Inherit the Holy Mountain Mark Stoll,2015-04-30 In Inherit the Holy Mountain historian Mark Stoll introduces us to the religious roots of the American environmental movement Religion he shows provided environmentalists both with deeply embedded moral and cultural ways of viewing the world and with content direction and tone for the causes they espoused Stoll discovers that specific denominational origins corresponded with characteristic sets of ideas about nature and the environment as well as distinctive aesthetic reactions to nature as can be seen in key works of art analyzed throughout the book Stoll also provides insight into the possible future of environmentalism in the United States concluding with an examination of the current religious scene and what it portends for the future By debunking the supposed divide between religion and American environmentalism Inherit the Holy Mountain opens up a fundamentally new narrative in environmental studies *Citizen Justice* Mary Margaret McKeown,2022 Citizen Justice The Environmental Legacy of William O Douglas Public Advocate and Conservation Champion highlights William O Douglas s dual role in fulfilling his constitutional duty as justice while catering to his personal commitment to serve the public as a citizen advocate **Nature Writing** Don

Scheese,2013-10-28 In this comprehensive study of the genre Don Scheese traces its evolution from the pastoralism evident in the natural history observations of Aristotle and the poetry of Virgil to current American writers He documents the emergence of the modern form of nature writing as a reaction to industrialization Scheese s personal observations of natural settings sharpen the reader s understanding of the dynamics between author and locale His study is further informed by ample use of illustrations and close readings core writers such as Thoreau John Muir and Mary Austin showing how each writer s work exemplifies the pastoral tradition and celebrate a spirit of place in the United States *Hiking and Hiking Trails* Mary Ellen Barkauskas,1970 **Francis Lee Jaques** Don T. Secular Nicolas Howe,2016-09-05 What does it mean to see the American landscape in a secular way asks Nicolas Howe at the outset of this innovative ambitious and wide ranging book It s a surprising question because of what it implies we usually aren t seeing American landscapes through a non religious lens but rather as inflected by complicated little examined concepts of the sacred Fusing geography legal scholarship and religion in a potent analysis Howe shows how seemingly routine questions about how to look at a sunrise or a plateau or how to assess what a mountain is both physically and ideologically lead to complex arguments about the nature of religious experience and its implications for our lives as citizens In American society nominally secular but committed to permitting a diversity of religious beliefs and expressions such questions become all the more fraught and can lead to difficult often unsatisfying compromises regarding how to interpret and inhabit our public lands and spaces A serious commitment to secularism Howe shows forces us to confront the profound challenges of true religious diversity in ways that often will have their ultimate expression in our built environment This provocative exploration of some of the fundamental aspects of American life will help us see the land law and society anew
