slow to acclimatise once he had done Kukuczka's stamina and drive were formidable Preferring where possible to climb alpine style with one companion among his more remarkable achievements are his solo ascent of a new route on Makalu a first traverse of the North and Middle Summits of Broad Peak climbing two 8000 metre peaks over 3000 kilometres apart in winter within twenty five days and making a new route up the middle of the South Face of K2 as a two man team His narrative takes the reader behind the catalogue of achievements to discover a diffident man anxious for his good name sobered by loss of friends who can still view the antics of the international climbing circus with good humour and climbed because his passion for his vertical world was an enveloping as it was infectious

*The Infamous Boundary* David Wick, 1995-10-18 reprinted in the British trade journal Physics World in 1990 three separate and 5 lengthy replies from establishment physicists were printed in subsequent issues For outsiders especially scientists who rely on physicist s theories in their own fields this situation is disquieting Moreover many recall their introduction to quantum mechanics as a startling if not shocking experience A molecular biologist related how he had started in theoretical physics but after hearing the ideology of quantum mechanics marched straight to the Registrar s office and switched fields A colleague recalled how her undergraduate chemistry professor religiously entertained queries from the class until one day he began with the words No questions will be permitted on today s lecture The topic of course was quantum mechanics My father an organic chemist at a Midwestern university also had to give that dreaded annual lecture Around age 16 I picked up a little book he used to prepare and was perplexed by the author s tone which seemed apologetic to the point of pleading It was my first brush with the quantum theory

6 Eventually I went to graduate school in physics By then I had acquired an historical bent which developed out of an episode in my freshman year in college To relieve the tedium of the introductory physics course I set out to understand Einstein s theory of relativity the so called Special Theory of 1905 not the later and more difficult General Theory of 1915 This went badly at first

[Psychovertical](#) Andy Kirkpatrick, 2012-08-27 [CLICK HERE](#) to download the first chapter from Psychovertical Psychovertical is the story of what happens to a nice lower class kid with dyslexia who gains control over his circumstances by clinging to giant stone faces thousands of feet in the air for days at a time In this case Kirkpatrick uses his 12 day solo climb of the Reticent Wall on California s El Capitan as the experience that helps him understand how growing up poor and struggling with dyslexia and low self confidence set him on a path of extreme adventure Kirkpatrick s writing is gripping and highly entertaining even non climbers will enjoy his raw intensity gallows humor and honest self deprecating storytelling style This book is a Boardman Tasker Prize winner which is recognition given for outstanding mountaineering literature From the judges remarks The book is very cleverly structured The cuts from scene to scene and climb to climb work wonderfully well a sort of mountaineering Day of The Jackal as Kirkpatrick comes closer and closer to his nemesis on Reticent Wall And it is this climb the running narrative of the book that grips the most 14 pitches of aid climbing unrelieved by conversation with a partner other than himself should by rights be boring But it grips the heart further and further

Shishapangma Doug Scott,Alex MacIntyre,2014-04-10 In 1982 following the relaxation of access restrictions to Tibet six climbers set off for the Himalaya to explore the little known Shishapangma massif in Tibet Dealing with a chaotic build up and bureaucratic obstacles so huge they verged on comical the mountaineers gained access to Shishapangma s unclimbed South West Face where Doug Scott Alex MacIntyre and Roger Baxter Jones made one of the most audacious and stylish Himalayan climbs ever First published in 1984 as The Shishapangma Expedition Shishapangma won the first ever Boardman Tasker Prize for Mountain Literature Told through a series of diary style entries from all the climbers involved Shishapangma reveals the difficult nature of Himalayan decision making mountaineering tacti and climbing relationships Tense and candid the six writers see every event differently reacting in different ways and pulling no punches in their opinions of the other mountaineers quite literally at one point Nonetheless the climbers at the peak of their considerable powers and experience completed an extremely committing enterprise The example set by their fine climb survives and several new routes all done in alpine style have now been added to this magnificent face For well trained climbers such ascents are fast and efficient but the consequences of error misjudgement or bad luck can be terminal and sadly soon afterwards two of the participants were struck down in mountaineering accidents MacIntyre hit by stonefall on Annapurna s South Face and Baxter Jones being caught by an ice avalanche on the Aiguille du Triolet In addition their support climber Nick Prescott died in a Chamonix hospital from an altitude induced ailment Shishapangma is a gripping first hand account of the intense reality of high altitidue alpinism **Freedom Climbers** Bernadette McDonald,2013-02-20 [CLICK HERE](#) to download the first chapter from

Freedom Climbers Provide us with a little information and we ll send your download directly to your inbox One of the most important mountaineering books to be written for many years Boardman Tasker Prize See this book trailer for Freedom Climbers made by RMB Books its publisher in Canada where the cover is slightly different from the Mountaineers Books U S edition Behind the Iron Curtain Cold War mountaineers found freedom on the world s highest peaks and paid an awful price to achieve it Winner of the Boardman Tasker Prize Banff Grand Prize and American Alpine Club Literary Award Freedom Climbers tells the story of Poland s truly remarkable mountaineers who dominated Himalayan climbing during the period between the end of World War II and the start of the new millennium The emphasis here is on their golden age in the 1980s and 1990s when despite the economic and social baggage of their struggling country Polish climbers were the first to tackle

the world's highest mountains during winter including the first winter ascents on seven of the world's fourteen 8000 meter peaks Everest Manaslu Dhaulagiri Cho Oyu Kanchenjunga Annapurna and Lhotse Such successes however came at a serious cost 80 percent of Poland's finest high altitude climbers died on the high mountains during the same period they were pursuing these first ascents Award winning writer Bernadette McDonald addresses the social political and cultural context of this golden age and the hardships of life under Soviet rule Polish climbers she argues were so tough because their lives at home were so tough they lost family members to World War II and its aftermath and were so much more poverty stricken than their Western counterparts that they made much of their own climbing gear While *Freedom Climbers* tells the larger story of an era McDonald shares charismatic personal narratives such as that of Wanda Rutkiewicz expected to be the first woman to climb all 8000 meter peaks until she disappeared on Kanchenjunga in 1992 Jerzy Kukuczka who died in a fall while attempting the south face of Lhotse and numerous other renowned climbers including Voytek Kurtyka Artur Hajzer Andrej Zawaka and Krzysztof Wielicki This is a fascinating window into a different world far removed from modernity yet connected by the strange allure of the mountain landscape and a story of inspiring passion against all odds This title is part of our LEGENDS AND LORE series [Click here to learn more](#)
