Mykhailo Hrushevskiy Mizh Istoriiu Ta Politykoiu 1920-1930ti Roky Zbirnyk Dokumentiv I Materialiv:

The 'Change of Signposts' in the Ukrainian Emigration Christopher Gilley, 2009-09-25 The failure of the attempts to create a Ukrainian state during the 1917-21 revolution created a large Ukrainian migr community in Central Europe which due to its experience of fighting the Bolsheviks developed a decidedly anti Communist ideology of integral nationalism. However during the 1920s some in the Ukrainian emigration rejected this doctrine and began to advocate reconciliation with their former enemies and return to Soviet Ukraine. This included some of the most prominent figures in the Ukrainian governments set up after 1917 for example Mykhailo Hrushevskiy Volodymyr Vynnychenko and Yevhen Petrushevych. On the basis of published and unpublished writings of the Sovietophile migr s Christopher Gilley reconstructs and analyzes the arguments used to justify cooperation with the Bolsheviks. In particular he contrasts those who supported the Soviet regime because they saw the Bolsheviks as leaders of the international revolution with those who stressed the apparent national achievements of the Soviet Ukrainian republic. In addition Gilley examines Soviet policy towards pro Soviet migr s and the relationship between the migr s and the Bolsheviks using documents from historical archives in Kyiv. The Ukrainian movement is compared to a similar phenomenon in the Russian emigration. **Smena vekh Change of Signposts** The book contributes to the study of the era of the New Economic Policy and Ukrainianization in the Soviet Union as well as to the histories of the Ukrainian emigration in the 1920s and of Ukrainian political thought. **Ukraine and Russia** Serhii Plokhy, Mykhailo Hrushevsky Professor of Ukrainian History Serhii Plokhy, 2008-01-01 The question of where Russian history ends and Ukrainian history begins has not yet received a satisfactory answer. Generations of historians referred to Kyiv the capital of Ukraine as the starting point of the Muscovite dynasty the Russian state and ultimately the Russian nation. However the history of Kyiv and that of the Scythians of the Northern Black Sea region have also been claimed by Ukrainian historians and are now regarded as integral parts of the history of Ukraine. If these are actually the beginnings of Ukrainian history when does Russian history start. In **Ukraine and Russia** Serhii Plokhy discusses many questions fundamental to the formation of modern Russian and Ukrainian historical identity. He investigates the critical role of history in the development of modern national identities and offers historical and cultural insight into the current state of relations between the two nations. Plokhy shows how history has been constructed used and misused in order to justify the existence of imperial and modern national projects and how those projects have influenced the interpretation of history in Russia and Ukraine. This book makes important assertions not only about the conflicts and negotiations inherent to opposing historiographic traditions but about ways of overcoming the limitations imposed by those traditions. **Journal of Ukrainian Studies**, 2004
