**The Art of Facilitation** Dale Hunter, 2012-03-01 World renowned facilitation group and meetings dynamics guru explains how to run great meetings. Dr. Dale Hunter's classic guide includes all the latest findings and research on facilitation. Written by an international expert, it's the go-to sourcebook for people involved in human resources management, mediation, team leadership, performance management, and individual and team coaching. If you're someone who is responsible for effective group and interpersonal dynamics, this is the Bible. Interpersonal dynamics can unravel the best of managerial intentions. Worse still, a little knowledge in untrained hands can lead to managers manufacturing consent and manipulating people to agree to management goals. Hunter's book is a sobering reminder of how many managers, directors, and business leaders are stumbling about in the dark with very few skills when it comes to unlocking individual and group potential. The Art of Facilitation will sit comfortably on the bookshelf of anyone wanting to learn more about harnessing group energy to attain a common goal. Ruth Le Pla, Management Magazine, May 2007.

**Submerged in the Nothing** Sepideh Dashtestani, 2024-12-06 Submerged in the Nothing offers a fresh perspective for modern readers. As our understanding of the universe deepens through scientific advancements and quantum awareness, this book prepares readers to confront the profound realities that lie ahead. This novel delves into countless existential questions that have long troubled humanity, weaving scientific concepts from physics into an engaging narrative. As we seek answers to life's mysteries, we often find that each solution spawns new uncertainties. Through this thought-provoking story, the author re-examines the concept of God and the dilemmas faced by modern individuals grappling with faith. At the heart of the story is Cognizance, a man disillusioned by the unsatisfactory answers he's been given. In an act of defiance, he abandons his priest father and embarks on a cosmic journey in search of deeper truths. His travels through space lead him to question the very foundations of existence and confront fears that have haunted humanity for millennia. Along the way, he uncovers hidden truths and fresh perspectives on the universe and philosophical inquiry. Inspired by the author's own transformative journey into modernity, Submerged in the Nothing invites readers to explore the paradoxes and beauty of existence through the eyes of a restless soul seeking ultimate understanding.
